## STOP DUKE ENERGY'S WNC PROJECT

Recipient: City of Landrum SC, Town of Campobello SC, City of Tryon NC, and Polk County

Letter: Greetings,

STOP the Duke Energy 'Western Carolinas "Modernization" Project'.

# Comments

Name	Location	Date	Comment
f may	columbus, NC	2015-07-18	I do not want the beauty of the foothills disturbed. There are many large horse farms in this area that would be extremely impacted in a negative way. We all moves here to avoid just what they are planning to do. My property value will be highly impacted in a negative way, not increase.
Kathy Woody	Landrum, SC	2015-07-18	Destroying this area is not necessary. It is a treasure here. We have fought eyes sores and blemishes for years and Duke needs to respect that and find alternatives.
Sarah Overcash	Campobello, SC	2015-07-18	The whole reason i moved here is to protect myself and my animals from negative impacts from city energy!!! The views are gods gift and i love the peace and calm it brings to everyone in my new community!! It would be a huge negative impact on this sweet quiet beautiful community!! I vote NO!!
sherry lukens	aiken, SC	2015-07-18	i used to live up in the Foothills..what Duke is proposing will not only destroy beautiful land but also do irreparable damage to wild life and the ecosystem
Cynthia Farris-Kelly	Travelers Rest, SC	2015-07-18	Duke Energy is working for the benefit of its stockholders and its own profit with no regard for the pristine areas of WNC and Upstate SC that it has ALREADY raped and pillaged! Now they are planning to do do more of the same.
Connie Eubanks	Tryon, NC	2015-07-18	This may affect the value of my property near Lake Adger
Diane Balding	Columbus, NC	2015-07-18	Our horse country is very special! Let's not ruin it!
Marcy Wright	Columbus, NC	2015-07-18	I am passionate about maintaining the natural beauty and quality of life that I moved here 23 years ago to find... and found!
Amy Correll	Columbus, NC	2015-07-18	I think the transmission lines should run along the highway and not ruin our beautiful views in horse country!
mary rice	cameron, NC	2015-07-18	Shame Duke power for the destruction you will cause to this beautiful place.
Shelley Contin-Hubbs	Northport, NY	2015-07-18	I'm outraged at the lack of environmental protection and the greed of the decision makers !! To think that big business can take - ransack and rape the land that a private citizen has worked through blood, sweat snd tears to maintain. I never thought this was possible till I moved to Western, NC, and learned about "eminent domain"..... My guts are twisting while Politicians and big business are lining their pockets !!!
Janine Cortese	Hendersonville, NC	2015-07-18	to prevent damage to our mountains
Deborah Bundy	Columbus, NC	2015-07-18	This is one area that has respected nature's value. Duke Energy needs to start doing that, too. Do not put above ground mega electric lines here.
Randi Wetzel	Columbus, NC	2015-07-18	Our pristine farmland and woodlands will be destroyed
Dorothy moyer	Columbus, NC	2015-07-18	this will ruin the Tryon economy.
Betsy McCray	Columbus, NC	2015-07-18	Everything that is so wonderful about this area and what attracts people to this area is going to be destroyed if Duke continues with this plan.
Elizabeth Troutman	Columbus, NC	2015-07-18	This will ruin the beauty of the first peaks of the Blue Ridge, lower property values on White Oak Mountain, and ruin the natural and carefully preserved beauty of the Polk County Mountains with 14+ story electrical towers! Please Duke Power, do not do shave these mountains and put up these proposed unsightly towers!
Carol Whaley	Landrum, SC	2015-07-18	I have horse property that will be affected by this and have invested money that was to be my retirement. This is totally insane.

Name	Location	Date	Comment
Virginia Maclure	Landrum, SC	2015-07-18	I do not want our landscape ruined
A R	Asheville, NC	2015-07-18	I don't want Duke Power ruining the beautiful place where I live!
Virginia Cardinale-Leavitt	Mill Spring, NC	2015-07-18	I am mad as hell that Duke Energy is trashing the environment where ecology and safety of the planet in our backyard is vital.
Mary Russell	Saluda, NC	2015-07-18	I bought this property because it wasn't close to high voltage lines. Why not use existing lines? Why not go straight up I26?
glenn freck	lake lure, NC	2015-07-18	Asheville can get there power from there own county with out messing up the ones around them.
Dorothy Crawford	Campobello, SC	2015-07-18	I have lived in Campobello since 1978, I like it just the way it is.
Lynn Mathis	Taylors, SC	2015-07-18	Please do not destroy our beauty.
Naomi Cantrell	Saluda, NC	2015-07-18	Duke Energy has already showed no regard for the environment let alone their customers!!!! Don't destroy our beautiful woods & land for your benefit!!!! Think about the environment, habits & all the people Duke Energy not your own pockets!!!!!!
Jackie Ellenburg	Saluda, NC	2015-07-18	Don't destroy my land!!!!
Elizabeth Smith	Landrum, SC	2015-07-18	Have property and home within one of the routes.
Patrick Keneipp	Charlotte, NC	2015-07-18	North Carolina needs solar
CAROLYN WORKMAN	CAMPOBELLO, SC	2015-07-18	I live here.
Jennifer Budai	Columbus, NC	2015-07-18	To stop Duke Energy from destroying the environment, aesthetic and peace that residents live and visitors come to the Foothills for.
Mary Wooten	Saluda, NC	2015-07-18	I live in this small town and do not want to see all the mess and the beautiful woods and mountains messed up due to all of the crap that does not need to happen
Darrell Burns	Landrum, SC	2015-07-18	This will deface views I have of Glassy Mountain.
Devin Williams	Columbus, NC	2015-07-18	This is my town that will be affected.
JOHN PUHLHORN	Tryon, NC	2015-07-19	PROJECT WOULD CAUSE MASSIVE ECONOMIC LOSS TO ENTIRE AREA AS WELL AS SIGNIFICANT IMPACT TO THIS BEAUTIFUL ENVIRONMENT.
George Greiner	Glenside, PA	2015-07-19	Because it may ruin my property value and view not to mention beautiful route 11 and immaculate forest.
Norma Hunt	Columbus, NC	2015-07-19	I have lived in the foothills all my life and I DO NOT want to see our mountains destroyed with unsightly power lines. Why can't you go underground and preserve our natural habitat or go along the lines of I-26. At least you won't be taking (much) away from the homeowners. I think it is a disgrace that you are allowed to have right of way from the homeowners when they do not approve of giving away their properties. This is a shame and a disgrace to all homeowners and the native people.
Christian Savaia	Tryon, NC	2015-07-19	This is a bad idea- go Solar!

Name	Location	Date	Comment
Bill Burges	Euclid, OH	2015-07-19	We own a beautiful piece of property in Hooper's Creek, Columbus, NC, which is a lovely agricultural-equestrian-retirement community that would be totally ruined by one of the routes. The property would no longer be viable for building a home, keeping horses or living a quiet agricultural lifestyle. It will obliterate our property and go right through people's yards and working pastures. It will mar a FETA trail irreparably, hurting a wonderful quality of life asset and community attraction. Obviously, it will destroy the value of our property and all the properties Hooper's Creek. It's an awful choice and one that should be rejected. I'm not against utilities or power improvements, but I oppose environmental, health and quality of life degradation. Duke should be stopped until there is a reasonable plan.
Alison Smith	Campobello, SC	2015-07-19	I love where we live. It's historic, natural, and beautiful. I sign this listening to evening toads in my front yard!
Glenda Wolf	Columbus, NC	2015-07-19	We value our beautiful farms and horse trails. That is why we moved to Polk County NC from Charlotte. Do not take away the beauty of this area.
Amy Loyd Cece	Columbus, NC	2015-07-19	This would devastate our family financially and increase the risk of leukemia in my two small children. Our entire neighborhood and community would be forever changed and we would move out of the area entirely.
Diane Cothran	Tryon, NC	2015-07-19	We don't want this
Heather Chambers	Mill Spring, NC	2015-07-19	Ruining our area
eileen alford	Crestview, FL	2015-07-19	i have family that lives in that area i they want to enjoy the peace and beauty it has to offer
Mary Carlson	Verona, WI	2015-07-19	I do not think that a power company should have the right to destroy the beauty of this rare natural environment and the values of thousands of property owners for their own profit.
scott osteen	Hendersonville, NC	2015-07-19	Mother Nature
Cynthia Worley	Hendersonville, NC	2015-07-19	Some of the proposed lines run within a few hundred feet of my home and I don't want this happening so close to me and my family.
Wes Moore	Rutherfordton, NC	2015-07-19	We need to explore all the avenues available .. what about burying the lines? Can they run in existing corridors? It would be a blight and a shame to run these lines through the landscape. I live in Polk and ride and travel through this area everyday. The beauty of the area was an important factor for me.
Karen Putnam	Brevard, NC	2015-07-19	I have friends that would be affected
Brittany Stepherson	Rutherfordton, NC	2015-07-19	I grew up in Polk county and I don't want to see it destroyed. There are other energy alternatives that could be used.
Barbara Seidel	Lansdale, PA	2015-07-19	The area needs to keep its trees. Let Duke be more creative in using already existing areas for its new transmission lines.
jayne stewart	columbus, NC	2015-07-19	will have a negative effect on beautiful rural polk county and create havoc for commuters and service people attempting to navigate the area
Judd Daniel	Tryon, NC	2015-07-19	I would like to see Duke come up with other solutions to preserve Polk County's natural and rural beauty.
Marie-Christine Maitre de tarragon	Campobello, SC	2015-07-19	Duke energy is cutting my farm in two, rendering it unfit for human or animals. Stop the greed stop the rape of our land
Cynthia Boyle	Caobello, SC	2015-07-19	The environmental disruption to our area is incalculable. If Asheville needs existing power, build a plant near Asheville.
Lewis Ridings	Carmi, IL	2015-07-19	This should be put underground. This will mess this area up
Margaret Cole	Spartanburg, SC	2015-07-19	I spend a lot of time in the area. I know how ugly this will be.

Name	Location	Date	Comment
Cynthia Milligan	Tryon, NC	2015-07-19	I live in Polk county I came here for the scenery and rural life. These power lines will ruin property values and the health of the people that live here
suzan mchughLast Name	Aiken, SC	2015-07-19	I am opposed! This plan is detrimental to the residents who pay taxes and want to protect their property values. Do not spoil this beautiful area!
g mitchell hambright jr	Landrum, SC	2015-07-19	I
Elise Rogers	Tryon, NC	2015-07-19	This project will destroy the natural beauty of this area. This community has always been known for its relaxed and quiet nature, but not anymore! We are infuriated at the proposed power lines and will rally together to get this thing stopped.
Sidney Thornton	Arden, NC	2015-07-19	I am against Duke changing the land.
Christine Brackett	Columbus, NC	2015-07-19	This line will run in my backyard and I have a heart condition that will be would worse with the effects of this line so close to me.
Caroline Young	Vass, NC	2015-07-19	I'm signing because I feel that there is no evidence for the need of this power line. It is inconceivable to me that conservation easements can be plowed through by Duke Energy. Why should SC be mutilated for the supposed energy needs of NC?
Ashley Goodlett	Spartanburg, SC	2015-07-19	Do not ruin the beautiful horse farms and conservation areas for the sake of power for Asheville. Build it in Asheville. This will affect so any of my friends beautiful farms.
Richard Roig	Tryon, NC	2015-07-19	The planned routes are in direct contrast to the beauty that lures people to this area. In total opposition to this project!!
Samantha Elder	Tryon, NC	2015-07-19	I don't want this beautiful county to be ruined by this
Debora Gilbert	Mill Spring, NC	2015-07-19	The proposed fight of way in Polk county is in an area not even serviced by Duke Power. Our property nearby would be worthless.
Cathleen Cullen	Summerville, SC	2015-07-19	Would rather see renewable energy sources in place!
Karyn Armstrong	Portland, OR, OR	2015-07-19	This proposed installation should be constructed on land Duke energy owns or solar needs to happen!!!
Kelly Tomberlin	Campobello, SC	2015-07-19	This is to close to home, and don't know the possible health issues!
Eli Edwards	Mill Spring, NC	2015-07-19	This will destroy or beautiful community.
Annette Murphy	Landrum, SC	2015-07-19	We moved to Landrum, SC in 1988 because it was peaceful and a beautifu area, Duke Energy STOP do not spoil this lovely part of the country!
brigette elder	Columbus, NC	2015-07-19	I'm signing because I can
Nina Koch	Dallas, TX	2015-07-19	The foothills of NC, with its beautiful landscapes, will be ruined by these transmission lines, all for 15% future growth - overkill if you ask me. Millions of dollars have been invested in the people's homes and land, all which will be worthless if these lines are built.
Kayla Edwards	Mill Spring, NC	2015-07-19	I don't want this basically in my front yard. It would ruin this beautiful land!
Kim Nord	Columbus, NC	2015-07-19	This is an outrage. The destruction of some of the last true farmland in this area to increase corporate profits.

Name	Location	Date	Comment
Judie Klapholz	Los Angeles, CA	2015-07-19	Where is the proof that high voltage lines have benefit in this area? Other options are viable such a underground and underwater lines. For example The Champion Hudson Power Express Project in New York WILL bury 5" cables to avoid the visual and environmental impact of overhead transmission lines. Duke's Foothills Porject will cause a loss of productive farmland, scar the landscape, negatively impact hunting, recreation and agritourism. Agritourism is the life-blood of Upstate South Carolina and Western North Carolina. This project will have a huge negative economic impact to dairy & meat businesses and farms, equestrian businesses and farms, water-related sports & fishing, hiking, equine trail systems, hunting and of course the potential of serious health effects on humans, animals and plant life. This project must be stopped!
Robert Kestler	Campobello, SC	2015-07-19	This this a story of both the degradation the the natural beauty of this area and of potential human misery.
nancy hambly	Stoughton, MA	2015-07-19	I value the forests and the wildlife and do not want to see these areas decimated by huge steel structures. Erecting these towers will destroy many trees and the homes of much wildlife!!
Patricia Craddock	Spartanburg, SC	2015-07-19	This process is affecting an area that will not benefit from the change. Additionally, it is unsightly and will affect the livelihood of many. Perhaps an underground access would make more esthetic sense than defacing miles of Foothills.
grady dudding	Salisbury, NC	2015-07-19	Because if you already shutting down a coal plant in ashville why dont you just build on that land then taking up more land.
John Cullen	Summerville, SC	2015-07-19	It's not right we have to pay for the poor planning of Duke Energys' planning strategy.
MC Maitre	Tryon, NC	2015-07-19	stop the rape of our land . WNC and south Carolina get zero out of this deal,but they will pay dearly for it.
Michael Whitt	Columbus, NC	2015-07-19	Duke' wanton disregard of the natural beauty of the Western Carolinas.
Rüdiger Koch	Columbus, NC	2015-07-19	"Demand for electricity in the Asheville portion of our service area is expected to grow by more than 15 percent in the next decade" says Duke Energy. However, they are doubling the capacity of the power plant in Asheville. What happens to the 85% overcapacity. Yes, they are selling it to someone out of our area. They get the power we get a ruined landscape.
Thomas Stenzel	Tryon, NC	2015-07-19	This will absolutely put our home values in the toilet! It will be both an eyesore and general nuisance for the rest of our lives.
Tom Hearn	Campobello, SC	2015-07-19	I think that this does not need to spoil the beauty of the area that so many have tried to uphold.
Elizabeth Sher	Saluda, NC	2015-07-19	This will run straight through my beautiful property in Saluda. I am just about to start building and now I do not know what to do. If Asheville needs more power, build it there. In parts of Europe they are now using a coal alternative that is inexpensive and much cleaner.
Vivian Freer	Tryon, NC	2015-07-19	I'm signing because this plan will have a seriously negative economic impact on the community in which I live and work.
kevin martin	Mill Spring, NC	2015-07-19	I just don't think we should lose more beautiful trees and wildlife due to duke power
Lynn Errickson	Campobello, SC	2015-07-19	I am against this due to the damage it will impact on our beautiful area. Additionally the negative impact on our property values will hurt everyone.

Name	Location	Date	Comment
Judy Heinrich	Columbus, NC	2015-07-19	In addition to valuing the natural beauty of this area, our counties and communities have hitched our economic futures to tourism and recreation, in the form of equestrian, paddling/kayaking, biking, hiking, zip-lines, farm tours, vineyards and wineries, etc. Those activities as well as the uniqueness of our picturesque towns - Tryon, Saluda, Landrum, Columbus, Campobello - are what make us unique and will keep us alive economically. For Duke to try to drop what is unquestionably the ugliest part of modern conveniences right on top of our most scenic areas is unconscionable. Please find a route that will not impact our beauty and economic viability for decades to come.
carol cowan	Spartanburg, SC	2015-07-19	Family property is in the area and I plan to move back there.
Sonya Cash	Bostic, NC	2015-07-19	I don't want to see the mountains in polk and buncombe county's destroyed. Find another way. Ty
Grant Libramento	Columbus, NC	2015-07-19	I want the natural beauty of our area preserved.
Jill Ellert	Columbus, NC	2015-07-19	Polk County is beautiful. I don't want to see Duke Power destroying the beauty.
Olivia Whiteside	Tryon, NC	2015-07-19	Born and raised here. Raising my children here and see nothing beneficial coming from this! Private for profit entities should not hold this much power!
Charlene von Bluecher	Landrum, SC	2015-07-19	Their plan will destroy the landscape and all the reasons we moved here!
Camille Gibbs	Landrum, SC	2015-07-19	I am not one of the rich people who found a place to escape to I was born and raised here in this small town and when I walk out the door or go down the road I don't want to see big towers here. It takes all that makes us small town Landrum, S.C. and the surrounding areas away. Who are we then?
Donna Grinnell	Irmo, SC	2015-07-19	I live in Landrum, near Tryon. I came here for the beauty and the peacefulness. Find another solution, do not destroy this land!
Victoria Bochynek	Penrose, NC	2015-07-19	Disgrace with the need for this new power source
Kathleen Lynch	Columbus, NC	2015-07-19	Duke energy has to be stopped from their land/community destroying practices that end up costing the taxpayers and their customers money as well as their health.
Zoe Kharpertian	Montclair, NJ	2015-07-19	Please don't ruin our lovely retirement town before we even get there!
Margaret Smith	Landrum, SC	2015-07-19	This project will not benefit most of the areas through which it will pass because they are not even served by Duke Energy. Instead, residents of this area will pay the price in reduced property values, less desirable venues for tourism which is our major source of income, and disruption to the pastoral life (including disruption of the very important equine industry which is just starting a growth surge) in this area. Duke should find other ways to provide the Asheville area with power, including more localized generating systems.
Dianne searcy	Tryon, NC	2015-07-19	our county is too beautiful to be scarred by ugly towers. Our mountains are beautiful and I do not want to see them raped by these electrical towers
David Walen	Tryon, NC	2015-07-19	Views are already too disrupted!
jason keefer	olympia, WA	2015-07-19	I don't want to see our beautiful countryside crisscrosses with unnecessary power lines.
Louis McCray	Tryon, NC	2015-07-19	I do not want this transmission line coming through or near Tryon. It should follow the interstate.
Martha Kemmer	Columbus, NC	2015-07-19	This will have an economically devastating effect on the entire population of Polk County, as well as the Landrum+ Campobello areas.
Brittany Langston	Greenville, SC	2015-07-19	I'm signing because this is our beautiful home. Leave nature alone. There's a better way to do your project. Why not look into solar energy and wind turbines?

Name	Location	Date	Comment
Stephen Brown II	Greenville, SC	2015-07-19	Duke energy is corrupt and unconscionable. They care about nothing but profits. We want out state I remain beautiful!
Sabra Tollefson	Greenville, SC	2015-07-19	Big business monopolies need to stop doing whatever they want.
tom caulk	Columbus, NC	2015-07-19	I want to preserve the beauty of our foothills.
CHARLENE MOSKAL-BURGES	Tryon, NC	2015-07-19	The proposed line will destroy our investment in this land as a home site and horse farm. The lot is one of a very few even still available on the FETA trail and as such is very valuable for the original purpose.
Cynthia Kelly	Woodruff, SC	2015-07-19	I own property in NC effected by the proposed.
Sally Spencer	Spartanburg, SC	2015-07-19	I am totally against this project. Duke Energy can do better. Installing and running these power towers will ruin this beautiful area, and cannot be allowed.
Julie Berry	Boiling Springs, SC	2015-07-19	This is an area I travel every week. The power lines will forever change the scenic beauty of this area. This could effect tourism and local businesses. People travel these roads due to the beautiful view of the mountains along these highways. Please consider the homeowners, businesses, and people who love this area and do not spoil it with these power lines and steel structures!
Tracy Henson	Landrum, SC	2015-07-19	We don't want them near this area
Patrick Stewart	Columbus, NC	2015-07-19	Saving the foothills
anna russell	Landrum, SC	2015-07-19	I live in this area and do not want to see ugly power towers and lines. We don't even have Duke Energy service up here.
Joanne Wanciak	Rutherfordton, NC	2015-07-19	I do not want to see our beautiful scenic area defaced.
Betty Hill	Tryon, NC	2015-07-19	I feel that the power lines pose an environmental hazard as well as ruin the esthetics of our serene horse country. Property values will decrease and I am not sure that this project is necessary and for the benefit of the public.
Charles Wiseman	Landrum, SC	2015-07-19	Don't take our piece of heaven for money vote NO!!!!!!!!
Tara Boyce	Campobello, SC	2015-07-19	The expansion of Duke Energy's infrastructure into the Foothills of NC and SC will negatively impact the environment and the area's trail systems.
Marilyn LeFeber	Columbus, NC	2015-07-19	our hunting country area is too beautiful to be defiled by the ugly towers and transmission lines.
Madonna Turner	Laurens, SC	2015-07-19	I own land in Tryon and ride the FETA trails there that it might affect. Why can't they bury it so it will not hurt the beautiful scenery at this special part of the world that everyone comes here to see.
calista brown	Landrum, SC	2015-07-19	This directly affects my property and that of my family.
Susan Corbett	West Columbia, SC	2015-07-19	Duke does NOT need this additional transmission, and the people of the area do NOT want Duke's transmission lines in their back yards!
Lauren Bergrud	Columbus, NC	2015-07-20	This line could go through my back yard.
Rachel Goettert	Columbus, NC	2015-07-20	Its not necessary!
Erin west	Inman, SC	2015-07-20	It's completely unnecessary and will destroy the natural beauty that so many of us are proud to call home.
Rebecca Youngblood	Reidville, SC	2015-07-20	I want to preserve our scenic Foothills.
Debbie Noland	Campobello, SC	2015-07-20	My property will be directly affected. ...I intend to live out the rest of my days here...I have been here 23 years and will not allow my quality of life to be altered for money and western north carolina....nothing benefits myself or my community! All negative!

Name	Location	Date	Comment
Lyla Johnson	Tryon, NC	2015-07-20	I want to preserve my beautiful home for my children and grandchildren to enjoy!!
Diane Samsel	Tryon, NC	2015-07-20	Duke energy is not a nice group.
Deborah Branson	Raeford, NC	2015-07-20	Cities need energy and the power plants seem to be a distance away. To connect the two means that pristine countryside is ruined by those who leave cities to avoid blight. Put power plants near the cities. Eminent Domain is a travesty. They don't "acquire" your property, they condemn it and offer a fraction of its value. We almost had one of those power lines through our property that would have taken out 10 acres of our wooded wetlands - land of no financial value as far as the energy company was concerned but of extreme value to me and to the critters who live in it. There has to be a better way.
Sally Van Allen	Charlotte, NC	2015-07-20	Many property owners including my family, will lose their property or see their property values decline because of the proposed lines. In addition, this will ruin much of an area I love and think is some of the most beautiful in our state.
Dan Hogue	wellford sc, SC	2015-07-20	to keep the foothills beautiful
Rena Compton	Greer, SC	2015-07-20	I am new to the area Andover here with my family and horses because of the horse community and the trail system and 2. Because it was so natural and undistributed. There are alternatives!  Rena
ella cart	Saluda, NC	2015-07-20	I oppose this project
Jamie Corn	Tryon, NC	2015-07-20	Don't want this line!! Huge negative economic impact!!
tara muma	Charlotte, NC	2015-07-20	this land is very important to my friends and the community.
dorothy stott	Landrum, SC	2015-07-20	My property is next to substation on oak grove road
Maria Rowsam	Hendersonville, NC	2015-07-20	These power lines will run less than 200 feet from my house and up the back 3 acres of mountainous woods behind my house. Water run off, land slides not to mention being so close to my home.
Catherine Gifford	Spartanburg, SC	2015-07-20	Stop tearing down pristine forests!
Michael Deeb	Charlotte, NC	2015-07-20	Please sign this petition. They are going to destroy a place that I love.
Gina Martinez	Fayetteville, NC	2015-07-20	I'm signing because it's 2015 and this multi billion dollar company with numerous resources and the smartest people working under it cannot come up with a more feasible and sustainable idea. As an accountant, I understand the need for profit. Why not profit AND be the leader in innovative technology? Isn't that your mission statement?!
Denise Garnett	LAKE LURE, NC	2015-07-20	This will have a devastating impact on the environment, property values, and reduce the natural beauty that attracts permanent residents and visitors alike.
daniel mcferrin mcferrin	Landrum, SC	2015-07-20	A power line through the heart of this community so well preserved for horse and nature lovers is both unnecessary and in total ignorance of all we hold dear. It is of no benefit to us, has no merit of value for our people and an not be allowed to go forward. Please go back to the drawing board and use some other area that is not tied to the land for the beauty that it surrounds us with daily.
Janet Crawford	Oceanside, CA	2015-07-20	Family in Landrum ,Greer .Spartanburg Country is beautiful don't ruin it
Jason Harris	Hendersonville, NC	2015-07-20	Preserving Wildlife is more important and should not be harmed because of a energy company

Name	Location	Date	Comment
Stephen Schall	Mount Vernon, KY	2015-07-20	South Carolina is my home. I don't want to see one of the most beautiful areas devastated with giant power lines. Neither would I want to see the same in NC. I hate looking at a mountain and seeing a single line that runs up the side. Seeing that Bald place running up a mountain saddens me. I would hate to see these transmission lines go through.
Ronald Cannon	Inman, SC	2015-07-20	it's our life around these parts, I've been here most my life and hwy 11 is my favorite route due to it scenery
Jennifer Kilgore	Columbus, NC	2015-07-20	I do not want our land destroyed and families to have to see such terrible eye sores in our front yards!
Michele Cornish	Faribault, MN	2015-07-20	Duke power needs a different plan. This one is not the answer at all.
K McMahon	Tryon, NC	2015-07-20	I live in Polk county and am horrified they would be allowed to do this.
Leslie jespersen	Saluda, NC	2015-07-20	I'm signing because Duke Energy is just a bunch of crooks anyway. They'll do this to save them money and then jack everyone's rates up.
Rosie Craig	Columbia, SC	2015-07-20	Installing more arcaic power lines in a state with great solar access is wasteful and counter to the Ashville NC communities commitment to acquiring a more environmentally respectful source of energy.
Sarita Sigmon	Hendersonville, NC	2015-07-20	with all the money Duke Power has, they need to use an underground approach to putting in power and quit destroying people's property!!!!
Drew Boggan	Zirconia, NC	2015-07-20	Do not want this in my back yard, really, not in my backyard!
Ann Wigely	Rutherfordton, NC	2015-07-20	The beauty of the foothills will be permanently ruined by the proposed lines. Find another way to upgrade the Fletcher plant. Protect the environment not deface it.
Kate Bond	Mill Spring, NC	2015-07-20	I have seen no data to support the need for this project. If there is a need, then bury the cables underground where they are safer for humans and wildlife..
Sarah Owen	Hendersonville, NC	2015-07-20	This proposal will run right through our farm and ruin our business and property.
Elaine Czarnecki	East Brunswick, NJ	2015-07-20	I own property in the area and am concerned that the project is going to have a negative effect on the land values and beauty of the area.
Rebecca Kemp	Tryon, NC	2015-07-20	This would be a devastating economic loss to this beautiful county
Adam Powell	Inman, SC	2015-07-20	I dont want these running through my backyard.
Josie Thompson	Rutherfordton, NC	2015-07-20	I currently work under one proposed route where the lines will be and used to work under another proposed route. Despite Dukes paid off scientist and politician's views these lines are detrimental to the public and environmental health in these areas
Kelly Pratt	Hendersonville, NC	2015-07-20	This project will directly and negatively impact the quality of life of several of my friends, as well as the pristine ecology in our area.
gabriel Penfield	COLUMBIA, SC	2015-07-20	I do not want my land taken from me as illustrated in the diagram.
Wayne Kent	White Plains, NY	2015-07-20	I love Jehovah's God's creation..  Revelation 11:18
Ronnie Newton	Landrum, SC	2015-07-20	R.Newton
Lisa Tygielski	Fletcher, NC	2015-07-20	I own a horse farm that will be affected. It will ruin my business, the beauty and value of my property and others. Never mind what it will do to our health.

Name	Location	Date	Comment
Christine Vanneck	Ocala, FL	2015-07-20	This will have devastating outcomes of not only my agricultural business but the surrounding farmers and Agri-business around. This will devalue my farm and make it unable to sell or generate the income to stay in business. That subsequently means devalued property taxes and no business taxes or employment.
Ray Thompson	Columbia, SC	2015-07-20	I want to protect the beautiful mountain areas of the Carolinas.
Daisy Fouts	Hendersonville, NC	2015-07-20	Your plans run straight through my friends farm!
Saundra Poces	Zirconia, NC	2015-07-20	Efforts should be made in NC to support and use solar and/or wind based energy in the state. Do not allow DE to ruin our WNC!
Verne Dawson	Saluda, NC	2015-07-20	We want to protect and enhance our special area's natural bounty, and to prevent further spoilage by Duke Power.
Christine Gregory	Churchville, PA	2015-07-20	I love this area and have considered retiring there. This will destroy the visual beauty of the area as well as the environment. This must be stopped!
William Plumley	Mooreville, NC	2015-07-20	we need to start protecting God's earth
Wendy Elis	Hendersonville, NC	2015-07-20	I moved here because of these woods and their natural beauty. They're priceless, but do have their own value as a tourist attraction and motivation to bring in new residents.
Shelly Block	Columbus, NC	2015-07-20	Keep our foothills beautiful!
brandon Shanesy	Landrum, SC	2015-07-20	I'm signing because I want to receive updates.
Devin Lindsey	Mill Spring, NC	2015-07-20	I am a naturalist. It's right to stand up for whats right.
Cyd Smith	Arden, NC	2015-07-20	I'm tired of Duke Energy putting profit before quality of life for its customers.
Millie Conway	Lutz, FL	2015-07-20	We are currently looking to purchase a mountain home, but its value could be greatly reduced by this project.
Eric Usher	Asheville, NC	2015-07-20	I'm signing because we do not need to defile our mountains. Their beauty is the main source of our economy and should be protected. Also, Duke should be investing heavily in solar technology instead of continuing to use archaic methods of energy production which are driving humans towards possible extinction.
Madlynne Ramsey	Columbus, NC	2015-07-20	Foothills and Upstate contain beautiful rural/equestrian properties that should remain undisturbed
Donald Buchanan	Hendersonville, NC	2015-07-20	I am a resident of WNC. We need to preserve this land, not tear it down for some ignorant assholes looking to make MORE money.
Patricia Hayes	Columbus, NC	2015-07-20	We must preserve the Foothills for future generations.
Julie Miller	Columbus, NC	2015-07-20	My 28 acres on White Oak will not be butchered
Ford Smith	Tryon, NC	2015-07-20	Poor plan, overlooked alternatives.
Susan I. Hunt	Charlotte, NC	2015-07-20	Duke Energy is a PUBLIC utility, and as such, should openly consult with the citizens it serves. Our county matters as much as Duke's profit, or more.
John Gibson	Spartanburg, SC	2015-07-20	I love my hometown's natural beauty and never want to see it diminished.
Alice Slaughter	Campobello, SC	2015-07-20	This project will cause an Economic downfall of the whole are of these beautiful Foothills. It will destroy the History of the area as in the "Battle of Earles Fort", the "Civil War" not to mention all the little cemetery's where Slaves are buried. To say nothing of the damage to the Environment and Conservation in this area. Do not let Duke Energy wreck this beautiful area.
Jim Sumrell	Columbus, NC	2015-07-20	Put it underground.
Janie Peeler	Flat Rock, NC	2015-07-20	The State of NC has already taken part of our property for the Hwy 25 widening. We can't let anymore of this beautiful mountain range be destroyed

Name	Location	Date	Comment
Janice Elder	Charlotte, NC	2015-07-20	We own property on White Oak Mountain and are opposed to this!
Kathy Angier	Saluda, NC	2015-07-20	I'm signing because I love these beautiful mountains and believe we need to go to alternative power sources.
william todd	Saint Louis, MO	2015-07-20	I'm OK with them building Wind and Solar. Not this.
Patrick Fleming	Landrum, SC	2015-07-20	I own three pieces of property and a home in the affected area. I bought here because of the pristine nature and beauty, not to have my view now consist of high tension power lines that will bring services to Asheville. I don't even get my wnergy needs from Duke Power. This whole thing is horrible.
Kim Olsen	Fletcher, NC	2015-07-20	I moved here for the beauty and environment... I would hate to lose it to these power lines right in my backyard.
Pat Martin	Tryon, NC	2015-07-20	This is the smallest county in the state and will be seen everyday we look at our beautiful mountains. Who will want to move here after this?
Charlotte Odom	Seffner, FL	2015-07-20	I own a home on Red Fox Rd. in Columbus, Polk cty N.C. I don't want hugh power lines going thru my property and across my horse pasture.
Karen Byrd	Chesnee, SC	2015-07-20	I'm signing this because I live along Hwy 11 in SC and we need nature, folks. We need those tree. We need that wildlife. Without all of that, we are nothing.
Graeme Watson	Columbus, NC	2015-07-20	Duke Energy think they can get away with anything, what about upgrading the existing lines. Or is this just another money making project at the environments expense
Ivette Drumgool	Campobello, SC	2015-07-20	I greatly oppose this expansion!!!! It is an outrage to do this to our beautiful area not to mention the health of our community and livestock!!!
Matthew Tate	Landrum, SC	2015-07-20	Speculation shows the lines will go right through my property and by the 1000 ft between lines it puts a tower beside my house. I have three small children who I want to grow up knowing the beauty of the upstate, not the dangers of money hungry tycoons!
Lynn Ramsey	Fletcher, NC	2015-07-20	The lines will be in my backyard then wrap to the other side of it. I will have full view of the devastation from every window of my home. My resale value will dramatically drop if I can even find someone that wants to live with these power lines in the backyard and neighborhood. I moved to the country for a reason. Not to mention the health risks living next to the lines. I cannot replace my home for the value that I had before this went public let alone if this actually takes place in my neighborhood.
Cynthia Harrell	Greer, SC	2015-07-20	I'm signing because I ride horses in the Tryon, Landrum area affected. I'm also a cancer survivor and fear that big transmission lines promote cell changes within the bodies of both humans and animals.
Lisa Magee	Campobello, SC	2015-07-20	I do not want any of these power lines any where near my property.
R. Paul Spanjer	Tryon, NC	2015-07-20	This project seems entirely too destructive of the local environment, and our local economies are very dependent on maintaining --not destroying--our local environment. It's obvious that our economic dependence on our environmental resources is only going to increase.
Dr. E. L. Tate	Landrum, SC	2015-07-20	It destroys our home place
Cindy Gilbert	Landrum, SC	2015-07-20	There has to be another way to get the energy to the customers. How about underground lines? It has to be better for the area.
Lori Martin	Campobello, SC	2015-07-20	I am against duke powers proposed power lines running through our sensitive ecology, ruining our areas main source of economy.
cassie strain	boiling springs, SC	2015-07-20	I don't want our forests to be destroyed

Name	Location	Date	Comment
Terry Schager	Landrum, SC	2015-07-20	I'm signing because there have got to be more options that will lower the impact to residents of the affected area. Duke already owns rights of way that would allow one or more direct routes from Campobello to Skyland. Why not lower the voltage and do more than one line using existing power lines?
Paula Mierop	Tryon, NC	2015-07-20	New technology needs to be used instead of falling back to old techniques. Come on Duke Power, there are other ways to service your customers.
Blake paff	Landrum, SC	2015-07-20	This is why we can't have nice things.
Dulcinea Juenger	tryon, NC	2015-07-20	This is bad for Polk County, NC...Bad for the environment, bad for the economy, bad for property values!
Pamela Wilson	Campobello, SC	2015-07-20	*The many significant health concerns that have been scientifically proven to those living near these power lines and substations *Property values decrease significantly Destroying the beauty of the foothill regions
Greg Junge	Tryon, NC	2015-07-20	I live just a stone's throw away from one of the proposed routes in Mill Spring NC. This line will cut through some of the most pristine woodlands one of the largest natural habitats of Catawba Mtn Laurel and destroy some of my family's property values by cutting directly across major portions.
Beverly Jesuino	North Providence, RI	2015-07-20	My family has been planning a move to the foothills for many years now. This project is a selfish endeavor! The pristine beauty is unique to NC and I believe that Duke Energy has absolutely no right to destroy such a naturally beautiful area. Not to mention all of the potentially harmful consequences to wildlife and the value of personally owned property.
Claudette Robinson	Columbus, NC	2015-07-20	There are other options!
Fred Berlinger Berlinger	Columbus, NC	2015-07-20	The proposed lines will be an economic and ecological disaster
mark byington	Tryon, NC	2015-07-20	My business is in danger of being negatively affected.
Lisa Cairnes	Horse Shoe, NC	2015-07-20	Duke Energy's plans on going through my family's and my land in Henderson County. We do not want this!! We should have a say in this. We will not be compensated if they plan goes through. It will destroy our views and property. Our property is untouched and beautiful. We like it that way.
Cynth Cole	Columbus, NC	2015-07-20	Based on the maps the intent is to run these lines directly between two homes, through our community garden, over our health food store which would adversely impact our income and home life. Please stop, don't.
WM Mitchell	Campobello, SC	2015-07-20	Duke Energy is responding to the incorrect application of EPA regulations on Coal fired plants. The new transmission line is being installed to export power from SC to NC due to the Asheville plant retirement. Property owners should not cover for these issues. Political work is needed to rein in the EPA.
Ilaria Derr	Campobello, SC	2015-07-20	I live in the direct path of one of the proposed routes. It will have a devastating impact to me & my family personally, as well as to the Foothills environment and economy.
Gail Faughn	Tallahassee, FL	2015-07-20	I once worked in the area that will be affected, and part of my family lives there now. The area is too beautiful and valuable to be ruined by Duke Energy's plan.
Christy Souther	Landrum, SC	2015-07-20	This is family land, entrance to beautiful Landrum and a pasture where livestock lives
Brittany Woodall Haughelstine	Mill Spring, NC	2015-07-20	Duke Energy's project will devastate the natural landscape of our area.
Gene Vanderford	Landrum, SC	2015-07-20	I oppose this project 100%

Name	Location	Date	Comment
Holly McCall	Jefferson, NY	2015-07-20	We not only want the beauty of the mountain undisturbed , but we also have property on White Oak Mountain.
Mari Cartwright	Tryon, NC	2015-07-20	It will destroy our homes and beautiful community.Harden the grid with all that money and save lives if we have a natural or terrorist induced EMP.
Tracey Daniels	Columbus, NC	2015-07-20	Private companies should not have ownership of private lands. Even though this does not effect my private property -- this definitely in unfair and unwanted. I love Polk County and the Upstate. this is completely WRONG.
Gayle Heiring	Columbus, NC	2015-07-20	I am opposed to the Duke Power project for it's negative impact on Polk County, destruction of land, views, property values and potential harmful impact on livestock.
Michael Frye	Columbus, NC	2015-07-20	Poor choice of route and should consider buried cable
Julie Arrington	Saluda, NC	2015-07-20	The majority of my neighbors are highly opposed to the "Modernization" Project and I want my voice to be heard too!
Gale Hopkins	Tryon, NC	2015-07-20	We moved here from TX get get away from Fracking and decimation to the environment and landscape. We carefully chose this area and these beautiful foothills for their pristine beauty and unblemished landscape. We have lived in many states and could not find a more beautiful place to live. To just plow through it and peoples property is heartless and draconian. Find another way.
Peter Shanahan	Columbus, NC	2015-07-20	This right of way would irrevocably harm the equestrian industry in Polk County. We have many equestrian trails under easement. The trails are an integral part of why many horse owners and businesses have chosen to locate here, and if such private easements were superceded by this public easement, it is highly unlikely that landowners would out trails under easement in the future. This would jeopardize not only the equestrian flavor of the area, but its economy, as well.
Virginia Jennings	Tryon, NC	2015-07-20	This is beautiful horse country and no one should have their land taken from them for a power line through their farm!
Patricia Bridges	Greenwood, SC	2015-07-20	I love the area and plan to retire there. Do not want to see transmission lines!!!
Amy Keim	Landrum, SC	2015-07-20	I do not want this eye sore changing the landscape of our beautiful town!
Jay Alexander	Campobello, SC	2015-07-20	The proposed line will have a devastating impact to the jobs and economy of the community. In my case it will specifically have a huge impact on property values and the viability of my cattle farm where we raise high quality specialty beef.
Bonnie Lingerfelt	Columbus, NC	2015-07-20	The proposed above ground lines will forever change the beauty of our foothills area, and have a negative economic impact overall to the local area. Our citizens have preserved the countryside with conservation easements, and we all are dedicated to keeping our envied vistas.
Shane Blackwell	Columbus, NC	2015-07-20	This is the last woodlands we have around here let them be.
Edith z Cahoon	North Tazewell, VA	2015-07-20	unnecessary expansion and destruction of beautiful foothills. Devalueing properties. Decline of tourism. Defacing the scenery just to mention a few points
vickie tate	landrum, SC	2015-07-20	this directly affects not only my property but the welcome to Landrum view of Hogback mountain. many people flock to our area to see the mountains and enjoy the foothills. stop duke powers takeover for the benefit of north carolina
Carl Hansley	Mill Spring, NC	2015-07-20	I believe Duke should choose the least expensive land to go across and not go through try on follow 26 all the way to where they need to or not do the project at all and just upgrade the entire power plant in arden

Name	Location	Date	Comment
Emily Heavner	Indianapolis, IN	2015-07-20	I'm from the area and it would be a shame to disrupt the land just by the process of erecting power polls and lines as well as by the sight of them. Obviously they aren't needed too badly if people have power in the area now.
Suellen McConnell	Taylors, SC	2015-07-20	I live and have family and friends in the area. This is a beautiful area that does not and should not be disturbed by corporate greed. The lines could be rerouted.
Kathy Hannon	Campobello, SC	2015-07-20	I don't won't it near my home!!!
MAXIE EDWARDS	Spartanburg, SC	2015-07-20	I VISIT THIS AREA OFTEN AND ENJOY THE BEAUTIFIL HOMESITES AND COUNTRY SIDE
Christian Wolters	Campobello, SC	2015-07-20	I don't want our beautiful area tarnished.
Betty Carver	Campobello, SC	2015-07-20	I think these power lines should be buried.
Christy Waters	Tryon, NC	2015-07-20	I'm signing this petition because I do not believe in destroying the beauty of our community & upstate...
melody fryhling	Mill Spring, NC	2015-07-20	Its my hometown and its great the way it is
Margaret Burke	Columbus, NC	2015-07-20	Duke has CLEARLY not studied the factors they say they consider in determining line placement; Land Use, Land Cover, Cultural Resources, Natural Resources, Water and Visual Resources . The negative impact would have been abundantly evident. Public Input is, according to Duke also a consideration... well, we of the Foothills say NO on all counts.
Alison Shanahan	Columbus, NC	2015-07-20	This "modernization" project will harm the economy of the Foothill of WNC which depends on horse trails, hunting and farming.
Lynwood Jackson	Tryon, NC	2015-07-20	The potential harm to area residents and horses.
Cato Junge	Columbus, NC	2015-07-20	I live in the proposed area of the transmission lines and do not want to see the areas views and natural habitats ruined.
Kelly Rowe	Landrum, SC	2015-07-20	I'm signing because this will negatively affect my land and farm off of Highway 11 in Greenville County. It was our goal for years for our large family to have a parcel of land to build a house and have space for our children to grow up and come back to live on. I am opposed to this because it will negatively affect our property as well as its values. I don't want my children and future grandchildren to suffer from this either. Kelly Rowe
Robin Howie	Tryon, NC	2015-07-20	The impact on our environment
megan pressley	Murphy, NC	2015-07-20	I grew up in the area and don't want to see such a beautiful place be covered I power lines.
marianne apple	columbus, NC	2015-07-20	Protect the foothills.
Allen Spanjer	NY, NY	2015-07-20	It would be a real sin to build this and ruin the land and destroy habitats! Not to mention stealing huge amounts from home owners as their property values go down.

Name	Location	Date	Comment
Scott Homstead	Campobello, SC	2015-07-20	These proposed HTLV line will devastate the beauty and history of our communities. Carving up farms, small acre home-sites, churches, historical landmarks and small businesses. This will decimate the tourism and Agri-tourism in our Foothills. It will also crush the strong real estate values in this region that have been compelling people to move here from all over the country so they can be part of the Foothills way of life. Hurting our real estate market will drastically compromise the economics of our area, from small town retailers, local cabinetmakers, fencing installers, builders and hardware stores, to the larger agricultural and equestrian industries. In short, the supporting jobs and businesses that service the growing equestrian industry will suffer greatly. People in this area depend on these farms for their livelihood. Also the clear cutting of the land and spraying chemicals in wide swaths through neighborhoods, and over thousands of acres of environmentally sensitive conservation areas, as well as tributaries to watersheds will have a terribly negative cascading affect throughout our region.
Anna Bjorklund	Tryon, NC	2015-07-20	Im sighning because already nothing good comes out of electricity & humans . Duke energy they had faulty ground wire that was going through water pipes in house in Landrum. They dont check any of their equipment "power lines." But want to profit. Another reason im sighning is I was driving thru Compobello during rainy day and drove pass something that looked like what they trying to build "substation" and felt unwell in car during that period. I believe EMF field is too strong. It should never be in this beautiful area. Im happy people sighning this to keep Duke out of Foothills.
Lindsey powell	Hilton Head Island, SC	2015-07-20	my parents live there.
Reva Nash	Columbus, NC	2015-07-20	I oppose construction of huge transmission lines through agricultural farms, horse farms and residential communities in Polk County
Stacy Mach	Dallas, TX	2015-07-20	We are looking to move to Asheville and would hate to see the beauty destroyed
Anna Warden	Travelers Rest, SC	2015-07-20	This will ruin the beauty of the upstate as well as these will decrease our property value. Not safe for our children!!!
cathy Smith	Clermont, FL	2015-07-20	I have seen enough destruction of this earth by so called progress. Forget it!
Brittany Lancaster	mill springs, NC	2015-07-20	I'm signing this because it will destroy our land and we are fine without the power lines running through it and making it look like crap. We also have beautiful places around and we don't need a power company to obstruct view.
Eve Arensberg	Landrum, SC	2015-07-20	I can't stand the idea of anymore of our natural world being destroyed by "modernization". It is time other methods are sought and adopted by our government and big businesses that will not be such offensively destructive eyesores to the landscape as well as the health and welfare of all our residences animal vegetable or human. Please don't do this.
Kirk Hutchinson	Sudbury, MA	2015-07-20	Duke energy has no regard for the environment. If they could they would get rid of the EPA, deregulate and go back to their polluting ways.
Richard Ruben	Columbus, NC	2015-07-20	I am concern with negative economic and environmental impact this project will cause
pam stone	Campobello, SC	2015-07-20	Appalled by this potential land grab that doesn't even benefit our area. As a syndicated newspaper columnist, my readers are very interested in this subject and how Duke stockholders are eager for a revenue windfall despite how it ruins am destination area for retirees and lovers of nature. Like Europe and Canada, bury the damned lines- far more cost effective and Eco-friendly!

Name	Location	Date	Comment
Jessica Ervin	Mills River, NC	2015-07-20	If you can afford it, buy solar panels and sell electricity back to Duke!! This is ruining the environment, habitats, family plots and house values. We have worked entirely to hard and busted our butts to allow a power company to take away what WE worked for.
Mary Hill	Columbus, NC	2015-07-20	I use to think you were a decent company. This project will deface the beauty of the entire.proposed area.Our mountain views and horse riding through beautiful fields and woodlands. The ecosystem will be greatly disturbed. Please reconsider.
Talmadge Henderson	Campobello, SC	2015-07-20	This Line is coming right next to my property line only 100 ft. from my house
Tim Trammel	Tigerville, SC	2015-07-20	I live in the Landrum community and believe that we should preserve the natural beauty of the area. Duke should use the existing right of ways and limit its footprint on this area.
Catherine Nelon	Columbus, NC	2015-07-20	Duke power needs to bury the lines
Jerry Koger	Campobello, SC	2015-07-20	I don't want to live near a high voltage power line. This will ruin this area permanently.
Al Harney	Columbus, NC	2015-07-20	I'm a property owner notified as being close to their route. Duke can't be trusted, I'm already experiencing no answer to some of my emailed questions.
Laura Fitzpatrick	Charlotte, NC	2015-07-20	I support conservation.
Barbara Johnson	Inman, SC	2015-07-20	This is horrible. Go back to the drawing board.
Iori hannah	Inman, SC	2015-07-20	Why not use the old lines? The new line in SC will not even benefit SC. People will lose their property, land value and eye sore
Ann Viehman	Tryon, NC	2015-07-20	Ann Viehman
Rebecca Earley	Landrum, SC	2015-07-20	This would suck!!
Jack Davis	Columbus, NC	2015-07-20	I believe it is the absolute right thing to do to stop this power line project.
Eric Troutman	Columbus, NC	2015-07-20	The negative impact on the natural beauty of the first peak of the Blue Ridge in Polk County.
barbara bodie	Landrum, SC	2015-07-21	I don't want to lose my home & my land to Duke Power. The proposed lines run right thru my house
Sean Rindge	Atlanta, GA	2015-07-21	My parents live less than a half mile from one of the proposed lines, inexplicably mapped directly across the face of White Oak Mountain near Columbus and Tryon. This is not the place for these power lines.
Amamda Surface	Landrum, SC	2015-07-21	One of the proposed lines goes right through the property I just had surveyed and graded to build my house. The land is ready to start building on, now we have to wait until a decision is made and possibly have to find another piece of land
Tina Furmanek	Taylors, SC	2015-07-21	You already raise my rates every year. I don't need you lowering my property values or destroying our beautiful natural preserves either.
Shawn Chase	Asheville, NC	2015-07-21	We continue to leave our disgusting mark in the most beautiful of places. Sick and tired of seeing how destructive we are. Use what you have! You have an awful lot.
Kerry Gasperson	Mills River, NC	2015-07-21	I care about my beautiful mountains and my children and future grandchildren
Cornelia Alexander	Campobello, SC	2015-07-21	I want to preserve one of the most beautiful areas in our state for future generations.
CHUCK HENRY	LANDRUM, SC	2015-07-21	I am outraged. I live in this area of the foothills of the Blue Ridge Mountains because of the beauty and serenity. It should not be desecrated.
Dee Brinson	Columbus, NC	2015-07-21	Duke energy project must be stopped if possible.

Name	Location	Date	Comment
Jordan DeVere	Landrum, SC	2015-07-21	This will change my community negatively and Duke Energy has proven to be a terrible company again and again.
Hannah Rees	Perkasie, PA	2015-07-21	I grew up in the upstate and this would seriously damage the beautiful scenery.
Mary Martorano	Granite Falls, NC	2015-07-21	This is such a beautiful and thriving area. How can It be allowed to compromise property values and impede on the beauty of people's personal homes that they purchased because of the beauty of nature and love of having horses on their own property. Shame on Duke power and government to allow this to even be considered.
Julie Barnwell	Campobello, SC	2015-07-21	I'm signing for my fellow neighbors and my family . We do not want to look out our windows and see a huge power line. We also do not want to see our neighbors losing there land that they have worked so hard to buy and disrupt anymore of our beautiful properties!
Florence Sommerich	Tryon, NC	2015-07-21	I'm very concerned about the effects on our horse country and Polk County's economy.
vic Cegielski	Columbus, NC	2015-07-21	We don't want this in our beautiful state.
Donna Linnon	Columbus, NC	2015-07-21	I live in a community that has been granted by the State to be a 125 acre "Stewardship Forest" for endangered native plants that we have moved here over the last 15 years from construction sites. Also on our property we have a ginseng & mushroom farm & a health food store as well ass a garden that feeds 45 people. This would affect our ability to do business & result in lost profits
Nicolas Beehner	Boiling Springs, SC	2015-07-21	I have spent 30 years in the upstate and love our beautiful area.
Gabriel Bowman	Tryon, NC	2015-07-21	I don't want the eyesore overhead
Shelley Dayton	Landrum, SC	2015-07-21	We don't need to agree to a certain route -- Let's NOT LET IT BE BUILT! This seems so old-fashioned -- at least Duke can pay to bury it. They most likely will pass the cost on to customers anyway.
Conrad Hinson	Fletcher, NC	2015-07-21	This proposed transmission line plan would severely disfigure our beautiful rolling hills and mountains, scarring the terrain for no reason. The I-26 corridor is available and the infrastructure from Lake Julian is already in place.
Ann Hodge	Landrum, SC	2015-07-21	The area where the power line is going is my home and one of the most beautiful places I know. I don't want it ruined.
Becky Sturycz	Horse Shoe, NC	2015-07-21	Duke power's foothills plan will ruin our beautiful river side community of horse shoe, nc. These proposed lines will run through the backyards of my neighbors and across our river, through our farmlands, and will be a health hazard to our children as well as destroy our lands. In looking at the map, scenic horseshoe mountain will be ruined as well. What a horrible thing to happen to our community!
Ivey Sumrell	Columbus, NC	2015-07-21	This project is NOT in the best interests of our area and is going to impact our beautiful area with unhealthy eye sore transmission lines. Put them underground!!!! They do in Europe and all over the world! AND it saves money in the long run PLUS keeps the view open for our children to enjoy! You can't tel lame it costs more! The proof is out there! Not to mention the health benefits of less EMFs !!!!
Andy Hayden	Campobello, SC	2015-07-21	We already HAVE a line of large capacity transmission lines cutting through our street. We do NOT need another set, directly above existing homes and farms. We do not need this. we do not benefit from this. WE CAN NOT allow a for - profit, private company, the free range to destroy our quality of life this way.

Name	Location	Date	Comment
Alice Bentivegna	Columbus, NC	2015-07-21	We don't want the health danger or the unsightly look . it also lowers property value
Elizabeth McCray	Fayetteville, NC	2015-07-21	We moved to this town to be away from this.
Kim Karaman	Tryon, NC	2015-07-21	I'm signing because I value the beauty of Polk County's natural resources . . . the mountains, trees, waterfalls enjoyed by many who live, work and visit here. These resources are a major contributor to the economy of Polk County. The proposed power line will devastate the properties and our economy.
Thann Boyum	Columbus, NC	2015-07-21	concern for economic impact and detriment to property values in our area
Randy Bryant	Campobello, SC	2015-07-21	This will be going through my neighborhood. It will lower property and land values.
Sabrina Sills	Charlotte, NC	2015-07-21	I
Leigh Anna Evette	Ladrum, SC	2015-07-21	I believe in natures value on our world.
Curtis Muncy	Columbus, NC	2015-07-21	To stop the destruction of the natrual beauty of the Upstate.
Savannah Martin	Landrum, SC	2015-07-21	I am signing this because I live in Landrum and I feel like this would be affecting the area in I live big time!!
Steve Cassell	Travelers Rest, SC	2015-07-21	mot in favor of power lines running through our backyard
Ann Bryant	Campobello, SC	2015-07-21	I do not want these lines coming through my neighborhood and not only distrupting our beautiful SC Upstate scenery but I don't want the health risks that they will bring!
Michael McClure	Tryon, NC	2015-07-21	If Duke were actually trying to "modernize" energy in the western Carolinas, these lines would be underground. I would hate to see this project fulfilled-- such an eyesore.
Timothy Howard	Greer, SC	2015-07-21	This is the most beautiful part of Greenville County and does not need to be defaced
Jeremy Adams	Travelers Rest, SC	2015-07-21	This is gods country and it doesn't need a power line through the middle of it!
Tabatha Campbell	Campobello, SC	2015-07-21	I may not live where their doing this now but I was born and raised though those parts and I still drive them roads daily! Why in the world would someone in their right mind mess up such BEAUTIFUL lands and views!! This is the country we shouldn't have to worry about these things happening here but guess we do. This is so sad... I'm so not going for this.. This is BS!!!
Cindy Appleton	Landrum, SC	2015-07-21	Destroy/Damage Scenic Hwy 11 especially in the Upstate of Greenville County and Spartanburg County.
Reagan Mccall	Campobello, SC	2015-07-21	I don't like seeing them around beautiful sights
Sarah McClure	Landrum, SC	2015-07-21	My family has lived here for 3 generations and I have seen development that has been both good and bad. One thing that has remained relatively untouched however are our outstanding views. When I lived away at various points in my life the mountains and especially this one particular view you get coming up 26 always made me tear up and realize I was almost home. Now as someone who made the choice to move back here I want to see the things that make this area unique and beautiful protected. As a business owner this is even more important as our views are a source of tourism revenue that we all benefit from. People come to my restaurant, Southside Smokehouse and Grill from neighboring towns like Greer because of how quiet and quaint our town is. People come from far away on their way to larger destinations like Asheville or Charlotte because they heard about the beautiful views and friendly people in this small town along the way. We can't lose that, for our sake and that of our guests.
Brian Kasch	Landrum, SC	2015-07-21	Don't want to see the beauty of the foothills destroyed by metal towers.

Name	Location	Date	Comment
Brian Tate	Landrum, SC	2015-07-21	Because I live right where they wanting to put one & i disagree because a eye sore, as hazards for my family,animals,an livestock,,they need to look else where,I say No to the powerlines!! (Say No to Duke Power
Teena Foy-sullivan	Laurens, SC	2015-07-21	I do not want my hometown's beauty destroyed!
rodney lewis	Morganton, NC	2015-07-21	I know this area. And don't want anything like this to happen to it .
Brenda Linder	Landrum, SC	2015-07-21	A private company should not be.able to take and control my property that I have paid for and continue to pay taxes on. I am also concerned about the health effects of these lines. Why don't the foothills matter? Bury the lines!
Georgia Mullinax	Campobello, SC	2015-07-21	Do not want this!!
William Ankney	Stedman, NC	2015-07-21	Use underground utilities
William Barr	Saluda, NC	2015-07-21	One of the proposed routes runs within 75 feet of my home
Jennifer Bethea	Inman, SC	2015-07-21	I live in the area and do not wish to see ugly towers in our gorgeous landscape.
Sara Broome	Taylors, SC	2015-07-21	We sold some land off Oak Grove rd to my brother. Thoughts of all family retiring there. It is beautiful and this will destroy price and beauty of land.
Travis Ramsey	Greenville, SC	2015-07-21	my whole family loves in Landrum. I grew up there. Such a beautiful town and now Duke Energy wants to come in and seize property?!?! Find property that is for sale and buy it but do not do this to the Landrum/Campobello community.
Patrick Hogan	Landrum, SC	2015-07-21	It is necessary for citizens to interact with favored corporations to determine appropriate alterations of the lifestyles of the
Mark Campbell	Spartanburg, SC	2015-07-21	We need to keep our lands free of obstructions like power lines and big towers
Corinne Rainey	Columbus, NC	2015-07-21	I've grown up riding in the area and now live and work here. I do not want to see this breathtaking landscape destroyed.
Bruce Hunt	Saluda, NC	2015-07-21	I do not believe that Duke Energy has made a convincing argument that the doubling of power is needed. They have not explored cheaper and less disruptive methods for getting this energy to a booming Asheville.
Dana Motley	Landrum, SC	2015-07-21	Loss of our pristine views, property values, federally endangered plants, recreation and scenic byways!
Patrick Magee	Campobello, SC	2015-07-21	This does not need to come to our area.
Sharon Spurlin	Columbus, NC	2015-07-21	I don't want this in my backyard.
Stephanie Magnuson	Campobello, SC	2015-07-21	I am concerned that this would take away people's property. Even if they would be paid for it, it would still be a huge blow to farmers and other landowners to lose the valuable resource that their land is.
Amy Phillips	Inman, SC	2015-07-21	I am sick of seeing power lines ruin our landscape! These are dangerous to our health and ugly in our neighborhoods.
Jessica Thompson	Landrum, SC	2015-07-21	I do not want to see the beauty of my town or the surrounding towns tarnished by Duke Energy.
Chuck Woods	bilboe, TX	2015-07-21	This is where I grew up. In the upstate. I can't stand idly by and watch an energy company take taxpayers land without their consent to build their crap on. There is nothing but forest on the north side of the mountain. ..why can't they build through there?
Jim Caughran	Travelers Rest, SC	2015-07-21	This area is unique in all the world and should be preserved!
Duane Styles	Taylors, SC	2015-07-21	I grew up here in the foothills and I still in joy the natural beauty that we have of the mountains. Don't let this be destroyed for a company's profit.
Brigitte Quinn	Spartanburg, SC	2015-07-21	this is NOT acceptable to anyone who lives in the peidmont. AND it's not just ugly, it's UNhealthy and unfair.

Name	Location	Date	Comment
Barbara Van Overschelde	Landrum, SC	2015-07-21	I don't want to see our property values dumped in the tank. I want our hang gliders to continue to have a safe flying area, and landing zone. And most important, those lines are hazardous to our health.
Misty Pate	Landrum, SC	2015-07-21	The town is too beautiful to let this happen
Heather Bumgardner	Landrum, SC	2015-07-21	I love the town I live, and refuse to see it turned into an eyesore.
Donna Searby	Tryon, NC	2015-07-21	This is a really bad idea, bad for the environment(they spray pesticides) and our property values. Will impact everyone. There is a longer but more expensive way to do it and they should explore their options.
Robert Mort	Landrum, SC	2015-07-21	This proposed project will mar the beauty we have worked so hard to preserve in South Carolina's Foothills. I find the idea that Duke Energy has even brought this plan to the table appalling. We will not sit quietly by and have everything we have worked so hard for destroyed.
Ashley Parrish	Columbus, NC	2015-07-21	I don't agree with rapping the land and local citizens for the benefit of a few...Duke Energy.
Stephanie Easler	Mill Spring, NC	2015-07-21	Runs across tip of one of my pastures and completely ruins my 360 degree view of Brights Creek mountains and will KILL my 100 acre property value.
Robbie Johnson	Saluda, NC	2015-07-21	Please no not our Melrose Mtn area. It's untouched and loved by many.
Madelon Wallace	Landrum, SC	2015-07-21	It effects will have a dreadful effect on our local economy by ruining our economic base of Agri and Eco Tourism. This area is also the gateway in both North Carolina and South Carolina. The area has worked hard for years to strengthen this economy. That's one reason why we attracted the Tryon International Equestrian Center. Now Duke Power is going to eviscerate us. It is not RIGHT.
Nancy Genero	Dedham, MA	2015-07-21	I'm signing because my husband and I will soon to relocating to Landrum and we would be heartbroken to see the foothills defaced by such an extensive power project. More time will be needed to consider its impact on the environment and the people who live along the proposed power line routes.
Tom DeKay	Saluda, NC	2015-07-21	I reside @ 1005 Pace Mountain Rd. We have built a 40 acre farm on our land over the past 25 years amidst our neighbors and are being assaulted by Duke Power. I think we need to stop this this line from being built in our backyard and the backyard of everyone who lives in WNC. Natural Gas is not a viable source of energy for our future. Best Tom DeKay Camp Creek Farm 1005 Pace Mountain Rd Saluda NC 28773 <a href="mailto:finelinesaluda@gmail.com" rel="nofollow">finelinesaluda@gmail.com</a>
Annette Mucciolo	Tryon, NC	2015-07-21	We do not inherit the earth from our ancestors; we borrow it from our children. Chief Seattle
Shelli Wilson	Columbus, NC	2015-07-21	I think this is crazy it's going though my back yard and we do not have duke power
Linda Hayes	Columbus, NC	2015-07-21	I don't want our area to be defaced by such huge transmission line. We depend on tourism and this would effect our lively hood and ruin the beautiful views in our area. Please put this farther east away from our mountains.
Steve Hammett	Saint Louis, MO	2015-07-21	This is horrible!!! Makes me consider getting off the grid and explaining to others how simple it really is to drop the big power suppliers! This is bad for everyone involved but the shareholders and other assholes affiliated that don't live in our community!
Stephanie Lassiter	Simpsonville, SC	2015-07-21	this is beautiful horse country in SC and needs to stay that way

Name	Location	Date	Comment
Emmy Summers	Tryon, NC	2015-07-21	We do not want Duke Energy's transmission lines running through Polk County!
James Blackwell	Omaha, NE	2015-07-21	Destroying natural beauty that the area is known for.
Dan Ferebee	Tryon, NC	2015-07-21	I there another direction Duke can consider? Need to look at other parts of the world for ideas!!!
Brittney Cashwell	inman, SC	2015-07-21	I'm Signing this petition due to the fact that this option is way too close to my community and would effect the upstate.
Chasity McNeely	Fountain Inn, SC	2015-07-21	This is where I grew up. I do not want to see it overdeveloped and destroyed.
Cynthia Davis	Tryon, NC	2015-07-21	You cannoy destroy our mountains and views to feed the energy farms- google Facebook and charlotte.
Sebastian Libertino	Landrum, SC	2015-07-21	I am signing this petition because we as a family believe there are current right of ways that could be utilized to manage the increase in power.
Sue Truitt	Landrum, SC	2015-07-21	Opposed due to the enormous negative effect it will have on our community!
Ava Burney	Columbus, NC	2015-07-21	This will be a blight to our community!
christina sluder	Candler, NC	2015-07-21	Consider this in your back yard!! The safety with children, the visual looking out the window every day instead if the sunset and mountain.
michael dill	Moore, SC	2015-07-21	I live here because of the foothills and the beautiful scenery. We do not need Duke power or your evilness here.
William M. Coker 1205 Partridge Road, Spartanburg, SC	Zirconia, NC	2015-07-21	I am a property owner in both Spartanburg County, SC and Henderson County, NC. I firmly believe that placing these unsightly and possibly unnecessary power lines in this beautiful area is an outrage.
Michael Sandahl	Landrum, SC	2015-07-21	This will destroy a unique area of South Carolina.
Wendy Pieper	Greer, SC	2015-07-21	I decided to live and invest in property in this area because of the pristine, natural vistas and wildlife. This construction would affect the natural beauty, destroy and damage the ecosystem and wildlife and reduce the value of my property and those around me. People work hard to purchase land and their homes and have a right to the expectation of preserving those purchases. Some of these people have property that has significant value as an intricate part of their family's history and heritage. That should not have to be destroyed or forfeit for the right of "progress". Duke Energy has historically been a poor steward of conservation and preservation of natural lands with little accountability. Our government needs to represent their true communities and take a stand against lobbying energy companies like Duke Energy. The reality is that Duke Energy robs the land and does damge to our ecosystems while continuously hiking rates for consumers and thus far, our government has not held them accountable or halting the damaging effects. When will the corruption end and our government actually help the people instead of deep-pocketed energy?
Elodie Craig	Waynesville, NC	2015-07-21	I am signing because there is no need to turn these beautiful mountains into a metal wasteland.
Cabot Lee Petoia	Boston, MA	2015-07-21	We deserve a say in our beautiful community.
Scott Carson	Landrum, SC	2015-07-21	37 years ago my wife, infant daughter and I moved to a remote, pristine, rugged and fully wooded 32 acre property in the foothills. From that time to the present I have devoted my life to building a homestead for my family and caring for this beautiful land. One of the proposed routes of the foothills project would run through the middle of this property. It would destroy not only the beauty of this land, but a lifetime of labor and love. This homestead is where we've raised our daughter and now grandchildren. Its destruction would break my heart and spirit. I'm too old to start over again.

Name	Location	Date	Comment
Amanda Howard	Greenville, SC	2015-07-21	This is just ridiculous.
Marshall Lawson	Saluda, NC, NC	2015-07-21	<p>The so called "Foothills Project" is all about Duke's guaranteed rate of return on investment as a regulated monopoly in NC and little if anything to do with meeting any real or realistic growth in demand for electricity.</p> <p>This wasteful development threatens our property and the properties of our neighbors in lower Henderson County, NC with a variety of harm, including diminution in property values, emotional distress, health issues, negative sight impact and even physical takings of property all to me a demand that does not exist.</p> <p>Duke, in fact, enjoys a surplus of power in the Carolinas and does not need the proposed massive 600 megawatt power plant and attending transmission lines/towers and expanded/new easements. If Asheville is draining power from its grid, as Duke maintains, Duke has alternatives to meet any such shortfall, including constructing a smaller gas fired plant in Asheville to serve Ashville instead of running new power lines all over the Piedmont of the Carolinas.</p> <p>The people of the foothills need to stop this wasteful project dead in its tracks before Duke obtains regulatory authority and not let Duke play one group of property owners off against another as if this so called project were a foregone conclusion.</p>
Mary Ellen Kocopi	Landrum, SC	2015-07-21	Absolutely opposed to Duke Energy project, especially Route 4 that impacts our Glassy Mountain.
Mary Ellen Bosworth	Landrum, SC	2015-07-21	I am strongly against this project.
denise mills	Asheville, NC	2015-07-21	Duke Energy has little regard for the natural environment and must not be allowed free reign.
Ashley DeWees	Travelers Rest, SC	2015-07-21	This is my backyard where I grew up and this is NOT ok.
Rhonda Gilliam	Taylors, SC	2015-07-21	This will affect family and friends in this area. It will ruin the most beautiful area of the upstate. Very sad that this could even be considered.
Richard Loescher	Landrum, SC	2015-07-21	I don't want my home or neighborhood ruined by Duke Powers project
Adam Ness	Bamberg, SC	2015-07-21	My wife and I own property in the proposed area, and our property will be directly affected if they move forward.
David Western	Landrum, SC	2015-07-21	The proposed route 4 would cut right through our subdivision and potentially over our house on Glassy Mountain. I see no reason to cut these new routes through the mountains rather than follow existing lanes that are already commercialized.
Brooke Graydon	Greer, SC	2015-07-21	Unnecessarily defiling highway 11 and the polk county, foothills area for duke stock holders own personal agenda, anymore than duke has done so already, is a disgrace to God's creation and a slap in the face to those of those who live in the area and are not offered services from duke anyway.
David Miles	Catawba, SC	2015-07-21	Local farms in the foothills that have been in several generations will be ruined for everyone else's lives to carry on the tradition and others in the area along with nature. It is going straight through some of the last upstate countryside in the state. This must be stopped
Carrie Hall	Columbus, NC	2015-07-21	I do not want this to affect our health or the value of our property.
Gretchen Lobas	Landrum, SC	2015-07-21	This will destroy this whole area, not only aesthetically, but most importantly economically by plummeting property values

Name	Location	Date	Comment
Christine Tower	Landrum, SC	2015-07-21	New power line project will destroy natural beauty of Cherokee Scenic Highway, SC Hwy. 11 have a negative impact on local tourist economy and housing.
Diane McClellan	Columbus, NC	2015-07-21	I don't want this near my house. Our beautiful mountain views will be ruined and I believe it will lower our land values.
Kirk Bowden	Columbus, NC	2015-07-21	I am opposed to the destruction (physically and visually) of some the most beautiful land in the country to live. There are options to overhead lines including burial and make the power where you need it.
ariel ferguson	Greenville, SC	2015-07-21	Enough is enough. It's bad enough the cost for power it will only go up from here if this goes through.
Kathryn Shearer	Saluda, NC	2015-07-21	I am opposed to the plan to deface and ruin our mountain ranges, our economy, our property values, our lives.
crystal Turner	Landrum, SC	2015-07-21	I want my kids to see trees and nature not this crap..
Charles Parrish	Columbus, NC	2015-07-21	This project will decimate m property, poison the land and destroy my way of life in this pristine setting.
David Bevan	Landrum, SC	2015-07-21	The pylons and lines will be a blot on the pristine countryside it traverses.
Steven Hawkins	Landrum, SC	2015-07-21	The proposed Route 4 will take nearly half of my 13.41 acres with the limits of the right of way dissecting my home and a tower (if spaced at 500' or 1000' intervals) about 300-400' outside my front door. I am completely surrounded (360 degrees) by forest and will lose half of the natural environment that encompasses me when Duke clear cuts the right of way... not to mention the unsightly 140' tall tower in my front yard! I am 45 years old and even if I were to plant trees TODAY to obstruct the future view to my south, not in my lifetime will they grow tall enough to shield my home from Duke's proposed line. We built on this property because it was going to be the place we spent the rest of our lives surrounded by nature... not a power transmission line. We are devastated at such a prospect of losing the tranquil serenity our land currently affords us.
Cheryl Hawkins	Landrum, SC	2015-07-21	The proposed Route 4 will take nearly half of my 13.41 acres with the limits of the right of way dissecting my home and a tower (if spaced at 500' or 1000' intervals) about 300-400' outside my front door. I am completely surrounded (360 degrees) by forest and will lose half of the natural environment that encompasses me when Duke clear cuts the right of way... not to mention the unsightly 140' tall tower in my front yard! We built on this property because it was going to be the place we spent the rest of our lives surrounded by nature... not a power transmission line. We are devastated at such a prospect of losing the tranquil serenity our land currently affords us.
Brian Sullins	Greer, SC	2015-07-21	I'm signing because I hike walk my dogs through that land. Why would you want to add power lines through that? So people can more fucking WIFI? Nature matters to some people too. god made that land for us to enjoy, stop destroying it!!!!
Jacob Wright	Greer, SC	2015-07-21	Fuck duke
Jeff Batkin	Saluda, NC	2015-07-21	It is spoiling the mountain scenery, and curbing property values. And I just received announcement of the meetings to discuss on the day of the forum, not prior to.
Robert Drothler	Landrum, SC	2015-07-21	am concerned about the impact on the beautiful mountain views, scenic Highway 11 and on property values. the line, option 4, is impacting properties not even serviced by Duke

Name	Location	Date	Comment
Rudolph Hawkins	Landrum, SC	2015-07-21	I am nearly 86 years old and do not want to see the beauty surrounding my home destroyed by a power line.
Jim Maconkey	Landrum, SC	2015-07-21	Any of the proposed routings would be an absolute eyesore in this beautiful section of the upstate, but #4 in particular would be an absolute blight on scenic Hwy. 11. To add insult to injury, those of us that would be the most negatively impacted by this monstrosity in our midst are not even Duke Energy customers!!
Michael Axelrod	Columbus, NC	2015-07-21	This transmission project will irreparable damage this area in many ways.
Ruby Jorgensen	Landrum, SC	2015-07-21	I am opposed the destruction of the last of the Blue Ridge Mountains....
Alissa dekalb	Travelers Rest, SC	2015-07-21	They will ruin this beautiful land. Don't allow it!
Thomas and Deborah Atkins	Landrum, SC	2015-07-21	We want to preserve the beauty of this area.
Jessica Peeler	Spartanburg, SC	2015-07-21	This is crazy.
Dlee Worden	Columbus, NC	2015-07-21	I am very much against this power line project. Not only will this affect property values but will also pose a health hazard for people and animals, let alone being an eyesore. Being the environmental record that Duke Energy has, for once can they just do the right thing. I would challenge the high ranking executives (not middle management) about how they would feel about having this on or near this property and having their spouses, children or grandchildren growing up around it. Would image their opinions would be different if it affected them directly. Will fight this every possible way.
Paul West	Blountville, TN	2015-07-21	I hate these robbers.
Gabriel Brown	Campobello, SC	2015-07-21	I'm signing because I want to preserve the beautiful community we have developed and I wish to prevent how voltage lines from interrupting the beautiful landscape.
Elizabeth Lawson	Columbia, SC	2015-07-21	This transmission line will harm the the economy and beauty of the foothills of NC and SC. It will ruin the value of our home and land that just outside of Saluda NC and may result in the loss of our property. These "public meetings" are pitting the different communities against each other in an effort for each community to try to save itself from ruin. There has to be a better way to increase the generated power and the transmission if is even needed. I do not trust that Duke Energy is being honest and I think that this is just a ploy to generate more revenue for Duke Energy!
Bob Talley	Asheville, NC	2015-07-21	They should bury all new transmission lines
Rima StClair	Saluda, NC	2015-07-21	PLEASE STOP Power Grid in FOOTHILLS of Western NC project!
Linda Herbert	Columbus, NC	2015-07-21	I do not agree with Duke Power's plans to route a new transmission line through Polk County. I especially do not want it anywhere near White Oak Mountain.
Ryan Cunningham	Spartanburg, SC	2015-07-21	Fuck duke
Patricia Huwyler	Landrum, SC	2015-07-21	The line is going through my subdivision
Roberta Axelrod	Columbus, NC	2015-07-21	I am totally against the power lines as planned by Duke Energy. I am for the underground installation of this project.
Kelly Sparks	Tryon, NC	2015-07-21	They are going to ruin the beautiful area that I live in!!!
stephanie southern	Landrum, SC	2015-07-21	I want to preserve the area that I live. One of the proposed routes is at the end of my road and we don't want it.
Tiffany Searcy	Tryon, NC	2015-07-21	It will take away our natural beauty
emily southern	Landrum, SC	2015-07-21	I live on highway 11 in landrum and its beautiful

Name	Location	Date	Comment
Gary Spickard	Hendersonville, NC	2015-07-21	There is a probability that the new power line will be within 500 ft of my retirement community. This may affect some residents with health issues.
Stephanie Ross	Greer, SC	2015-07-21	Dangerous to health of my family
Sandra Taylor	Tryon, NC	2015-07-21	I am opposed to the proposed expansion for many reasons.
Hunter Rossi	Columbus, NC	2015-07-21	The new power lines may destroy property.
Amy Dragoun	Landrum, SC	2015-07-21	Y'all need to leave the woods alone because it is home to animals. If you cut them down the animals will have no where to go.
Caleb Bruce	Landrum, SC	2015-07-21	The power lines going to go right over where I live and the construction of this project is going to disturb the oease and wildlife of our area. Thanks
Sabrina Arledge	Chesnee, SC	2015-07-21	We need to retain the beauty of our area and our wildlife habits.
Lori Humphrey	Landrum, SC	2015-07-21	It will ruin the beauty of southern South Carolina.
HOLLS Dobbins	Landrum, SC	2015-07-21	Because I don't want these dang PowerLine running through my dang yard
Pat Woods	Columbus, NC	2015-07-21	This would ruin the pristeen and appearance of the foot hills and our mountains
Gerda Hook	Columbus, NC	2015-07-21	I believe that these transmission lines are dangerous to people and animals. Duke Power needs to find another solution.
Andy Zuidema	Campobello, SC	2015-07-21	I do not want the value of my property (monetary & aesthetic) degraded by Duke and this project.
Theresa Murphy	Katy, TX	2015-07-21	I used to live there and don't think the veiws/nature should be partially destroyed by this plan.
Carl Johnson	Landrum, SC	2015-07-21	bad plan - Duke does not care about communities it serves except to make money.
Suzanne Strickland	Landrum, SC	2015-07-21	The power lines will seriously hurt our vibrant tourism economy which we've all worked so hard to establish. The lines aren't needed. Power demand is flat and Duke has a 19% surplus. So why are they pursuing this project and destroying our economy?
Evelyn Pezzolla	Landrum, SC	2015-07-21	Do not destroy the historic integrity of this region
Kristin Putaski	Greer, SC	2015-07-21	I'm signing this because I want to preserve the area that Duke is proposing about.
Charles Derreberry jr	Asheville, NC	2015-07-21	I'm signing this because I grew up on that mountain and my parents still live there.
frank pezzolla	landrum, SC	2015-07-21	Duke Energy is a bad actor -- has earned a lousy, well deserved poor reputation.
Michael jones	Inman, SC	2015-07-21	i think all cables should be place below ground.
john bunn	Campobello, SC	2015-07-21	I oppose the Duke Energy project
Cynthia Harton	Wadmalaw Island, SC	2015-07-21	i am a property owner
john toen	Landrum, SC	2015-07-21	health hazard and property value will be affected.
Paul Edelman	asheville, NC	2015-07-21	I care about my neighbors
Kirsten cox	Inman, SC	2015-07-21	we all know this is not necessary and if we don't make them stop they will take whatever they want! If Asheville needs this power, add something closer to their homes.
Susan Sentell	Landrum, SC	2015-07-21	My property is in the direct line of a possible route. I already have one power line going thru my land, a second line will devastate my property value.
Georgina Ravan	Spartanburg, SC	2015-07-21	Don't need more trees killed and destroy the little forrest we have. Stop this mess

Name	Location	Date	Comment
Denise Neal	Taylors, SC	2015-07-21	Don't ruin beautiful land. Again.
Tonya Smith	Landrum, SC	2015-07-22	Do not ruin our beautiful land and property with these ugly power lines! Duke also has no concern for the environmental impact they will cause.
Amanda Wilson	Landrum, SC	2015-07-22	I'm signing because it's coming right behind my house
Lacey burke	Landrum, SC	2015-07-22	im signing because this effects me. This is practically in my back yard!
Stacey Lindsay	Landrum, SC	2015-07-22	There are other solutions to this issue. No need to destroy the beauty of one of the loveliest areas in the country if not the world. The community has worked so hard over many years to achieve economic prosperity and a place in which we all have pride. I hope Duke will work harder for alternatives.
Randi goulding	Rutherfordton, NC	2015-07-22	Bury the lines if you must run them at all!!!
Katelynn Alderete	Landrum, SC	2015-07-22	Landrum is my home!
Martin Bernstein	Tryon, NC	2015-07-22	This project is an outrage. It is completely out of touch with the wants and desires of almost all the people who live in the affected area. It is arrogant. I don't believe that Duke is planning to expand a power source 60 miles from the intended recipient, thereby destroying the beauty of this area. Please "modernize" in Asheville.
Shellie Enteen	Greer, SC	2015-07-22	This 'modernization' project will deface and defile the Foothills of WNC and Upstate SC. MANY of the communities and areas to be affected are not even serviced by Duke Energy. Duke Energy has already been shown to have little regard for the environment, having been fined \$102 million in coal ash spill in WNC and MUST NOT BE ALLOWED to move this proposal forward.
Rachel Chaney	Campobello, SC	2015-07-22	I believe in improvements and less spending. These new changes do not propose either. Not rationally. I have watched my bills increase exponentially in the last 15 years and have had no improvements as of yet. This appears to be a way for another big corporation to force people into change without benefit to those of us who are paying for it.
Kim Clement	Lynn, NC	2015-07-22	This is destructive of everything we love about the area. Talk about raping the land! Would look like an industrial site not the beautiful countryside we now enjoy.
John Burke	Landrum, SC	2015-07-22	This will be in my back yard or over the new house.
Barbara Tomei	Campobello, SC	2015-07-22	We are against power lines taking out and disturbing our invironment, plus there are health issues that need to be examined.
Jeff Byrd	Tryon, NC	2015-07-22	I have worked for 30 years in this beautiful community and cannot stand the idea that we would have this scar across the middle of the most beautiful area on the planet.
michelle mathews	Greenwood, SC	2015-07-22	this is crazy....leave it alone
Sonja Green	Greer, SC	2015-07-22	I'm signing because this will affect some of my friends & their homes!
Catherine Gillet	Tryon, NC	2015-07-22	I am a registered voter and I am completely opposed to the duke energy Western Carolina modernization project. I am also disappointed and appalled that our elected officials would even entertain the prospect of jeopardizing our rural, agricultural and tourism driven economy with the hideous travesty duke energy wants to place on our lands. If they think Polk county is full of quiet retirees who won't put up a fight, they are gravely mistaken. Please take a stand for the generations who have built this solid community and safeguarded it's natural beauty and say No to dukes plan to abuse our land for their own profit.
Gena Plumley	Spartanburg, SC	2015-07-22	I love my mountains!!

Name	Location	Date	Comment
Becky Brown	Rutherfordton, NC	2015-07-22	I would hate to see our beautiful foothills further defaced by more electrical power transmission lines. There are established lines near my farm and I don't like looking at them. More in the area would be that much worse.
Kim Williams	Landrum, SC	2015-07-22	We need to preserve the natural forest that are in Landrum in Campobello we are known for this area beautiful place and I don't think you guys should destroy what God has intended it to be
Charlene VanOrsdale	Landrum, SC	2015-07-22	I can't stand thought of huge metal structures cutting down our trees messing up our country side! Duke Power go away
Julia Ruby	Travelers Rest, SC	2015-07-22	I oppose this plan of Duke Power because it will deface beautiful woods, hills, and property in my area and elsewhere, and potentially disrupt wildlife and bring high-tension electrical cables to our wilderness and near residential homes. If you research the effects the strong electro-magnetic fields can have on the health of humans and animals, I am sure you would find cause for alarm. We citizens should not have to be subjected to our land being violated for the financial benefit of Duke Power.
Jacob GALLMAN	Greer, SC	2015-07-22	This is where I proudly call home.. I can't imagine someone defacing it like this.
Echo Abril	Columbus, NC	2015-07-22	I oppose what Duke Power wants to do
Steven Ivester	Landrum, SC	2015-07-22	I oppose this project.
Holly McKee	Tryon, NC	2015-07-22	i'm signing because I live in Polk County, NC and want to see our Foothills preserved for all time. Not defaced with steel,towers every 1000 ft.
Anna vest	Landrum, SC	2015-07-22	This is my home town, we choose to move back here and buy a house away from things like this. I don't want an industrial or electric or city view. I want to live in the country with fresh air and pretty scenery. I love these mountains and town. Please don't screw up our community. It's our home not yours. It's our families that suffer from this not yours. Leave our community alone.
Roy Miller	Tryon, NC	2015-07-22	I want to keep our mountains and foothills the way they should be ... Without miles of power lines
Marianne Carruth	Columbus, NC	2015-07-22	Property value and business will be affected.
Mattingly Yates	Columbus, NC	2015-07-22	I believe this proposed line will very negatively affect the entire foothills community by significantly lowering local land values, and by ruining the natural beauty of the Blue Ridge Mountains that brings great economic wealth to the area.
Tonya Byers	Winnsboro, SC	2015-07-22	I live in this area and I don't want the hideous towers. I don't want the trees cut down. Many other reasons
Gregory Lobas	Columbus, NC	2015-07-22	This ill-advised plan will destroy our way of life and one of the most beautiful and important scenic and natural areas in the country.
Jaclyn Medlin	Travelers Rest, SC	2015-07-22	We need to protect our forest
Russ Rock	Campobello, SC	2015-07-22	Smelly dealing here!
christopher howard	Greenville, SC	2015-07-22	I'm signing this because I work for a living and there's no reason for all that
Danna Humphries	Murrysville, PA	2015-07-22	Nothing about Duke Power's proposal will be good for our community
Patrick Baker	Travelers Rest, SC	2015-07-22	Duke Power has been aimlessly dumping harmful coal ash into SC rivers and surrounding areas. Killing off wildlife forever, that your kids and their kids won't be able to enjoy. You can't eat, drink, or breathe money. There are much more economically friendly alternatives to collecting and consuming energy.
Izora McClure	Landrum, SC	2015-07-22	Duke energy has caused enough destruction with no regard for environment
Rebecca Terry	Landrum, SC	2015-07-22	I do not want to see the mountains defaced and the history and wildlife destroyed.

Name	Location	Date	Comment
jessica wilds	Apex, NC	2015-07-22	Conserving mother Earths beauty is important to me.
Robert Garrett	Marietta, SC	2015-07-22	Duke should clean up the ash pond leaking hexavalent chromium at Lake Julian before building any more power plants
Shannon Robinson	Mill Spring, NC	2015-07-22	One if the proposals go straight through my driveway.
Cierra Townson	Central, SC	2015-07-22	We have so little nature to appreciate in our nearby area. If you take this away, what's next? Where would it end?
charles mcfall	Central, SC	2015-07-22	My personal and professional experience with Duke Energy indicates to me that Duke's community relations is cosmetic with little concern for customer and community well being. This is the same company that cut off power to a poor lady in Greenville, SC when she couldn't pay her power bill resulting in her death. Anything this company does affecting the community at large should be suspect and closely scrutinized.
Marsha Van Hecke	Tryon, NC	2015-07-22	I care about this beautiful area of our state and its people. And there is another way for Duke Energy to accomplish its project. Do the right thing! Thank you, a DE shareholder
Patricia Rhodes	Weaverville, NC	2015-07-22	I have great concerns about these mega power lines and how they will impact our lives and environment. I have personal experience in the past with this kind of thing. These lines are huge. Larger than the ones near our house. Also once this project starts property owners will have no choice but to accept it.
Janet Pauly-Bray	Plymouth, WI	2015-07-22	We own land in Polk County and are hoping to build a home there. However, we may have to reconsider if Duke moves forward with this project.
Susan Ball	Landrum, SC	2015-07-22	Environmental, wellness, Impact to our community.
Neil Howard	Tryon, NC	2015-07-22	Horrible idea, exposing thousands to health risks.
Thomas Jones	Travelers Rest, SC	2015-07-22	I'm signing because this is wrong. Some things like this beautiful country side should be left sacred. It should be owned by owners not by big businesses just for ease and because they can. I'm signing this because they can't.
Misty Chapman	Pickens, SC	2015-07-22	I live in Upstate SC, and I urge you, please do not let Duke Power invade and diminish the beauty of the foothills. The company isn't concerned about the welfare of locales or the environment. They're money hungry and wanting to expand their reach. PLEASE STOP DUKE POWER!
robert kirk	Taylors, SC	2015-07-22	Leave the country life alone don't need all this crap boxing us in....
Jeff Swager	Saluda, NC	2015-07-22	I believe that they can find an alternative route through the I 26 corridor.
daniel doughtie	saluda, NC	2015-07-22	to prevent the scarring of one of the most beautiful sites in the united states/world
Thomas Foster Lytle	Tryon, NC	2015-07-22	These power lines if placed where proposed will ruin scenic vistas and pristine private property forever. Alternatives must be developed.
Anita Williamson	Tryon, NC	2015-07-22	I am opposed to the rape of our beautiful area (that many of us have fought so hard to maintain green space and less dense development) for a profit generating project by a monopoly.
Mike Harrell	North Myrtle Beach, SC	2015-07-22	Alternate methods of power distribution should be available.
michael byrd	Taylors, SC	2015-07-22	You cant just take peoples stuff
Jessica Turner	Campobello, SC	2015-07-22	I do not want duke destroying this beautiful place, nor monopolizing the power here. We have Broad River and aer very happy with them and or power, and never had an outage!!!
Dana Pulley	Sumter, SC	2015-07-22	Solar power is the way to go!

Name	Location	Date	Comment
Carole Gassaway	Columbus, NC	2015-07-22	We don't want to have the mountain we live near destroyed. Nor do we want others to have their land and homes taken from them or destroyed.
Pam McNeil	Tryon, NC	2015-07-22	This is a beautiful pristine area which will be permanently scarred by this expansion. I strongly urge DukeEnergy to explore alternative solutions.
Henry Mitchell	Greenville, SC	2015-07-22	Duke Energy's need for profit does not justify the environmental impact this project would have on dwindling undisturbed mountain ecosystems in our area..
Don West	Greenville, SC	2015-07-22	I am considering purchasing a house in the Tryon/Landrum area. The majority of my business is photographing equestrian events and activities as well as landscapes in the affected area.
Richard Young	GREENVILLE, SC	2015-07-22	There are already far too many of those ugly power lines up there.
Kyle Kincaid	Charleston, SC	2015-07-22	Duke Energy has proven time and time again that they only care about lining the pockets of their corporate figureheads and stockholders. They have no interest in the preserving the ecosystem or public health.
Stephen Wood	Campobello, SC	2015-07-22	The economic and environmental impact to people who will receive no benefit from the project
Elena LeVine	Tryon, NC	2015-07-22	This substation would negatively impact the whole area.
Lindsey Burgess	Hendersonville, NC	2015-07-22	The transmission lines / power lines would destroy local business; from orchards to farms, to forcing families to leave their homes because of the health hazards of the lines. It is an injustice to the people and landscape of Western NC and the effected counties.
Nancy Pettit	Tryon, NC	2015-07-22	This is just really wrong in so many areas!!
marguerite morley	Charleston, SC	2015-07-22	save the natural environment
Cathryn Lennon	Tryon, NC	2015-07-22	I do not want this coming through my Community.
Deanna L. Mechensky	Campobello, SC	2015-07-22	Medical Research has shown the negative impact such power lines have on humans and animals-Why isn't this transmission tower being constructed in Asheville area and western N.C. since that is where the power need is expected.Duke is needlessly endangering our health,animals and prestine farm land-our environment at a time that it is already being damaged by greedy policies.
Derita Wray	Landrum, SC	2015-07-22	We believe the foothills are beautiful and should not be ruined by this project!
judith sanders	fredericksburg, VA	2015-07-22	Be truly energy independent, minimize the grid, and promote on-site clean energy generation with wind, solar, and geothermal.
Linda Slark	Rutherfordton, NC	2015-07-22	There should be options for energy , such as solar power , underground power . 40 miles of lines is an unacceptable Plan , and I will not support it...
Elizabeth Rountree	Tryon, NC	2015-07-22	I want to save our beautiful land and prevent economic damage to our people.
Timothy Daniels	Tryon, NC	2015-07-22	This will ruin not only our beautiful scenery, but also property values.
Mike Daniels	Charleston, SC	2015-07-22	My family lives in Polk county so Im a frequent visitor and will eventually retire there. Duke power should NOT be able to construct these power lines.
daniel norton	horse shoe, NC	2015-07-22	duke's PR stunt to make people believe they weren't poisoning lake julian won't work.
Eugene Grigg	Inman, SC	2015-07-22	Live in area and hate to see scenic property destroyed.
Denise Rose	Flat Rock, NC	2015-07-22	We are building a new home near Red Fox Rd. This news is disastrous for the area. Destruction of homes, lifestyles, tourism is only a small drop in the bucket...

Name	Location	Date	Comment
Beth Perkins	Campobello, SC	2015-07-22	I would hate to see the conservation in this beautiful area to have all been in vain. Please put the lines underground.
Anne Arledge	Mill Spring, NC	2015-07-22	I do not want our beautiful rural area disturbed. Our property has been in the Arledge family for over 4 generations and I want to protected for future generations.
Deborah Fitzgerald	Tryon, NC	2015-07-22	I am opposed to the project.

Name	Location	Date	Comment
Judy Peyton	Hendersonville, NC	2015-07-22	<p>I too was at the Landrum meeting and I estimate at least 2000 people were there. It was a constant stream of people in and out but the entire school property was full of cars as were the side streets and all illegal parking spaces. There was a line of people waiting to get in when I left at 5:30. So the 500 number is WAY too low.</p> <p>I sent the message below to a Duke Employee talking about why distributed base load generation in the Asheville area is a much better solution. See links to additional information. And thanks for getting this started.</p> <p>"Thank you for taking the time to listen to our concerns regarding the Foothills Transmission Project. The Foothills project was a complete shock to me. It is last century's technology which will be a turn-off to forward thinking prospective residents and businesses; the transmission system will harm the environment and many thousands of residents, farmers and businesses. Putting in an old-fashioned generation and distribution system in an area dependent on tourism, added value agriculture and high-tech business growth is extremely damaging to the entire area.</p> <p>Fortunately there is a better, more modern and more environmentally friendly upgrade program for Duke Power to implement.</p> <p>&lt;a href="http://www.forbes.com/sites/kensilverstein/2013/08/18/distributed-generation-grabs-power-from-centralized-utilities/" rel="nofollow"&gt;http://www.forbes.com/sites/kensilverstein/2013/08/18/distributed-generation-grabs-power-from-centralized-utilities/&lt;/a&gt;</p> <p>The above link is a quick overview from Forbes magazine of how distributed energy generation is gathering momentum, and the advantages and problems caused by this shifting energy delivery model for utility companies as well as their customers. The company mentioned in the article, FuelCell Energy has a very good web site with lots of case studies should you want more examples.</p> <p>&lt;a href="http://www.fuelcellenergy.com/" rel="nofollow"&gt;http://www.fuelcellenergy.com/&lt;/a&gt;</p> <p>&lt;a href="http://www.grandviewresearch.com/industry-analysis/distributed-energy-generation-industry" rel="nofollow"&gt;http://www.grandviewresearch.com/industry-analysis/distributed-energy-generation-industry&lt;/a&gt;</p> <p>The above link is to a more comprehensive analysis of distributed power generation. It is a for-purchase report. Most of the important information can be obtained by reading the summary. However, if Duke needs convincing that the trend is very real you can purchase the report for the projections.</p> <p>The foothills will not get a "do-over" for the project to upgrade the grid replace the coal fired plant in Asheville. We will need to live with the decisions that we make today for decades. Therefore it is important that in this rapidly evolving industry, we choose a modern, forward-thinking, efficient, adaptable and robust system rather than one that is old-fashioned, actually less reliable because of the long, vulnerable, transmission lines between base-load generation and Asheville, and less robust because of the consolidated generation."</p>

Name	Location	Date	Comment
Norman Olson	Hendersonville, NC	2015-07-22	I'm signing this petition because I am in agreement with the great majority of responders that this Duke plan is not the way to go. Let's encourage Duke to join the 21st century and stop using outmoded, costly, and inefficient technology to deliver power. Take the same dollars and invest in distributed energy programs.
Michelle O'Brien	Asheville, NC	2015-07-22	Duke Energy has shown little regard for our current and future environment and caring only about its own profit.
Caitlin Jacobson	Ketchikan, AK	2015-07-22	Companies will not act properly without citizen oversight, and those citizens should be heard!
Will Arthur	Santa Clara, CA	2015-07-22	I'm a hang glider pilot and proposed route #4 will eliminate hang gliding at the only site in South Carolina, Glassy Mountain.
W.Steven Mruk	addison, IL	2015-07-22	this is Important not to destroy the beauty of the foothills countryside and Eco system
David Tillinghast	Seneca, SC	2015-07-22	These proposed transmission lines pose a very serious safety hazard to the hang glider pilots flying at the ONLY hang gliding site in South Carolina at Glassy Mountain; they would scar much of the scenic beauty of the Blue Ridge Mountains; they would be a health and environmental hazard; they are unnecessary.
Patrlck long	Shreveport, LA	2015-07-22	It directly effects my family's property in Zirconia.
Caroline Long	Flat Rock, NC	2015-07-22	We need to preserve our WNC beauty! This power isn't even going to NC
Cynthia Poole	Greenville, SC	2015-07-22	This development would only serve Duke's best interests. It would not benefit the people of the Western Carolinas, but only take away more of our land's natural beauty. It would be an assault against our environment and ultimately, I expect that it would prove disastrous to our environment just as we have seen with Duke's projects in the past.
melinda way	saluda, NC	2015-07-22	i live all year at lake summit & we are very concerned about a couple of these potential routes spoiling our woods/property
Helen Carmody Stroud	Galveston, TX	2015-07-22	I really don't want to live in a world that looks like a scene out of TERMINATOR!
Carl Caudle	Tryon, NC	2015-07-22	Bury the lines underground. Overhead lines will ruin numerous communities.
Jean Wagner	Saltsburg, PA	2015-07-22	It will destroy our land values & our desirable way of life.
Nancy Ben-Dror	Landrum, SC	2015-07-22	I moved here from NY for the views and country living. This is not what I bargained for!
MICHAEL DRISCOLL	Tryon, NC	2015-07-22	michael driscoll, sr.
Angi Neal	Mills River, NC	2015-07-22	I don't want these towers in our subdivision!! It will kill our values and our views and threaten our health!!!
Addie Evett	Traverse City, MI	2015-07-22	I do not want our beautiful foothills to be ruined by more power line litter.
John Harrison	Greer, SC	2015-07-22	It's wrong to destroy such a beautiful piece of South Carolina just to put more millions in your pockets
Ursula Schneider	Landrum, SC	2015-07-22	Ursula Schneider

Name	Location	Date	Comment
Bryan Neal	Mills River, NC	2015-07-22	<p>For the life of me, I do not understand how a company can seize inhabited property simply to increase their profit margin. There is no mention of compensation for the property they plan to steal. Many of us in the area have our retirements and financial futures wrapped up in our homes. And to use Roundup to maintain the "right-of-way"? This is an absolute nightmare.</p> <p>This action will unduly, and unfairly injure our community in terms of our financial futures, physiological and psychological well being.</p>
Janet Stone	Marietta, SC	2015-07-22	I want the land kept natural.
Tiffany Gordon	Jacksonville, FL	2015-07-22	I love the land and communities and was born and raised here.
Marsha Rigney	Tryon, NC	2015-07-22	The unique character if the Caroluna Foothills must be preserved for posterity and must be fought for.
Maryanna Haymon	Columbus, NC	2015-07-22	Property owners who are concerned about the future of our lives and health. Horse breeders in the area who have been in the business for 24yrs and ranked in the top of the country for many years. Reserve shows negative impact of the towers on fertility and the health of the horses
Dean Campbell	Landrum, SC	2015-07-22	Valuable and irreplaceable historic, scenic and environmental places will be negatively impacted in all four proposed routes. Did Duke look for these when planning the routes?
katlin coupe	Landrum, SC	2015-07-22	I was raised in landrum sc and worked in polk nc... Simply too beautiful!
st claire nettles	landrum, SC	2015-07-22	<p>I am sick of Duke power bullying people and destroying the environment[can you say coal ash]? Let them locate nearer</p> <p>just say NO to this horrible proposal to defile our scenic foothills . Duke is a huge corporate bully and cares only about there bottom line and paying big dividends to there stock holders . Let them try to put this around asheville nc and see what happens</p>
Drew Crispin	Houston, TX	2015-07-22	Duke can find other routes at very little additional expense. Keeping infrastructure near developed areas would also allow for greater participation for private renewable energy providers!
Stephen Gorzynski	Parrish, FL	2015-07-22	I oppose Duke Energy's project to deface our Blue Ridge, Foothills and Upstate!
Melanie B Jennings	Lynn, NC	2015-07-22	I believe that this is a huge mistake for our area and will scar forever our natural foothills!
Cynthia Terwilliger	Tryon, NC	2015-07-22	This is an ill-conceived project that will degrade our environment, threaten our slopes and endanger our fragile Foothills ecosystem

Name	Location	Date	Comment
Cynthia Norden	Landrum, SC	2015-07-22	To preserve our green pastures, not Duke's greenhouse gasses.
Cheryl Vondrasek	Landrum, SC	2015-07-22	Mostly this is to benefit Western North Carolina with little to no benefit to S.C.The only thing we get is property lost businesses lost our land lost.
Jennifer Thompson	Lyman, SC	2015-07-22	Duke can figure out another less intrusive route...this would be devastating to some beautiful country!!
Sanina Carr	Zirconia, NC	2015-07-22	Duke doesn't have the right to destroy the natural beauty of WNC and must look into more acceptable options to increase power needs to consumers.
Karen Kniffin	Landrum, SC	2015-07-22	this project is very close to my property and it will bring down the property values . More importantly, it will deface the beauty of the area bs gave a negative effect on land and wildlife.
Ilameta Moore	Landrum, SC	2015-07-22	It will destroy the beauty of SC Hiway 11 Scenic By-Way
Patti Smith	Landrum, SC	2015-07-22	People travel from all over the world to see the beauty of the scenic highway 11. The ecology of this area is protected by a large nature preserve and a pristine watershed. Our subdivision has strict construction regulations that even regulate the size of trees that can be cut. This proposed Duke energy project will be destructive to the character and beauty of this historic area.
Nancy Hayes	Asheville, NC	2015-07-22	to save WNC beauty -- and hope Duke will consider some alternative energy sources
Dawn Guevaras	Danbury, CT	2015-07-22	There has got to be a better way then "raping" the land! "Eyesore City, USA"
judy warden	Landrum, SC	2015-07-22	This would be tragic for our beautiful community!
Mark Levin	Columbus, NC	2015-07-22	Any line of this size will drop property values and cause health and environmental issues.
Christopher Foreman	Blacksburg, SC	2015-07-22	I think they should take the extra time to figure out how to run the lines without hurting property values and the environment.
Dan LaVigne	Columbus, NC	2015-07-23	I cannot bear the thought of those awful towers cutting a swath right through the middle of our beautiful Polk County. Not to mention the economic damage it will do as homes nearby will be worthless
Casey Shehan	Columbus, NC	2015-07-23	I was born and raised here in this small town with GORGEOUS mountain views. These power lines will destroy the views for many people, not to mention run through many people's property lines. One of the potential pathways runs right behind my home. I have a 1 year old. No current evidence (studies from the early 2000's don't count) of the longterm effects of living near this has been provided to those it will effect.
Connie Queen	Saluda, NC	2015-07-23	Duke Power has just recently installed over sized power lines just off Howard Gap Rd.in Polk County.I don't think we should have to be exposed to even larger ones to supply Asheville.It will put such a ugly mark in our area.There has to be a better way.
Joy Sharp	Tryon, NC	2015-07-23	Never forget there is no corporation more powerful than the Power of the People
Donis Schweizer	Tryon, NC	2015-07-23	I love this beautiful landscape and don't want it ruined by Duke Energy!!!!
Amanda VanDuyne	Tryon, NC	2015-07-23	I do not want our land to be ruined with these lines.
Ed Richardson	Columbus, NC	2015-07-23	I don't believe it should go the routes shown.
Debra Chapman	Campobello, SC	2015-07-23	I oppose
William Ennis	Mill Spring, NC	2015-07-23	My property is affected.
Andrew Caldwell	Campobello, SC	2015-07-23	I don't want or need duke energy encroachment in our area .

Name	Location	Date	Comment
Jim Newlin	Floyd, VA	2015-07-23	Our natural landscape has suffered from too much major transmission lines taking right of way, viewsheds, and creating a need for spraying the topography to keep it clear.
Nicole Foxworth	Horse Shoe, NC	2015-07-23	These proposed lines will go right by my house.
Nancy Clark	Hendersonville, NC	2015-07-23	I want to see expansion of renewable energy, and NO MORE dependence on fracking-obtained electric production. The Blue Ridge is a beautiful area, and doesn't need it's beauty damaged by these lines.
Nicholas Beasley	Greenwood, SC	2015-07-23	If there is any way to avoid these lines, we should. The land is too beautiful and important.
Abrielle Chapman	Campobello, SC	2015-07-23	duke needs to use the existing lines that they already have to make it work.
Craig Harris	Destin, FL	2015-07-23	This proposal will drastically change the pristine natural look of the Hoopers Creek Valley and affect property values in an area that we as homeowners chose to live to get away from the feel of love living in a city high rise atmosphere with above ground power lines and "eye sores."
Reisha Caldwell	Campobello, SC	2015-07-23	This is directly impacting my health and well being and is a health NIGHTMARE for my children!
Christina Sterling	Snellville, GA	2015-07-23	I am not in support of this being placed just feet from the property lines of friends, whom's child suffers from cancer.
Phoebe Blackwell	E Flat Rock, NC	2015-07-23	Our house is within 500 feet of one of the proposed routes and we are HORRIFIED.
Charlene Pearl	Fletcher, NC	2015-07-23	One of the proposed routes comes within feet of out property line. This would be devastating to our way of life and our environment, and not just to us, but to thousands of others. Please help us stop this.
Christopher Czokra	Hendersonville, NC	2015-07-23	My parents live near the proposed lines, and am I opposed to watching them, and others in our neighborhoods, be disturbed by this kind of disregard for nature and other human beings.
Don Blackwell	East Flat Rock, NC	2015-07-23	I am totally against this proposal in any form, shape or condition!
Colleen Pearl	Oakland, CA	2015-07-23	I'm signing because the construction of this proposed transmission line through the forests and mountains of the area is an environmental outrage and a devastation for the many people whose families and lives have, for decades if not centuries, relied on the natural landscape.
Kristin Smith	Greer, SC	2015-07-23	It's unheard of for them to hurt our property values to line their pockets. We do not have duke so why do we need to see theory lines vs. our beautiful trees etc
Teresa Purdy	LaBelle, FL	2015-07-23	I have family that live feet away from the proposed area. This is something that should've never been. Don't screw up that beautiful land!!!!
danny layton	Fairview, NC	2015-07-23	Duke sucks
Cynthia Wassong	Greensboro, NC	2015-07-23	I'm signing this because I want duke to stop killing our environment- hills and waterways.
Jessica Greve	Tryon, NC	2015-07-23	I have lived in this community my entire life. There is no reason for you to tear up this land where there are other options for your power lines.
Baird Blake	Hendersonville, NC	2015-07-23	I'm signing because I oppose route 10B.
Cynthia Dooner	Montezuma, NC	2015-07-23	Own property off of Tugaloo in Landrum
Judith Wulff	Asheville, NC	2015-07-23	We must preserve what little beautiful peaceful places we have left.
Layne Long	Tryon, NC	2015-07-23	I want to keep my home beautiful.

Name	Location	Date	Comment
Rhett Gramling DeMark.	Spartanburg, SC	2015-07-23	i have friends and family this effects. This is where I grew up and it's not a safe and healthy thing, nor is it good for the property, views or values of the people of that area. It can be done another way.
Lindsey Horton	Lyman, SC	2015-07-23	This will endanger my friends daughter who has cancer. It would be in her backyard!
Natalie Mullen	Spartanburg, SC	2015-07-23	This area of our county is beautiful countryside!!! I do not want to see it destroyed by these ugly power lines and substation. Duke Power will have to come up with a better plan. I also worry about the health risks involved. Thank you.
James Grizzle	Landrum, SC	2015-07-23	Because I do not want to see our beautiful area butchered and I do not feel that this project is needed for our area. I purchased my home to retire in beautiful forest surrounding my home not to look and some ugly towers. Our eco system does not need this destruction.
James Becker	Mill Spring, NC	2015-07-23	i do not support the Duke WNC project
Michael Long	Roanoke, VA	2015-07-23	Devastating natural countryside is wrong
Almon Cox	Union Mills, NC	2015-07-23	Concerned citizen
Marisa Dora	Middleboro, MA	2015-07-23	The foothills & all who live there both human & animal need to be protected from these monsters!
Belinda Eckhardt	E. Flat Rock, NC	2015-07-23	Duke is planning to change the beauty of our Mountains. Duke has a established line they are using now. The new lines can fallow this line. Duke has already come on my property, without asking, and put up new lines. This is a no go from me. Stop Duke from doing as they want. From what i understand, Trump has a plant in Ches. he is changing from coal to Natural gas. Power can come from run on old path. STOP DUKE NOW!!!!!!!!!!!!!!
Pam McMahon	Tryon, NC	2015-07-23	We moved to this area 33 years ago because of its pristine nature. This is an abomination! WE DO NOT WANT this in our backyards!!
Frank Smith	Campobello, SC	2015-07-23	Don't ruin the most natural and beautiful part of the state.
Nancy Plankey	Fletcher, NC	2015-07-23	I believe this project with negatively impact this communities value.
Mona Brandon	Hawthorne, NY	2015-07-23	I am signing because I am a homeowner in the Reserve at LF and I'm overwhelmingly opposed to this project. We bought our dream home and we will be forced to move if this project proceeds as planned.
Brian Hannah	Fletcher, NC	2015-07-23	I would be directly affected by the transmission lines.
Laura Miklowitz	Hendersonville, NC	2015-07-23	This is not in any way best for residents.
Elena Klements	New York, NY	2015-07-23	I'm signing because I own property in Fletcher NC and I don't want huge power grids marring the landscape. There must be a better way to service customers than ruining the environment and scenic landscapes. I vote NOT TO ALLOW Duke Energy to deface our beautiful earth in this way.
Beth Taylor	Spartanburg, SC	2015-07-23	Help people, don't harm!
Kay Millar	Fletcher, NC	2015-07-23	KEEP OUR NEIGHBORHOOD BEAUTIFUL
Robert Maxwell	Coumbus, NC	2015-07-23	There is no reason Duke cannot finance the installation of underground cables.
Rachael Cole	Brooklyn, NY	2015-07-23	I grew up in North Carolina, and this would be a tragedy.
Danilo Balsamo	Fletcher, NC	2015-07-23	I'm signing in because I am very disturbed about what Duke Energy planning to do to our Hoopers Creek mountain and valley, this going to change our life in a negative way.

Name	Location	Date	Comment
Graciela Backhus	Fletcher, NC	2015-07-23	This project will destroy a beautiful area by defacing the landscape, lowering the value of all property involved and probably affecting both tourism and wildlife also. There is no regard for the people that live here or the beautiful mountains and vegetation.
Rudy Austin	Fletcher, NC	2015-07-23	I moved here for the pristine mountain views and do not want them destroyed.
Joseph gonzalez	Toms River, NJ	2015-07-23	stop destroying everything...
Allie Hill	Atlanta, GA	2015-07-23	I am a resident of Livingston Farms for 11 years now. I do not want to see my property values go down and our beautiful mountains used for this.
Stacey Brandon	Arden, NC	2015-07-23	I Do Not Want Power Lines Next To Our Development!
Patsy Simril	Hawkinsville, GA	2015-07-23	My friend Reisha has children with health issues and compromised immunity issues. This project will jeopardize their health.
Brandon Reagan	Fletcher, NC	2015-07-23	It would permanently deface the landscape, my view of the mountains and devalue my property!!!!
Brad Hannah	Fletcher, NC	2015-07-23	I don't want it!!!!
Adam Loudermilk	Fletcher, NC	2015-07-23	My property value as well as my neighbors is largely based on the surrounding views and a power line latus would ruin that.
ANTHONY HENSLEY	Fletcher, NC	2015-07-23	TO " DUKE POWER" WHAT PART OF NO,DON'T YOU UNDERSTAND? STOP THIS TRANSMISSION NOW!!!! THERE MUST BE ANOTHER WAY! THE WAY IN NOT TO COME THRU THE LIVINGSTON FARMS AREA.
Leigh Nodine	Landrum, SC	2015-07-23	In support of friends in need.
Rebecca Oliver	Columbus, NC	2015-07-23	Duke Power has already shown that they don't take the responsibility of this country's best interest to heart. They showed no remorse in dumping thousands of toxic chemicals in our water and then wanted their customers to pay for the clean up. I find it their actions despicable!
Jeff Edwards	Fletcher, NC	2015-07-23	The destruction of the beautiful mountains of WNC and this line is going thru my development.
francis cullinan	fletcher, NC	2015-07-23	Hasn't Duke Energy devastated enough of WNC natural beauty?
Barry Burwell	Fletcher, NC	2015-07-23	Don't want this in my neighborhood.
Laurie Zapf	West Chester, PA	2015-07-23	I have a home in Livingston Farms and I am against this "Modernization" project because it will drastically impact my home value.
Thomas Anthony	Asheville, NC	2015-07-23	one of the planned routes cuts right through my neighborhood of Livingston Farms
Beverly Patterson	Madison, AL	2015-07-23	I do not wish to see the area in which I live, which I recently moved to for its beauty and ruggedness, overtaken by unsightly and environmentally damaging power lines! Find another route to build and do NOT deface this area!
Laurie Anthony	Asheville, NC	2015-07-23	One of the proposed routes cuts directly through my neighborhood of Livingston farms. We are all extremely concerned about the impact of this project.
Christie Thien	Edmond, OK	2015-07-23	This affects dear friends who have a child that has cancer and it's in their backyard. Leave them alone!
Toni Tyler	Fletcher, NC	2015-07-23	I don't want my property value to go down and I don't want my beautiful views marred. That is the reason I moved to NC.

Name	Location	Date	Comment
Bill Trometer	Fletcher, NC	2015-07-23	I'm concerned about negative effects on property values and quality of life in the area of my business property and in the Livingston Farms area. The proposed route passes directly over my daughter's home in Livingston Farms.
conor quinn	Asheville, NC	2015-07-23	Duke has gone way too far!! Shut this down!!
Christy Souther	Fletcher, NC	2015-07-23	This is an ugly sight for any community and I especially don't want to see it ruin ours. The impact it will have several of my family members by affecting their farm and shutting them down is just unreasonable!! We can't survive without our farmers and I know of 3 it will adversely affect. Find a different route!!!
Judith Sloan	HENDERSONVILLE, NC	2015-07-23	I'm worried about the landscape of pristine areas changing forever due to the towers and the herbicides used under the towers and also the property values of people whose land would be "taken" for this project.
John Bowles	Cleveland, VA	2015-07-23	This will run through my neighborhood, destroy the pristine ecosystem, and wreck my property value.
Sheila Veatch	Tryon, NC	2015-07-23	There are newer technologies that need to be employed for any future energy delivery systems. This was named one of the BEST rural areas in the country by Progressive Farmer magazine a few years back. We want to preserve our rural heritage, the beauty of our landscape, the protection of the people and our many animals from the high voltage damage potential.
Megan Wilson	Arden, NC	2015-07-23	Duke wants to put one of their towers on our family's land. Right in the spot we planned to build our first home. It's been in our family for ninety five years.
Donald Lisnerski	Fletcher, NC	2015-07-23	It would lower the value of our property in addition to spoiling views
Malea Bastian	Fletcher, NC	2015-07-23	I'm signing because I have prpoerty that could be negatively affected by this expansion.
Marlette Wilson	Fletcher, NC	2015-07-23	I DO NOT want our family's land to be ruined for future generations!
jeff De gruttola	Fletcher, NC	2015-07-23	Lines will be too close to many houses. It will look bad and lower the value of our houses in our neighborhood
Jeffrey Mazursky	Columbia, MD	2015-07-23	Do not ruin the environment with these projects
Laura Rogers	Saint Charles, MO	2015-07-23	I care a great deal about my land value
Virginia Newton	Burnt Hills, NY	2015-07-23	NO power lines running next to our grandchildren!!
Jessica Garrett	Greenville, SC	2015-07-23	This is going through my back yard. I bought my house in fletcher because of the quiet, beautiful country side. If I wanted to raise my daughter buried in power lines, I would have moved to the city. Do not destroy what makes western North Carolina special.
Jim Charocopos	Fletcher, NC	2015-07-23	I oppose plan.
Robin Ball	Fletcher, NC	2015-07-23	I am a resident in a potentially effected area.
Tonya Smith	Landrum, SC	2015-07-23	I do not want Duke to put power lines at the edge of my property. I have health and environmental concerns. They will also lower property value and take away pristine mountain views.
Shane Nickle	Fletcher, NC	2015-07-23	It directly affects me, and I want no part of the destruction or ugliness it will create in the environment around the people that live here
Melia Shell	Hendersonville, NC	2015-07-23	Isn't it obvious that your lines are not wanted?
Robert Horton	Buffalo, SC	2015-07-23	We have property on Hwy 11 but also don't want this project to take any of the proposed routes. Please advise if I can be of help in any way.
Tracie Helton	Arden, NC	2015-07-23	I am signing this petition because I don't want this beautiful are destroyed by clearcutting and power lines. I have friends and family living in this area. Please don't destroy this beautiful land.

Name	Location	Date	Comment
Jessica Lazer	Fletcher, NC	2015-07-23	The Foothills project will not only affect my personal property and those around me. It will affect our quality of life.
Sally Williams	Zirconia, NC	2015-07-23	One of DP's proposed lines runs right across my five acres just above Lake Summit. This land borders the watershed and I've owned it for nearly 40 years. I will fight to the death for not only my land but my neighbors as well. Duke Power is one of the most environmentally irresponsible companies in the country right now and No one should trust them.
Johnathan Freeman	Hendersonville, NC	2015-07-23	I'm signing this petition because the proposed lines will go through my yard at 1005 Walnut Cove Rd. This area is a scenic area with one of Henderson County's highest mountains (Pinnacle Mtn) and is very near Dupont State Forest. Not only will it be an eyesore but will negatively impact the pristine habitat of rare animals including Blue Ghost Fireflies and Synchronous Fireflies (mostly located in the Great Smokey Mtn National Park. Home values in my area are very high and this will cause a severe drop in values for myself and neighbors. Duke has no regard for the environment and this is proof of that. Please DO NOT allow this to be built and move the proposed lines of 10A, 10B and 20. The junction of these 3 lines is right at my house and would be detrimental to the area.
Dora Nelson	Asheville, NC	2015-07-23	Duke has not considered alternative methods. They are doing what is cheap and easy, without regard to the people, landscape, and environment. Duke is a corporate bully. The powers that be in both NC and SC are Duke puppets. This has to stop.
Bob McAnally	Fletcher, NC	2015-07-23	This route will be unsightly to our neighborhood and others further up the route.
Devin Thomas	Fletcher, NC	2015-07-23	I'm signing because I don't want these transmission lines to deface the mountain just to the north of my neighborhood and next to the rock quarry. It's a beautiful area right now and would be destroyed if this were to happen.
James Boudreau	Fletcher, NC	2015-07-23	My wife and I are retired on fixed income and cannot afford my property being devalued
Guy Koppi	Fletcher, NC	2015-07-23	I oppose this land grab and defacement project.
Thomas Hottel	Canton, NC	2015-07-23	I'm building a house on the property and Duke wants to put a tower right where my house is going.
Kelly Wright	Inman, SC	2015-07-23	I am signing because I want to support our families that will be effected by this .
Maria Freeman	Hendersonville, NC	2015-07-23	I am a home/property owner that will have lines go through our yard. We have an undisturbed woodland ecosystem, with a lot of native species of plants and insects, such as the blue ghost and synchronous fireflies. I do not believe the power lines and transmitters are healthy for our family to be around. Lastly, in this day and age, why are we not putting in underground lines? Why would anyone want to see these power lines in our beautiful area of the world?
Barry Jackson	Inman, SC	2015-07-23	I have friends whose property and quality of life will be very negatively effected if this project is accomplished.
Donald Surface II	Campobello, SC	2015-07-23	I live less than a mile away from the proposed sub station and I don't want it there!
Cynthia Blanchard	Columbus, NC	2015-07-23	This will ruin not only Polk County, but my property!
Sherrie Huffman	Flat Rock, NC	2015-07-23	This proposed project goes straight through my property, and I am highly concerned about its effects on the health and safety of my family and community!

Name	Location	Date	Comment
Laura Peek	Columbus, NC	2015-07-23	I'm signing because I don't want our beautiful foothills and mountains marred by these terrible power lines. Find another way, Duke!
Amy Owens	Ocracoke, NC	2015-07-23	This is no more than a last ditch panic effort to appear more relevant than the reality that solar energy is the future.
Andrea Larsen	Hendersonville, NC	2015-07-23	The idea that Duke Power can just decide where to tear up undisturbed land is absurd!!
Jane Ella Matthews	Greenville, SC	2015-07-23	Duke Power's proposed "Modernization" project is not in the public interest. Why not pursue renewable sources of energy for long-term benefits: preservation of beauty, quality of life, and natural resources for everyone?
Tisa Futch	Fletcher, NC	2015-07-23	I do not want the value of homes to decrease.
Jo Hickson	Fletcher, NC	2015-07-23	This will pass within 300 ft of my house on wetlands. This area has many birds, coyotes, etc that their homeland will be further disturbed. There is open field behind this area - farmland- but would be a much wiser decision it seems to move another 900 ft further rather than affect home prices of a development of over 500 houses (RiverStone Development off Butler Bridge in Fletcher. We were not even informed even though this is passing so close to our homes - other than newspapers!
Angie McCammon	Hendersonville, NC	2015-07-23	I'm signing because the projected lines go through my property. I have children and chose my home for the beautiful natural surroundings. I do not want Duke to destroy that. My husband and I are Duke share holders. We are considering selling our shares and having solar panels installed. I don't want to benefit from a company that has such little regard for people and environment.
Gina Cleminson	Fletcher, NC	2015-07-23	I don't want unsightly power lines destroying my view and property value, and I'm concerned about the health impact of high voltage lines so near our home.
Alex West	Campobello, SC	2015-07-23	Directly affects where I live.
Patrick Hart	Hendersonville, NC	2015-07-23	I live in that land and im tired of companys taking something it is not theres and they will with goverment push. Everyone moved to the moutains for the view now thats going away cause of massive structures for what so duke can make money not one damn thing to do with helping the community but thats their game. Cloak and dagger
Payge Caldwell	Wilmington, NC	2015-07-23	I stand for nature preservation. Please do not let NC go down the drain with other places that have been taken over by major corporations! Respect our state
Christine Cowles	Mill Spring, NC	2015-07-23	Concerned about property value, enviroment and tourism
Linda Emmons	Saluda, NC	2015-07-23	This will effect my property and those near me. Why not take this project up US 26 to Ashville
Meghan Mauldin	Columbus, NC	2015-07-23	I do not want to see the land destroyed.
Naomi White	Saluda, NC	2015-07-23	I live in Saluda and this affects myself and my neighbors directly.
Karen Brooks	Simpsonville, SC	2015-07-23	Because this is ridiculous...Duke would rather disrupt nature and the ecosystems we have in this part of the country, than help the area...probably result in higher rates...and we DONT need that! Boo, duke!!
Ann Marie Rowe	Columbus, NC	2015-07-23	I live on White Oak Mountain and they are going to deface this beautiful mountain! Stop this!! Now!!
Cheri Brandt	Fletcher, NC	2015-07-23	I feel there are other areas more appropriate to place the proposed transmission line. For example: Use Highway 26---does not affect good property--Vehicles will not be affected.

Name	Location	Date	Comment
karol Farlow	Fletcher, NC	2015-07-23	I know that people do not want the lines to go across preserved land, but what about the preservation of heath for young children and mothers-to-be in many of the homes around the Fletcher area. I know that my daughter-in-law was told not to buy a house near large electrical lines because of risk of miscarriage. Please, if this has to be done, do it over undeveloped land. I know that there is a line across the Lake Keowee area in SC. That makes a lot more sense than to place the lines in populated areas.
Deborah Lynch	Columbus, NC	2015-07-23	I'm concerned for the beauty of the area and the Equine and Wine making industries (vineyards) will be adversely affected and thus affecting the economy in the whole region!
Frank COCCIOLILLO	Flat Rock, NC	2015-07-23	This will affect my home value which is my major asset.
Allie Caldwell	Campobello, SC	2015-07-23	The proposed line will go through the land that I will inherit one day. It will totally destroy my hopes of having my dream home built on the land that my grandfather worked tirelessly on to provide for his family.
Laurie Elliott	Fletcher, NC	2015-07-23	I am concerned about the ecological and economic impact to our area that is so reliant on tourism.
Justin Byerly	Asheville, NC	2015-07-23	Doesn't need to happen
Kerrie Phillips	East Flat Rock, NC	2015-07-23	I'm signing because the proposed 9C section runs right behind my house. I am in the red 500 foot zone.
Rita Eison	Chesnee, SC	2015-07-23	To protect health and welfare of dear friends. This would be detrimental to them.
Marion Davis, Jr.	Fletcher, NC	2015-07-23	I'm signing because the project route passes through residential areas posing a health and safety risk to more densely populated areas.
Becky Cleland	Tryon, NC	2015-07-23	I deeply care about my home and the beautiful area in the foothills of NC. PLEASE, let's keep them beautiful and forgo the awful giant lines which would make a scar across its beauty!
Emily Anderson	Asheville, NC	2015-07-23	I'm signing because this is going to devastate 45 miles..300 acres, I hear.. of wildlife and also anyone living in the vicinity of these transformers. My friend/family has a house 50 ft away from your "safe zone" and it will literally ruin their life. They won't be able to live there anymore or sale their house and duke won't buy them out because they think they are going to be "safe"?! Maybe the CEO of duke should buy their house and live there. It's not fair to ruin people's lives and kill all the wildlife that lives there for this. Thank you for the opportunity to voice. This is serious. Ruining people's lives and killing animals. Good job, Duke.
Erin Carr	Asheville, NC	2015-07-23	I don't want Duke to tear down a bunch of trees in some of my favorite places to walk around the mountains. Not to mention the people who have put the blood sweat and tears into their properties only to have the value destroyed by trees being cut down and 150 foot electric towers in their yards.
Jerome Mazursky	Lake Worth, FL	2015-07-23	It is unhealthy for the people who live nearby and will destroy the natural beauty of the area.
Jennifer Moore	Fletcher, NC	2015-07-23	Duke Energy's staggering disregard of environmental impacts by its selfish and greedy actions continues. The impact of this proposal on such beautiful land, which so many people, including myself, have chosen to make their home because of its serenity and natural beauty, cannot be overstated. I implore Duke to stop their reckless disregard of the people that live here and the environment. You've done enough already to destroy these wonderful resources, and it's time to stop.

Name	Location	Date	Comment
Kim Palmer	Fletcher, NC	2015-07-23	I'm signing because this ultimately will affect property values and I'm not happy about this.
Peggy Hilton	Columbus, NC	2015-07-23	I do not want to see the mountains and surrounding nature defaced with electrical towers!
Molly Hill	Flat Rock, NC	2015-07-23	It goes through and near my property, home, land, and family! The health hazard is dangerous and Not wanted! The environmental dangers are unwanted! Nothing about this is ok!
Susan Thomas	campobello, SC	2015-07-23	I do not want my town ruined for Duke Energy's profit...
Claire O'Sullivan	columbus, NC	2015-07-23	I love the environment, sacredness and beauty of the area. It needs to be protected, not destroyed.
geerdina hulst	Greensboro, NC	2015-07-23	it destroys the mountains
Lisa Myers	Fletcher, NC	2015-07-23	One proposed route is within 500 feet of my home, and I am very concerned about the aesthetic and possible health implications of such. I am also most concerned about the beautiful, untouched valleys and mountainsides in this area being destroyed.
Allison Dick	Terre Haute, IN	2015-07-23	I graduated from UNCA in December of 2003. I was born in Chapel Hill. I love North Carolina's environment and am worried about the repercussions that this would indubitably cause.
julie williams	stuart, FL	2015-07-23	This will be a travesty with no gain except lining politician and corporate pockets.. Invest in solar and wind energy!! Oh, I forgot that you don't care about people or the damage you do to the earth!! Duke Power has sidestepped every environmental law that exists and takes no responsibility for the damage they incur!!!!
Joshua Myers	Fletcher, NC	2015-07-23	This project should not go forward as planned.
Alan Blanchard	Columbus, NC	2015-07-23	The Power Line proposed goes right through my property and right of way. It will affect the Deer, Raccoons, Red Foxes, Bears, Cougars, Red Head Woodpeckers, Humming Birds, White Squirrel's, Grey Squirrel's and the beautiful views of the Blue Ridge Mountains that we enjoy on a daily basis. The tall oaks on my property will almost all will be removed by Duke's Plan. The path will be extremely close to my well, if spraying will be done. Instead of looking out at my trees and mountains, i'll be looking at towers 150 to 195 foot tall, including numerous wires.
Monique Eaker	Hendersonville, NC	2015-07-23	I'm against the destruction of the land, the removal of animals and the senseless cost that will be transferred to the public.
Beverley La Point	Fletcher, NC	2015-07-23	It is the wrong thing to do to this community and to our mountains. Do not pursue this project. Find another way. I am SURE one can be found.
Donna Everett	Tryon, NC	2015-07-23	I'm signing because western NC's beauty must be preserved. There are other (already marred) areas for Duke to use. Just because an area is most efficacious for YOU, Duke Energy, does not mean it is the best for all.
Virginia Hill	Hendersonville, NC	2015-07-23	The neighborhoods will be ruined. there is other alternative please look for others.
Victor Hutchinson	Fletcher, NC	2015-07-23	I don't want the land I grew up around destroyed by these horrible looking towers and lines that will devalue property all around me.
Joan RICKERT	Fletcher, NC	2015-07-23	My house is in the proposed corridor
kimberly kelly	Greenville, SC	2015-07-23	The public's property is as important as yours. Invest in alternative measures... We don't want to settle anymore.
Andy moore	Boiling Springs, SC	2015-07-23	We don't need that shit!!!!

Name	Location	Date	Comment
Heather Brittain	Fletcher, NC	2015-07-23	I oppose Route 17B
Briana Johnson	Horse Shoe, NC	2015-07-24	It will devastate and destroy our future and the future of our plans for our property, destroy our business and wipe away our only way to keep this land "farm land."
Henry Johnson	Horse Shoe, NC	2015-07-24	This will ruin our property and prevent our children from being able to build here as always planned.
Patty Brown	Horse Shoe, NC	2015-07-24	If we don't speak up, we won't be heard.
Lisa Duncan	Fletcher, NC	2015-07-24	I'm signing because my house sits right beside the proposed route and will decrease my property value as well as make me worry about health risks for me and my kids.
Dorothy Brown	Horse Shoe, NC	2015-07-24	It will completely cut our Farm up and nothing can be built on it .
Lori Kintz	Asheville, NC	2015-07-24	I do NOT want these power lines running THROUGH our neighborhood.
Mary Freedman	Spartanburg, SC	2015-07-24	Property owners rights are null and void by megalomaniac energy companies, what?
Gina Bokmiller	Fletcher, NC	2015-07-24	I live in Livingston Farms, Fletcher, NC (Henderson County) and do not want my neighborhood and property values destroyed. This is an absolute horror of a project to our beautiful mountain community. Duke Power--what are you thinking? Please STOP this.
Billie Schell	Horse Shoe, NC	2015-07-24	It is potentially going through my families and my neighbors properties and will affect everything around us, especially our property values !
Amirah Dann	Campobello, SC	2015-07-24	Property value to tank and I love how beautiful my home town is. If these lines go in, it will be forever changed into an eyesore.
Vera Westall	Hendersonville, NC	2015-07-24	destruction to environment, aesthetics, etc.
Ronda Wilkerson	Lyman, SC	2015-07-24	I'm opposed to the expansion of duke energy at the expense of our environment.
Charles Messer	Fletcher, NC	2015-07-24	Livingston farms has too many kids for this
Jeffrey Sharon	Fletcher, NC	2015-07-24	We do not want to contend with ground water contamination, decrease in property values, and the destruction of the natural beauty of our mountains
Nichols Malpass	Hendersonville, NC	2015-07-24	You are in this position to better people's lives and the world on the whole. Please do what you will be proud to tell your grandchildren about. We are paying attention :) Nichols
Alex Tapp	Columbus, NC	2015-07-24	I have lived in those mountains all my life and for a corporation to destroy such a beautiful landscape of nature just for further advancement of income is rather outrageous. There are multiple alternatives Duke Energy can take that has no means of cutting through a very pristine and invigorating part of the mountains. Even being 2,000 miles away, those mountains are as close to me as ever. Let the beauty of North Carolina flourish and do not let the love of greed cloud your moral judgement.
Jo Rytter	Tryon, NC	2015-07-24	The routes go thru rural farmlands, mountains, game lands, and folks homes, the environmental impacts can be great on human, wildlife, all species. Take it up 26'
Dana Marsh	Fletcher, NC	2015-07-24	Transmission towers are being proposed to be constructed through my neighborhood. A family oriented community with many smal children.
Margaret Hamrick	Landrum, SC	2015-07-24	I own a home on Cherokee Foothills Scenic Hwy 11 and I want to keep it SCENIC!

Name	Location	Date	Comment
Angela Roberts	Fletcher, NC	2015-07-24	If the proposed route running through our neighborhood is approved, a huge tower will be erected within 100 feet of our property line, closer than any other home on any other route. These high velocity lines would run behind and beside our home like a right angle. We are extremely concerned about the impact this would have on the health of our children and the reduction in our property's value.
Robin Root	Cullowhee, NC	2015-07-24	I live in RiverStone and DONT want a transmission line running in my back yard!!!
Stephanie Uhrich	Arden, NC	2015-07-24	It would destroy our wonderful community
Nicole Bradley	Saluda, NC	2015-07-24	I strongly oppose the Duke Energy modernization project. Please do not move forward with this awful idea and ruin our beautiful piece of land.
Joe Tounzen	Asheville, NC	2015-07-24	This would be in my daughters family's back yard. Lines on both sides of property. My little 6 year old granddaughter has battled cancer over 4 years now she doesn't need any other threats.
Diane McEntee	Columbus, NC	2015-07-24	I'm passionate about the health of those around me as well as protecting the beauty of our area.
Robyn Tounzen	Asheville, NC	2015-07-24	My grandchildren, including one on cancer treatment will be living between the two stations. Not to mention ruining the land value and quality of life in that area. Also sounds like a little crony capitalism going on with the land deal!
danielle pomerleau	Saluda, NC	2015-07-24	I believe there are alternate solutions to ruining our foothills scenery.
Scott Sisk	Campobello, SC	2015-07-24	I want to preserve the beauty and views and economy of my neighborhood and surrounding areas.
Elena Kaut	Poolville, TX	2015-07-24	How can you think of ruining this beautiful countryside with these monstrosities?! i consider Polk County my home and these proposed lines are going directly thru our old property! This will destroy the beauty of the area and the reason so many visit.
Nathan Jones	Hendersonville, NC	2015-07-24	They shouldn't be able to run over us and do what they want
Ted Horne	Whitefish, MT	2015-07-24	Power lines should be buried. They are a blight on the urban and rural landscape.
Jada Johnson	Horse Shoe, NC	2015-07-24	It would completely ruin my existing home with my parents- and the property that my fiancé and I would get- we wouldn't even be able to build anything on it. Why change or fix something that isn't broken?
jessica Chitwood	Hendersonville, NC	2015-07-24	I don't want our beautiful mountains destroyed anymore than they already have.
Kathleen betzel	Landrum, SC	2015-07-24	I oppose the Duke Energy Western Carolina Modernization Project which will negatively impact Tryon, Landrum, Campbell and Gowensville

Name	Location	Date	Comment
Veronica Brown	CARRBORO, NC	2015-07-24	<p>I am born and raised in the rural area of Henderson County now in danger of being ruined by these transmission lines. I am signing, not simply out of a desire to keep my family's land free from unnecessary and damaging infrastructure, but to keep rural Western North Carolina free from more greed, environmental destruction, and defacement at the hands of a company that has already shown its carelessness regarding my home. If Duke Energy wants to add infrastructure, let them add wind turbines, solar panels-something that will truly benefit our region rather than ruin countless people's property and livelihoods.</p> <p>My family relies on our ability to use our farmland and hayfields to bring in extra income. We rely on our ability to rent out our property for events. With the proposed transmission lines in place, we would lose that income, and would be unable to finance the taxes for our land. We would lose the property that has been in our family for generations. The same is true for many other families in this area: we are talking about land that is being used, loved, and appreciated by hard-working people who don't deserve to have their property pulled out from under them.</p> <p>Please reconsider this project. Please do not deface one of the last remaining unspoiled areas of WNC with these transmission lines. Our community will suffer greatly, both on an individual and a general level. WNC is in a booming tourism period; that could all go away with the introduction of these towers. Please think about the long-term consequences of this project.</p> <p>Thank you for your time and thought. -Veronica</p>
Adam Coates	Pawleys Island, SC	2015-07-24	This is an invasion of homeowners' property. I know the homeowners the substation will effect. They have a child that could be affected negatively by this. Do not place it there or anywhere.
lyndsay Mahaffey	Campobello, SC	2015-07-24	I don't want a huge transformer tower in the middle of my land. It decreases my property's value, causes cancer, and destroys the lands beauty. I should have a say so seeing as it's my land!
Ruth Hashway	Hendersonville, NC	2015-07-24	We are better off without it. Keep what is left of nature. Leave the little guy alone, no one wants electric wires running through their front yard.
bart Boeckler	Marion, NC	2015-07-24	Dont want powerlines near my house!
Paul and Sara (Lakeside Partners) Jones	Fletcher, NC	2015-07-24	We are opposed
Susan Keefer	Spartanburg, SC	2015-07-24	These are too close to families who will be negatively impacted. Some children have serious health issues.
Susan Davis	Columbus, NC	2015-07-24	Don't destroy the beauty of my neighborhood or the surrounding area. Take it up on interstate 26 please
Jean L Oates	Montmorenci, SC	2015-07-24	Duke needs to learn to bury their lines like everyone else.
Nadine Naujoks	Columbus, NC	2015-07-24	<p>The proposed "modernization" :</p> <p>Will result in millions of dollars of lost property value and hundreds of thousands in lost tax revenues.</p> <p>Would introduce intolerable and ongoing toxic herbicide treatments into the environment.</p> <p>Would have negative long term impacts on the environment including watersheds and wetlands.</p> <p>Is not modern, it relies on vulnerable 1850s technology.</p> <p>Would deface our rural beauty which is our #1 economic attraction.</p>

Name	Location	Date	Comment
Jennifer Belue	Campobello, SC	2015-07-24	The implementation of the proposed transmission line would absolutely ruin the area in which I am blessed enough to live.
Cody Crawford	horse shoe, NC	2015-07-24	My home is on a proposed route and this transmission line project would destroy my property value!
David Bokmiller	Fletcher, NC	2015-07-24	I am against the proposed routing through my neighborhood. It will degrade property values without compensation from Duke Energy.
Vivian Scott	Fletcher, NC	2015-07-24	Vivian A. Scott
Rachel Malmgren	Concord, NC	2015-07-24	One of the proposed routes goes directly through my sister and brother in law's house in Mills River, NC, which was built less than a year ago. It would also cut through my parents' back yard. My sister and her husband did not even get notice of the proposed plan from Duke Energy and their house was not represented on any of the satellite imagery. This would ruin their dream home and the beautiful woods in which they enjoy a peaceful life with their little one year old daughter. They are worried about raising their child in such close proximity to these lines.
Cass Eager	Sullivan's Island, SC	2015-07-24	The tall transmission towers are unsightly and erected through a rural area ruin the natural beauty and property values. There is also suspicion that they can be hazardous to the health of livestock and humans.our area is beautiful with pristine rolling hills . This will ruin the area for both residents and visitors looking for natural surroundings in which to live,work and play.
Suzanne Kirtley	Hendersonville, NC	2015-07-24	Preserve environment
Richard Beytagh	Fletcher, NC	2015-07-24	My Property is very close to the proposed route and it will substantially reduce my resale price.
Cari Kennedy	Fletcher, NC	2015-07-24	The proposal cuts very near my neighborhood
Ruth Solomon	Charlotte, NC	2015-07-24	This atra is near and dear to me. What Duke is proposing amounts to a sacrilege!
Ian Phillips	Horse Shoe, NC	2015-07-24	Our state is too beautiful to let such a selfish company destroy it for profits that don't benefit the local economies
Sarah Crawford	Mills River, NC	2015-07-24	it is wrong!
Michael Wiggins	Glendale, SC	2015-07-24	I'm far from an environmental activist, but these routes are all highly obtrusive and destructive to the natural beauty of the region. There are plenty of existing transmission lines that can be upgraded and expanded. These lines are also going to destroy people's property values, even if the line is hundreds of feet from their home. It amounts to an unjustified taking of their property without compensation. This needs to be stopped.
Jason McCammon	Saluda, NC	2015-07-24	I live in the proposed path of one of these monstrosities and I don't want to see our beautiful forests and mountains ruined just to line Duke's pockets with more money.
Danielle Whiite	Anywhereville, NE	2015-07-24	We need to protect our future generations, the environment as well as our property values.
Wilton Connor	Mooreville, NC	2015-07-24	I don't want the beautiful horse country destroyed
Lynn Thompson	Greenville, SC	2015-07-24	It is important to preserve the serenity and beauty of the foothills of North and South Carolina for those who live in and appreciate the area for its natural views.
Christie Gonzales	Austin, TX	2015-07-24	I love the mountains. I'm from there and don't want the destruction. We should be switching to renewable energy!!
John Abbott	Mills River, NC	2015-07-24	Will result in decreased property values and disruption/desecration of flora and fauna

Name	Location	Date	Comment
Jessica Greene	Asheville, NC	2015-07-24	You can allow a company with a proven disregard for the people and the earth around it to expand.
Dorothy Davis	Mills River, NC	2015-07-24	I am signing this petition because I am sick and tired of special interests taking advantage of the average American without regard to the environment, private property, animals, etc. all in the name of the "almighty dollar". If the folks at Duke Power are so damn smart let them find an alternative to this obviously destructive project.
susan chitwood barton	Asheville, NC	2015-07-24	'NO' to further desecration of the pristine beauty of our mountains and foothills
Shadryn Long	Fletcher, NC	2015-07-24	We don't want these lines in the back of our neighborhood, destroying our walking/biking trails and greenspace!!!
Shawn Corhn	Hendersonville, NC	2015-07-24	This project is a health hazard and it will destroy property and homes.
David Kushubar	Campobello, SC	2015-07-24	This will affect my property values and my quality of life.
Vincent Verrecchio	Landrum, SC	2015-07-24	With a paid mortgage and retired, the property value reduction that comes with the power line comes right out of my retirement savings. Aesthetically, these towers would be the Martian machines from War of the Worlds devastating the rural landscape.
Katie Winkler	Fletcher, NC	2015-07-24	I live in one of the proposed areas and I care deeply about the natural historical importance of the mountains that would be permanently scarred by these power lines
Andrea Burleson	Hendersonville, NC	2015-07-24	I am a native of Henderson County. I have lived in the Tuxedo, Dana and the Fruitland areas. It is a shame to me that Duke Power in the interest of revenue would destroy our beautiful landscape. We live in ine of the most beautiful parts of the country. Why destroy the one thing that attracts tourism?
John Rhodes	Hendersonville, NC	2015-07-24	I don't want my parents to be homeless and this land to be ruined.
Rosemary Pace	Hendersonville, NC	2015-07-24	Hideous, health hazard, do not ruin our beautiful countryside. Do not destroy farms, crops, livelihood
Peter Malmgren	Concord, NC	2015-07-24	I know someone who is affected by this project. Also Duke Energy doesn't care about the environment, or North Carolinians in general.
Don Whisman	Columbus, NC	2015-07-24	I know that there are other options that Duke is purposely not pursuing. Additionally, they are not maintaining a sensible route but instead straying through the Persimmon Hill neighborhood.
Candace Young	Arden, NC	2015-07-24	The environment should be our number #1 priority... I would like to see our beautiful land protected. We need to use clean energy sources! What more evidence do we need to see that by destroying our land it is going to destroy us!
Sherry Gabbard	Hendersonville, NC	2015-07-24	Duke Energy is not reputable and cannot be trusted to keep the best interest of their customer as a priority
Teresa Herbert	Arden, NC	2015-07-24	Our countryside is our treasure and belongs to the community. Duke wants to squander it for short term profit. If lines are needed they should be buried. Maybe the board of directors would let us run lines through their community?
Chamblee Johnson	Hendersonville, NC	2015-07-24	Protect the mountains!
Marcy Jackson	Hendersonville, NC	2015-07-24	I'm tired of greedy corporations raping our beautiful planet!
c. lemuel Oates	Hendersonville, NC	2015-07-24	Defacing and destroying the value of N. C. countryside should not be an option. Build gas powered plants where you need the energy.
James Russell	Saluda, NC	2015-07-24	Do not won't them to take my land

Name	Location	Date	Comment
Nancy Cote	Spartanburg, SC	2015-07-24	I agree that the aesthetic damage is not worth the gain for Asheville. I agree with those who suggest following the route of I-26 rather than cutting another unsightly swath that will never be mended due to exfoliation after the fact.
Olivia Cullen	Campobello, SC	2015-07-24	I oppose the route of this expansion.
maghan kirkby	Hendersonville, NC	2015-07-24	I dont want these things near my neighborhood!!!!
lydia kellett	Landrum, SC	2015-07-24	I have been involved in this community for 40 years. I came and bought property in two locations because of the beauty and the concern that residents for preserving this beauty. Try something else! This won't work for us!!!
Susan Campbell	Horse Shoe, NC	2015-07-24	I am signing this petition because one of the proposed routes entails building a 230,000 volt transmission line only 265 feet from the back of our home. I'm am so tired of Corporate America stealing everything my husband and I have worked so hard to get. People complain about government intrusion. What about corporate intrusion? Duke Energy can address their capacity needs without stealing people's property if they would only cough up the funds to do so!! Shame on you, Duke Energy!!
Mary Irwin	Spartanburg, SC	2015-07-24	There are less obnoxious alternatives; and this is all because of this "climate change" snake oil they keep trying to shove on us.
Candice Owen	Asheville, NC	2015-07-24	I'm signing this petition to protect the community, environment, and realstate marker on WNC.
peggy stepp	Hendersonville, NC	2015-07-24	I don't want them outside my back door
Carolyn Brown	Mills River, NC	2015-07-24	My home that I have worked so hard to keep is in jeopardy
Barbara Ropp	Spartanburg, SC	2015-07-24	I disagree!
Debra Ramsey	Zirconia, NC	2015-07-24	This proposal will devastate the community in which I live and the communities around me. I'm not sure I even recolonize any benefit to those whose lives would be affected by construction and the forever alteration of these areas. To what degree does Duke Energy plan to compensate for the loss of property value, the loss of forests and homes that have not yet been stripped. if it means more of the same service , no thank you!
Kendall Edwards	Hendersonville, NC	2015-07-24	It will ruin our family's property.
Erin Carter	Hendersonville, NC	2015-07-24	I care about the earth we live on.
Richard Brown	Hendersonville, NC	2015-07-24	It effects the value of our land and farm in a very negative way.
Hank Heintzberger	Campobello, SC	2015-07-24	I live here, I work here, I call this home. Asheville, should supply their future electric from Asheville surrounds. Why ruin the hunt country and history of tryon?
christian fuentes	Hendersonville, NC	2015-07-24	I dont want this on my back yard .
Ralph pace	Hendersonville, NC	2015-07-24	will absolutely ruin beautiful country
Stephanie Patton	Hendersonville, NC	2015-07-24	This will devastate our land! I say "no!" to this project!
Richard McCombs	Hendersonville, NC	2015-07-25	Because I am a property owner on banner farm road !
Steve Dalton	Hendersonville, NC	2015-07-25	Because this will ruin land value, resources and the landscape of Henderson County.
Fran Nelson	Hendersonville, NC	2015-07-25	It may run through my backyard...
Mary Dunbar	Landrum, SC	2015-07-25	I am against Duke Powers proposal for the new power line.
Julie Morrow	Spring, TX	2015-07-25	The lines and substation are too close to families and children who will be negatively impacted.
Teresa Clayton	Hendersonville, NC	2015-07-25	Teresa N.Clayton

Name	Location	Date	Comment
Candy Morrison	Hendersonville, NC	2015-07-25	I bought my house because of the view, and now this is proposed to cut right through it. It will also drastically reduce my property value.
Lisa Jackson	Hendersonville, NC	2015-07-25	I want to protect the beautiful mountain views I have been blessed with all my life. I want my children to enjoy that same beauty & to have safety in their surroundings!
Charlene Diehl	Winter Garden, FL	2015-07-25	I live here and treasure these foothills. Moved here specifically for them last year! I have seen how Duke behaves. I vote NO
Tammy Morgan	Hendersonville, NC	2015-07-25	I'm trying to save my county!!
Tony Carswell	Hendersonville, NC	2015-07-25	eye sore
Jewel Pace	Hendersonville, NC	2015-07-25	I don't like what it will do to the landscape and it personally effects my families property. I think they should find a better way to achieve what they want.
Tara Maybin	Hendersonville, NC	2015-07-25	No new power lines, etc, please. Duke is too big and powerful, already. Please focus on cleaning up or (preferably) getting rid of the nasty coal plants and ash ponds, etc first.
Audrey Pettit	Hendersonville, NC	2015-07-25	These lines will be close to my home. I don't want high voltage power lines that close to me causing health problems for my family and animals.
Heather Wilcox	Hendersonville, NC	2015-07-25	I don't want to get sick!
Lynn Morrison	Horse Shoe, NC	2015-07-25	Your power line looks like it is coming very near to our house and will not only change the beauty of the land that we look out at but also lower our value of the property. Also signing due to a very good friend having a new home and the power line is coming through her back yard and she will have to move. It isn't necessary for this to take place in the wrong place. I understand it will help the area but please put it in the right place and not right through our back yards.
Chris Connelly	Gaffney, SC	2015-07-25	The lines will greatly impair the property values of many people. The community consists of many retirees. These people have worked all their lives to be able to afford these homes and beautiful lands. The impact on the landscape will be seen for miles. The benefits will not be worth the cost.
Kara Kilpatrick	Hendersonville, NC	2015-07-25	It's detrimental to the future of our family business, our health, and our well-being.
Rick Moore	Mills River, NC	2015-07-25	It will be a huge environmental impact with all the clearing it will take....Duke needs to spend the money and bury the line up I-26, condemn the state ROW not people's property they have worked hard for to ruin the value...
billie hinton	Moncure, NC	2015-07-25	We may have to sell our horse farm in Moncure due to coal ash being brought here and dumped by Duke Energy. Our plan was to move to western NC and now I read that Duke Energy is up there destroying the gorgeous landscape. Stop the madness.
Betsy Williams	Zirconia, NC	2015-07-25	I own property that will be affected by a route and I am very concerned about the impact on environment. We need to protect the natural beauty of the area and I believe there are other ways to handle building what is needed. Bury those lines.
lindsey wyatt	Hendersonville, NC	2015-07-25	I do not want these lines or towers anywhere near my property!
Wanda Walker	Fletcher, NC	2015-07-25	I do not wish to see the beautiful mountain views of my neighborhood destroyed by such industrial looking towers. I do not wish to live that close to high powered lines. I do not want to see our environment continued to be destroyed for the profit of a big business that shows so little regard for the safety and beauty of communities.
Jeremy Dann	Campobello, SC	2015-07-25	I don't want this to ruin our community and our town. Having a substation and 140 foot towers will be like a cancer to this area.

Name	Location	Date	Comment
Amanda Newman	Hendersonville, NC	2015-07-25	I think that making people and especially elderly people just have to pick up and move is ridiculous! And some of these farmers losing land also is ridiculous
Sarah Hoots	Hendersonville, NC	2015-07-25	Duke2 energy should not be allowed to do whatever they want. We pay the power bill so in turn. We the people pay power bill which in a se
Ethan Rogers	Hendersonville, NC	2015-07-25	I don't want it over my property
Tara Atkins	Columbus, NC	2015-07-25	Because there has to be a better way...
Jared Russell	Fletcher, NC	2015-07-25	Fuck duke
Randy Tate	Easley, SC	2015-07-25	Family's property
Karen Carswell	Hendersonville, NC	2015-07-25	There has got to be a better way. This will destroy property values in our area!
Michele Improta Moore	Hendersonville, NC	2015-07-25	It would destroy Forrest and animals habitats and taking peoples homes from them. Also the concern of cancer from these lines
Terri Lyda	Canton, NC	2015-07-25	Reserve our Land & Mountains...Keep it natural.
sara case	Hendersonville, NC	2015-07-25	I do not want our home defaced and I think Duke can work harder to find a better solution
Jen Hicks	Middleburg, VA	2015-07-25	I lived in Polk County for ten years and know how many individual families would have to relocate because of this proposed route, many of whom have lived in Polk for generations and can't afford current prices in Polk County. There are also a number of businesses, primarily agriculture related along this path that would effectively have to go out of business due to sheer loss of usable land. Small business, especially horse related business is the only growing sector in the county's economy this project could halt all the growth that has been achieved in the past two years and even reverse it, would be a travesty to waste all the work that has gone into promoting Tryon as a place to live. Why the I-26 corridor which already has the negative impact of a highway and literally goes in a straight line between the two desired points is not the obvious path is beyond me. Evoking eminent domain against the DOT would be far cheaper and less destructive than using it against innocent individuals who get no benefit from this project.
Erin Gallo	Gastonia, NC	2015-07-25	Western North Carolina is my home. My parents still live there and we make trips several times a month. I don't wish to see the mountains I love ruined.
Charles E. A. Ballard	Flat Rock, NC	2015-07-25	Proposition is close to property I live in.
Maria Cruz	Hendersonville, NC	2015-07-25	This greatly affects my home and neighbors.
Wesley STODDARD	Spartanburg, SC	2015-07-25	It is such a beautiful area of the 2 states and I hate to think what it will look like if this action is taken
Hailey Garven	Hendersonville, NC	2015-07-25	It will negatively affect my work, and my home.
Karine Nunes	Columbus, NC	2015-07-25	We've worked hard to keep this area the jewel that it is - keeping large businesses out, taking care of the communities. This would be horrendous.
Loretta Ludwig	Hendersonville, NC	2015-07-25	This is too close to our homes. It is very dangerous to our health. Also it decreases our property value.
Linda Page Hudgins	Tryon, NC	2015-07-25	I can't see why Asheville's needs for power should destroy our chosen, well constructed life styles here in the peaceful foothills.
Susan Bowling	Saluda, NC	2015-07-25	We purchased property to build a retirement home in Saluda, NC. The proposed plans will negatively impact further residential development in the area and deface the beautiful landscape that is so attractive between Saluda and Tryon, North Carolina.

Name	Location	Date	Comment
Dawn Sothoron	Walstonburg, NC	2015-07-25	Not right, it might not have human homes but it's wild life homes and destroying what Carolina is all about
Hope Ashburn	Horse Shoe, NC	2015-07-25	There are lots of children that live in the Fletcher location off of Hoopers Creek rd that would be affected. My son would be 70 ft from the proposed line. My son would have to sell his house. His children are 7, 9, and 11. There is a playground near the site also for several other developments.
Denise King	Dacula, GA	2015-07-25	I will harm the farm that belongs to my family and is part of my heritage and the livelihood of my father and brother
Lauren Kittrell	Hendersonville, NC	2015-07-25	The beauty of our mountains should not be defaced in order for a power giant to become even more powerful.
Jason Gilstrap	Greenville, SC	2015-07-25	The upstate has been a punching bag for big business long enough. Its time to make a stand.
Jason Kittrell	Hendersonville, NC	2015-07-25	I well know the disregard Duke has for the average person. One of our church members had Duke run massive power lines through her property. It was a headache during the building, it has been terrible since built, it scars the land, and it has always caused major drainage problems. This type of government supported abuse has gone on long enough!
RJ Holly	Gaffney, SC	2015-07-25	BC they could up grade in other ways like under ground
Halee Condrey	Hendersonville, NC	2015-07-25	This plan is going going to cut through multiple houses owned by people I love, people will loose there Apple farms, the home you grew up in will be swiped away as if it nothing to Duke. Most residence of WNC grew up on the land and enjoy there mountain surroundings. We're famous for our natural environment yet you're going to put dozens of towers right through it. Locals will loose very needed produce and farmers will struggle for income. It's not right.
Thomas and Carolyn Cadier	Athens, GA	2015-07-25	We are new property owners in the immediate area. This is a travesty that will diminish all property values and ruin the way of life that all who have settled in the area so desire. The area conservation and maintenance of green space and as well the emphasis on agriculture is seriously threatened.
Tiffany Dunn	Hendersonville, NC	2015-07-25	Property has been in my family for 4 generations. Crushing my son's dream of building a home and have safe environment for his future children
Gloria Verrecchio	Landrum, SC	2015-07-25	I'm signing because Duke has not provided adequate information to answer my questions. There seems to be a "rush"to start a project that will forever change the landscape and affect this and future generations.
C. Roy Woodruff	Fletcher, NC	2015-07-25	My wife and I are adamantly opposed to the Duke Energy proposal to wreck beautiful mountain landscape and homesites with this expansion of transmission lines. It has significant impact on our property and community of Livingston Farms.
Rebecca Creasman	Hendersonville, NC	2015-07-25	I do not want this on or near my property
taylor dunn	Hendersonville, NC	2015-07-25	the lines will will going over the only possible future homesite on my property.....if the lines go up , i have nowhere to build my home
Shannon Hensley	Hendersonville, NC	2015-07-25	The proposed line runs over the home I share with my wife and 3 kids. They will destroy my home or at the least leave it unlivable.
THOMAS MANNING	PENDLETON, SC	2015-07-25	#1: An independent outside review of the claimed necessity of this line must be conducted and made public. #2: If truly needed, any new lines should be BURIED lines.
Pamela Greenway	Spartanburg, SC	2015-07-25	I own land in this area and don't want to see this line/eyesore ruin the beauty of the area, affect my property value, or have a negative impact on the environment.

Name	Location	Date	Comment
Shannon Hensley	Hendersonville, NC	2015-07-25	You need to add the Henderson County Commissioners to the list of people who will get the petition. Henderson County will get wrecked over this.
Ruth Rocchio	Flat Rock, NC	2015-07-25	This is my neighborhood. This rape of the land is purely obscene.
Alison Leclerc alecler1@yahoo.com	Tryon, NC	2015-07-25	I don't want to see the land, local economy and environment to be ruined.
Michael Freeman	Hendersonville, NC	2015-07-25	Duke Power would destroy the natural beauty of the NC foothills by clear cutting and erecting massive electrical towers when they could bury the power lines.
Connie Hyder	Landrum, SC	2015-07-26	My family has land in the area surrounding this proposal and we're interested in preserving it, along with the local community.
Amanda Taylor	Evansville, IN	2015-07-26	This land is precious. Don't destroy it!
parker malia	east flat rock, NC	2015-07-26	My daughter has 3 handicapped children and worked hard to get into a Habitat house she could afford. She will be out on the streets with all 3 kids if this goes thru. There is no way Duke power can compensate her equally as Habitat will take a portion of the payout leaving her family out in the cold. And so goes the same for anyone else ousted out of the Habitat house and community they have worked so hard to build. Don't be so ruthless, Duke Power. Dumping coal ash and hurting the environment and now putting families out of their home. Have you no shame ?
KELLY BERGER	Fort Lauderdale, FL	2015-07-26	I own a home on Macedonia Road, Saluda, NC. I do not want more power lines going through my neighborhood.
Karen Krupa	Hendersonville, NC	2015-07-26	Proposed route very near my home. Besides the obvious health concerns, this area of Crab Creek, would be ruined by the eyesore of huge transmission lines.
Cecilia Jones	Hendersonville, NC	2015-07-26	I am signing because we own property in direct route of these power lines.. This will destroy our property and any future use for us.. Please STOP this...
Peggy Smith	Greer, SC	2015-07-26	That land is beautiful and needs to be left that way. It is not in the best interest of the land and the people that live there.
Megan Young	Etowah, NC	2015-07-26	I'm signing because they WILL NOT ruin our beautiful mountains because of money.
Jennifer Egolf	Hendersonville, NC	2015-07-26	It is destroying people's land that they worked their entire lives for. It is so unfair that they can basically come in and take people's land.
Michelle Welch	Hendersonville, NC	2015-07-26	This will ruin our beautiful mountain landscape! We don't have many scenic views left!!!! Duke Power has enough money to bury the lines; other countries do!
Charlotte Wills	Petersburg, VA	2015-07-26	As a former resident of the area, why take away the beautiful views of the mountains and property values. I go through this area several times a year and enjoy the views.
Kathie Yancey	Hendersonville, NC	2015-07-26	It will go directly thru endangered wildlife and our community. Ruining the beautiful serene mountain life
Richard Eisen	Hendersonville, NC	2015-07-26	they have better options but don't want to pay
Sally Cook	Hendersonville, NC	2015-07-26	Do not destroy the beauty, property and tourism economy of WNC!
James Dunn	hendersonville, NC	2015-07-26	My property values will bottom out. No one wants to build or live in eye site of these ugly towers. A complete disregard of property owners in Duke Power's thirst for even higher monopoly prices and profits. We know Duke employeeocracy will stuff this down our throats.

Name	Location	Date	Comment
Brenda Rosbrook	Hendersonville, NC	2015-07-26	I DO NOT want to see land being destroyed for homeowners, wildlife & the beautiful mountain views. They will spray pesticide constantly from helicopters to keep the area free from plants. This means all kinds of chemicals in our air & water..
Jana Hale-Focarino	Hendersonville, NC	2015-07-26	I don't want you to run overhead power ( transmitter ) lines through my neighborhood.
mark mcgill	columbia, SC	2015-07-26	I own property in Columbus N.C.
D Prewitt	Campobello, SC	2015-07-26	This will ruin this horse community...what is the point of protecting this beautiful area if this kind of thing can happen!?! Places like here are disappearing nationwide we CANNOT allow this to happen!!!
Joyce Hudgins-Joyce	Hendersonville, NC	2015-07-26	I do not want to see our beautiful land, mountains, and views damaged by huge power lines and towers.
Rachel OBrien	Landrum, SC	2015-07-26	Keep these lines up in Asheville! Why impose "their" improvements on our Foothills counties!
Lyn Blake	Hendersonville, NC	2015-07-26	I don't want the transmission lines to come into our neighborhood.
Lisa Murphy	Columbus, NC	2015-07-26	Please use existing right of ways.
colleen chamberlain	Hendersonville, NC	2015-07-26	MYOB
Hulene Breland	Hendersonville, NC	2015-07-26	Duke's proposed foothills transmission line Route 10B will adversely affect our golf community and property value. Our power lines are underground and we pay extra for that right.
Mairo Leyva	Hendersonville, NC	2015-07-26	I will sign,we do not need this.
paula stathakis	Landrum, SC	2015-07-26	Power towers not needed. Find another way. Protect the upstate forever!
Laura Arch	Hendersonville, NC	2015-07-26	To maintain the beauty of our mountains.
Jeff Jennings	Hendersonville, NC	2015-07-26	I am concerned that the Duke Power transmission decision is being rushed through without full consideration of all other alternatives. Cutting new paths through cherished and conserved rural and forested landscapes shouldn't be so easily rushed into. Many Henderson County residents will be affected. What are the other options?
Brian Butler	Goodman, MO	2015-07-26	Why do SC residents need to power Asheville NC? This is ridiculous !
Peggy White	Arden, NC	2015-07-26	Please stop putting these ugly huge transmission lines across the mountains, scarring the mountains.
Jamie Constance	Georgetown, SC	2015-07-26	The terribly ugly scarification to beautiful natural landscapes that should remained untouched
Louise Hickman	Arden, NC	2015-07-27	I am opposed to Duke Power running a new Transmission line through our mountains!
Carolyn Henderson	Danbury, NC	2015-07-27	This is some very gorgeous land!
larry betzel	landrum, SC	2015-07-27	I don't want my retired way of life changed, ruined, or forced on me.
Andrea Little Gray	Hendersonville, NC	2015-07-27	It would greatly affect my families land in a negative way, mainly by loss of land and habitat for native animals and plants. It would also affect property values surrounding.
Thomas Appleton	Landrum, SC	2015-07-27	This project would be a total blight on the scenic Highway 11 beauty and a destruction of the underlying property values.
Julie Wilkie	Hendersonville, NC	2015-07-27	I don't want this!!
Dustin Wilkie	Hendersonville, NC	2015-07-27	It will destroy our property value. An will be a health hazard an eye sore.

Name	Location	Date	Comment
Polly Penland	Horse Shoe, NC	2015-07-27	My entire county, Henderson County, is profoundly impacted from the southernmost part to the northernmost part. The environmental, economic, and personal impact of this project is huge, and unacceptable.
Melody Levi	Zirconia, NC	2015-07-27	I own 1.25 acres on Beddingfield drive, zirconia, nc. There is already a huge AT&T right of way. .runs right behind property. This proposal runs through my property and takes half my land!
Anna Martin	Greer, SC	2015-07-27	There are so many power lines ruining the views already.
Lynn Frisbee	Flat Rock, NC	2015-07-27	Where we live, my husband and I already have one of your substations in our front yard. PLEASE don't put this in our back yard!  Henderson County's tourism is largely because of its beauty. This will seriously hurt the economy.  Please don't do this,  Lynn Frisbee 132 Lost Creek Dr Flat Rock, NC. 28731
Vonda Thornton	Landrum, SC	2015-07-27	This goes right through our property!!
Maria LeMaster	Hendersonville, NC	2015-07-27	This will possibly run through my property.
john hackney	Riverview, FL	2015-07-27	I am from Hendersonville NC and I am a firm believer that if it's not broken don't fix it stop Duke Energy
Jill Gilbert	Etowah, NC	2015-07-27	we don't want this going thru our property without our permission, As it will take away from property value if we ever decide to sell.
Tamara Caldwell	Horse Shoe, NC	2015-07-27	My neighbor brought this to my attention that it will directly effect our neighborhood. Though after reading up on it I am outraged by their whole plan that will be affecting way more than just our neighborhood.
Diane Smock	Greenville, SC	2015-07-27	I am a local resident & I care about the environment and the quality of life in our region. I don't want to see our beautiful foothills destroyed in the name of "progress."
Tasha Woodall	Horse Shoe, NC	2015-07-27	One proposed route cuts directly across my property and would eliminate one of the biggest reasons we chose this as our home.
Chrystal Anthony	Hendersonville, NC	2015-07-27	I want to stop Duke power from doing anything to hurt the natural habitat.
John kay	Arden, NC	2015-07-27	I do not want to see our area defaced by additional power lines!
Jessica Tucker	Fayetteville, GA	2015-07-27	I don't want my Aunt's yard to be ruined by this.
Joann Newton	Landrum, SC	2015-07-27	Destroying our property and health issues. Also lowers property value.
Diann Coffey	Greenville, SC	2015-07-27	I do not want anything to destroy our beautiful mountains or rivers
Brice Hipp	Greenville, SC	2015-07-27	I feel there is a better way.
Iris Carruth	Flat Rock, NC	2015-07-27	energy fields will impact our health and beauty of the mountains
Teresa McMurray	Saluda, NC	2015-07-27	I don't want new giant power lines ruining the beauty of the land and our ruining our property values.
Alison Brennan	Hendersonville, NC	2015-07-27	This affects several people I know, including myself. Folks will lose everything they have fought for and built for generations.
Martha Comer Booker	Flat Rock, NC	2015-07-27	Negative impact on property values! Negative impact on beautiful country side!
Jane Holland	Flat Rock, NC	2015-07-27	You are destroying the scenic beauty of our community !!!!!

Name	Location	Date	Comment
Cecile Kelly	Campobello, SC	2015-07-27	I do not want Duke Power to destroy the beautiful landscape that is enjoyed by our community. There has to be a better way of supplying additional energy to the Asheville area without impacting the environment in the extreme manner that is currently being proposed.
Ashley Stevenson	Hendersonville, NC	2015-07-27	I'm worried about the environment and the effect this project will have on property value. I have worked hard for my home. It burned a year ago and now this. My home is my nest egg. This can't happen.
David Smith	Columbus, NC	2015-07-27	I oppose eminent domain in any form. There are other solutions, such as buried lines, using existing right-of-ways, etc, that should be considered first. This is all about corporate greed and profit margin.
Joyce Vance	Horse Shoe, NC	2015-07-27	I don't want my unobstructed natural mountain view destroyed by power lines
Predmore, Richard Predmore	Campobello, SC	2015-07-27	To help stop Duke Energy
Richard Brevard	Horse Shoe, NC	2015-07-27	I do not want these line near my house!! The environmental impact of this will greatly effect everyone living in this area. This will also decrease land and property values in the area.
Claudia Serrano	Fletcher, NC	2015-07-27	I DO NOT approve this project!
Sally Gauntlett	Hendersonville, NC	2015-07-27	I am a resident of Cummings Cove and Route 10B cuts directly across our community, destroying views, risking our health and disturbing our wildlife. Our community pays a premium to Duke Power to bury cables - it is unfair that we have overhead cables routed over our homes and lots.
Ben Booker	Flat Rock, NC	2015-07-27	Duke has offered no reason why existing right of ways aren't sufficient. Or why going underground has apparently been ruled out.
Jason Burrell	Canton, NC	2015-07-27	I have family who would be severely effected by this (i.e. transmission lines - Route 9B to 9A runs directly through their property). In dealing with these types of projects I know that the purchase of ROW and property is vertically cents on the dollar (value of a property), not to mention the mammoth size and gaudiness. If this has to be done, I suggest the route to the East of Columbus (much less populated than along I-26 through Arden, Fletcher, Hendersonville, and Saluda).
A. M. Delaney	Mars Hill, NC	2015-07-27	Enough is enough ! Corporations are NOT people and have no right to destroy the natural elements that grace our planet
Rubi Molina	Candler, NC	2015-07-27	because the change is only beneficial to Duke not homeowners
Candace Rice	Marshall, NC	2015-07-27	How can we win with their man as governor. I'll do everything I can to stop it though
michalle Tucker	Fayetteville, GA	2015-07-27	This will affect my sister's health negatively as well as her property value
JEANNE SUDDERTH	Flat Rock, NC	2015-07-27	to protect our western north carolina forests
Nancy Betts	Hendersonville, NC	2015-07-27	I don't want this in my daughters & granddaughters back yard. This will take away the beautiful view and will make us fearful of what damage living & playing close to these monsters will cause.
Susan Moore	Black Mountain, NC	2015-07-27	This smells of padding pockets of politicians while destroying the environment with little regard to local residents who oppose this in the highest manner.
Robert Sudderth	Flat Rock, NC	2015-07-27	We need much more information and better explanations of the proposed paths for the new transmission line. While we may need this expansion for future growth, minimizing environmental and financial impacts on residents/owners are foremost to all citizens. We need to see the completed project along a single path or set of paths, not just a bunch of paths that are possible, i.e., what are the minimum impact areas possible?

Name	Location	Date	Comment
Jill Gonzalez	Hendersonville, NC	2015-07-27	I live right in the path of this route. It will destroy the pristine beauty of our home.
Sandra Garrett	Elizabethton, TN	2015-07-27	Because I live on the other side of this mountains. Because my friends live in those mountains (many of them for four, five, six, seven generations). Because my ancestors lived in those mountains. Because those mountains mean more to the communities affected and the people who visit North Carolina than they do to Duke Energy.
Jeff Hayes	Fletcher, NC	2015-07-27	I am opposed to this plan.
Jan Phillips	Hot Springs, NC	2015-07-27	Insufficient education of the public and lack of appropriate time frames and locations for public input.
Nancy Hoffman	Saluda, NC	2015-07-27	Power lines will destroy usability of my property.
Andrew Scott	Flat Rock, NC	2015-07-27	New power lines should not come close to residential areas; stay out of the foothills areas.
Amanda Vavalle	Flat Rock, NC	2015-07-27	This land needs to be treated with care. This project would lower property values and destroy scenic views.
Josephine Borg	Swannanoa, NC	2015-07-27	I believe is protecting the natural beauties of our earth from hideous and unnecessary monuments to big companies like Duke Energy's apathy toward accountability. I have children who I would like to feel proud about bein a human being.
Lori Huntley	Hendersonville, NC	2015-07-27	I am signing because I don't want to see it ruin the beautiful landscape in Edneyville.
Dawn Crawley	Sanford, NC	2015-07-27	Duke has no regard for people or the environment.
David Powell	Flat Rock, NC	2015-07-27	This will impact my home immensely. My property will plummet because my mountain view will be compromised. The neighboring Apple Orchard will be devastated.
Amber Webster	Asheville, NC	2015-07-27	This project could pass through our land and destroy our family farm. Duke energy is not being transparent with the public. They are not giving people the information that we deserve. It it has to be it should be underground. Every home should have solar panels instead.
Jane Ehlers	Arden, NC	2015-07-27	this project will be detrimental to our environment and reduce property values and will be unsightly
Roger Finch	Honea Path, SC	2015-07-27	Duke Energy is for profit. They do not need the power plant. They want to sell off the power to other states!
Mark Rhinehart	Fletcher, NC	2015-07-27	I'm sighing this because one of the proposed routes goes right in front of my house.
Jay Hansen	Columbus, NC	2015-07-27	There is NO reason not to use existing rights of way and avoid any more scarring of the landscape.
Lance Morsell	Saluda, NC	2015-07-27	I believe the construction of these lines will severely damage the unique ecosystems native to this area. The supposed population boom that justifies this project will stop growing to the utter hideousness it'll have to the natural beauty that attracts people to this area
Valerie Collins	Greenville, SC	2015-07-27	I'm signing because Duke Energy has existing right of ways that can be utilized; new ones are unnecessary and would only destroy the WNC/Upstate of SC beauty.
Landen Gailey	Hendersonville, NC	2015-07-27	This could very negatively affect my livelihood!
Fred Morsell	Saluda, NC	2015-07-27	The proposed power lines will ruine the beauty of the Saluda area. Duke should be looking into alternate energy sources, such as wind and solar.

Name	Location	Date	Comment
Winnie Clark	Columbus, NC	2015-07-27	If these lines must be run, then please bury them rather than destroying our beautiful area and ruining our property values.
Sandra Larson	Travelers Rest, SC	2015-07-27	I'm signing because this project is ill-conceived, hardly "modern" (burying the lines would be modern), and will have a devastating impact on natural areas that I and many others use regularly. The siting of a substation at such a distance from the community that needs the electricity (Asheville) seems to have been driven by a sweetheart land deal.
Courtney Jackson	Flat Rock, NC	2015-07-28	I'm signing because if this proposal goes a certain route, my entire family estate will be destroyed for this monstrosity. My 89 year old grandmother shouldn't have to bear the stress of uprooting her life and moving from her 55 year old home for a greedy company to make more money.
N A	El Paso, TX	2015-07-28	I'm signing because people should not have to leave their homes for the monetary benefit of others.
Chemily Russell	Saluda, NC	2015-07-28	I don't want my friends grandmother to be forced to move out of her house.
Jennifer Putnam	Campobello, SC	2015-07-28	It is too beautiful a view to ruin it!
Lanie Marsh	Fort Mill, SC	2015-07-28	I own horses and having property in which to graze and ride my horses along with others in the equestrian community is important. Horses are not just livestock. They are a very important livelihood for North and South Carolinians.
Jean Alverson	Simpsonville, SC	2015-07-28	Defaces properties...
Kathy Morgan	Bat Cave, NC	2015-07-28	It is wrong to take people's homes and land they have worked for all their lives
Heather Bagwell	Fletcher, NC	2015-07-28	This will be a huge eyesore through our beautiful valley, not to mention the negative health effects from high voltage transmission lines.
Rylee Levi	Flat Rock, NC	2015-07-28	I'm signing because it cause right over my house and right through the middle of my land
Heather Medlin	Hendersonville, NC	2015-07-28	I care about my community!
James Mixon	Saluda, NC	2015-07-28	Because so many of these families are my friends and I have a home close to them. I don't want the power lines at my front door either!!!
Tracy Forrester	Landrum, SC	2015-07-28	Duke Power is only thinking of the money it will make from this not the many families who are going to be forced to move and have their homes condemned, their land taken away that they worked hard for. It's so sad what some families are having to lose just so we can have more technology.
Melanie Graves	Campobello, SC	2015-07-28	Although the new lines will not be crossing my property. They will be affecting my community and property values in my area. I realize this very well could have been in my yard. I have only been in the area for two months but had I known what was coming that may have affected our purchase here. This makes me very upset that a private company has the right through eminent domain to take a portion of an individual's property resulting in devalued properties. Especially when the top officials for the company are making millions of dollars! I would really like to know why if Duke is making those kinds of profits why they can't invest in underground utility lines. They have them in European countries.
Stephanie Davis	Landrum, SC	2015-07-28	It would be next to my property
Jennifer Gordon	Zirconia, NC	2015-07-28	Runs through my property
Kristie Bulla	Fort Myers, FL	2015-07-28	I visit this area of NC quite often, primarily to appreciate the natural beauty and beautiful views. Please don't screw that up!
Pat Rudd	Travelers Rest, SC	2015-07-28	I am signing because I give a damn!
Christa Roach	Lyman, SC	2015-07-28	Several of my friends and their families are effected by this.

Name	Location	Date	Comment
Susan Cyr	Greenville, SC	2015-07-28	Let's keep the beautiful Upstate beautiful! No power lines!!!
Robert Roy Jr	Miami, FL	2015-07-28	Segment 10B runs through the southwest portion of our property. Duke Energy never mailed written correspondence to us about their proposed transmission lines routes.
Brittany Wright	Hendersonville, NC	2015-07-28	The proposed routes will take away precious farm land and the beauty of WNC.
Joan Cortez	Homestead, FL	2015-07-28	I own six acres in scriven hills in Tryon. I am totally again this project.
Josie Millweard	Columbus, NC	2015-07-28	I live on the proposed path and this project will destroy the beauty of our area.
Allison Johnson	Canton, GA	2015-07-28	We come to Tryon to show horses at one of the most beautiful places. The scenery is breathtaking. We had been looking at property there, but are putting all plans on hold due to the powerlines. We do NOT want to be anywhere near them for health reasons, nor do we want to spend \$\$\$ only to have the beautiful views scarred by the towers. I know I am not the only potential buyer that has pulled out of purchasing there.
Sheila Hill	Hendersonville, NC	2015-07-28	We do not want this in our neighborhood, much less on our property!!
Payla Rosen	Columbus, NC	2015-07-28	I have a home that's within 300 feet of the path of Route five. My home value would be severely affected because it's obstructs my 50 mile View. The entire area would be affected as people come up from the piedmont to visit our mountains. I do not want spraying and defoliating to happen within 300 foot of my home. The residents of White Oak Mountain depend on groundwater for our wells, We do not have public water, this spray would get in the groundwater and affect the quality of our life. Please use the already established route from Campobello to Asheville for transmission lines. It would be the least intrusive and best option for all involved. Thank you for this consideration Paula Rosen
linda Simpson	Columbus, NC	2015-07-28	too close to my house. and my beautiful whiteoak mtn we live on
PENN DEAN	Landrum, SC	2015-07-28	I am served by The Best system around - Blue Ridge Electric. I once lived in a S.C. county that Duke bought a CO-OP and provided favors to politicians and low fixed rates for life for the rural residents .Bet they would love to get Blue Ridge Electric!
david turner	Flat Rock, NC	2015-07-28	It. is effecting Me!!!!!!
Diane TURNER	flat rock, NC	2015-07-28	It is effecting me and our property..Ugly and dangerous and value of property will go down
Anita Smith	Newell, NC	2015-07-28	save the lands
Mercer Marilyn	Fletcher, NC	2015-07-28	I have health/safety concerns. It will destroy thousands upon of trees, family lands and mountain views. Drop in property value.
Chesnee Green	Flat Rock, NC	2015-07-28	This is my home. My families land would be destroyed.
Bonnie Otto	Flat Rock, NC	2015-07-28	We are within 500 feet and extremely concerned about the impact that this line would have on our area, property values, subdivision, health, environment and so much more. We will all bear the financial and environmental loss for the supposed 'clean' energy, while we see our neighborhoods and even livelihoods destroyed.
Michael Green	Hendersonville, NC	2015-07-28	They will never pay a fair price for the acreage they will rape from our counties citizens!
Philip Green	Hendersonville, NC	2015-07-28	I am a naturalist and I think that energy consumption is causing disasters all over the world. I am also very against Duke Power since the coal ash dump scandal they are involved in. They are as corrupt as the natural gas hydro fracking industry.

Name	Location	Date	Comment
Sid Gillespie	Flat Rock, NC	2015-07-28	There are other options Duke can use and the plan encompasses too much land.
Caroline Bellamy	Horse Shoe, NC	2015-07-28	This will completely destroy my families land!
Kimsey Franklin	Weaverville, NC	2015-07-28	We have destroyed enough for the love of money!
Kimberly Dorlan	Marion, NC	2015-07-28	We have enough environmental issues that need to be cleaned up!! We certainly do not need to add to the problem with more messes for future generations to have to contend with!! STOP thinking about the lining of your purse and start thinking about ways to preserve the world and it's beauty for future generations!! Have you stopped to consider the impact upon your OWN children and grandchildren?? Or do you just simply not care???
Mitchell Williams	Fletcher, NC	2015-07-28	It will run right behind the neighborhood, ruining all the great views!
Edith Lang	Marion, NC	2015-07-28	Any company that can be so careless with their coal ash should not be allowed this type of access to our environment.
Mary Duckett	Greenville, SC	2015-07-28	It's the "ENVIROMENT"
Hallie Waldbart	Suwanee, GA	2015-07-28	I live in Livingston Farms and this will decrease the value of my home and my daughter lives in the corridor of 17B in Livingston Farms in Fletcher NC and I'm concerned for her health and safety and her decrease in her property value and her future.
Graham Ramsey Jr	Suwanee, GA	2015-07-28	Because my mother lives at 104 Woodfern Rd Fletcher NC in Livingston Farms and totally inside corridor 17B. I'm concerned for her health, safety and financial loss this will cause.
Larry Hedgepath	Mill Spring, NC	2015-07-28	This is just plain wrong!
Garry Patton	Greenville, SC	2015-07-28	The front edge of the Blue Ridge Escaprmnt is one of the most beautiful areas of North America and I don't want to see it marred by unsightly transmission lines.
Vicki Peters	Saluda, NC	2015-07-28	I am strongly against this.
Larry Potter	Landrum, SC	2015-07-28	The visual impact on a pristine area
Waylon Woodall	Horse Shoe, NC	2015-07-28	One proposed route cuts directly across my property and would eliminate the single most important reason we chose this as our home.
Mat Pruitt	Hendersonville, NC	2015-07-28	Duke energy sucks,
frank bailey	Landrum, SC	2015-07-28	To preserve the beauty of a rare community and the scenic highway
Curtis Newman	Flat Rock, NC	2015-07-28	It is proposed to come 260 feet from OUR HOME!!!! It will interfere with re view we have from our home of the mins. It WILL cause depreciation of the value of our home which we built with our blood sweat an tears! Not to mention this land was purchased from family to keep in the family!
gwen newman	Hendersonville, NC	2015-07-28	Don't want homes and business ruined
Sarah Odom	Greer, SC	2015-07-28	I do not and will not support the uprooting of families and the ILLEGAL seizure of land for ANY REASON! Find a better way!!!
Greg Praytor	Flat Rock, NC	2015-07-29	Duke power should be investing in other ways to produce power.
Melba Smith	Hendersonville, NC	2015-07-29	I think it could be positioned along I26. It is ugly and loud, devalues property.
Mary Roehm	Travelers Rest, SC	2015-07-29	I am not willing to be silent about a large corporation ruining our pristine environment.
Joshua Arendt	Hendersonville, NC	2015-07-29	I want to keep the land as natural as possible, not allow forests to be destroyed and replced with metal towers radiating energy.
Richele Dunavent	Hendersonville, NC	2015-07-29	You need to find less invasive options for your power lines. Don't take over people's homes.

Name	Location	Date	Comment
Michael Sherburne	Horse Shoe, NC	2015-07-29	I am a property owner along proposed route 10B. I purchased this property for its pristine mountain views and had intended to live out the rest of my days at this location. I had hoped to die peacefully and happy on my hilltop but if this transmission is placed in my yard, it will negatively change my life plan.
Jan Romine	Tryon, NC	2015-07-29	Polk county will be ruined if Duke Power has it's way!
elizabeth davis	Hendersonville, NC	2015-07-29	I have property in the path of Duke's project and wish to have Duke stopped from ruining our beautiful neighborhood with horrible towers.
Pauline Heiny	Hendersonville, NC	2015-07-29	I do not want to see our beautiful landscape changed
Amy Stefanou	Hendersonville, NC	2015-07-29	I have a health condition that will be negatively affected if I reside next to these towers.
ryan gillespie	Arden, NC	2015-07-30	We don't need duke energy showing any less compassion for our mountains and rivers. FIGURE OUT ANOTHER SOLUTION!
Alexander Chernous	Flat Rock, NC	2015-07-30	My parents live near Duke Energy High voltage powerlines, so I have seen the enviromental damage they do. I do not want to see my home/land destroyed, or other peoples property.
Priscilla Yeager	Columbus, NC	2015-07-30	They are raping our beautiful foothills when they have other alternatives.
Barry Bowen	Mills River, NC	2015-07-30	I'm concerned for my health and well being of my community. I do not want any of the future development by Duke Energy to have a permanent negative impact to the residents and farm areas of Mills River.
Karen Delfino	Mills River, NC	2015-07-30	Duke should NOT use line 12 of their transmission plan. Use the I-26 corridor.
Tiffany Gentry	Mills River, NC	2015-07-30	I don't want this to run next to my house! The Heath of my family and the resale value for my neighborhood!
Christine Bishop	Campobello, SC	2015-07-30	More options need to be explored and residents of the affected areas need a chance to individually and collectively voice their concerns and be a part of the decision making process about a topic that will directly affect our communities and therefore our lives.
Ashleigh Mills	Greenville, SC	2015-07-30	I work in this beautiful area, and it would be deplorable to have power lines destroying the beauty of Cliffs Valley and Cliffs at Glassy and the surrounding Blue Ridge foothills.
Yuliya Chernous	Flat Rock, NC	2015-07-30	I'm signing this because I don't want my land to be destroyed by this project. Asheville people want more cleaner energy and less destruction of our mountains!!!
Lisa Krolak	Columbus, NC	2015-07-30	I want to help and become part of the group to stand up to Duke and say No, choose another solution. Please let me know when you are holding a meeting. Thanks for what you are doing. - Lisa
Lindsay Pressley	Hendersonville, NC	2015-07-30	One of the proposed routes is straight through my father-in-laws property adjacent to my house. We have a gorgeous family farm that has been in the family for generations and we would like to keep it that way. I am concerned about potential health risks associated for my family and quite frankly don't want to look at such an eye sore in such a picturesque community. Farms will suffer along with tourism and agrotourism which has taken lots of hard work for generations to establish. There has to be a better route! Follow I-26 if it must happen at all!
Susan Kelley	Tryon, NC	2015-07-30	This project will ruin the most beautiful part of North Carolina -- the foothills of the Blue Ridge Mountains and our Thermal Belt area and equestrian country. Find another route and don't destroy our small county.

Name	Location	Date	Comment
Harvey Fichtelberg	Mills River, NC	2015-07-30	Many of the candidate routes displayed on Duke's web site go through residential areas when less intrusive routes are available. Several of the routes are based on old map data.
Paulina Allen	Mills River, NC	2015-07-30	I live in Riverstone along with many other friends and family numbers and do not want to powerlines so close to my home !
William Rader	Hendersonville, NC	2015-07-30	There are too many residential homes in the path of the proposed 10-B route for the transmission line that adversely affects families.
sara hinson	Monroe, NC	2015-07-30	Life long horse enthusiast.
Chris Walker	Mills River, NC	2015-07-30	I live in Mills Pointe in Mills River and do not want the power line running in our neighborhood.
sandra lawshe	Marion, NC	2015-07-30	It will be unsightly, close to wells in the area and property values will decline
Caryl Hawkins	Douglasville, GA	2015-07-30	This is a beautiful area and these changes will unfairly and negatively impact the families living there, as well as the loveliness of that region. Do not do it!
Constance Vlahoulis	Tryon, NC	2015-07-30	Will destroy land we view and enjoy everyday - not just for us but generations to follow. The economic hit to communities like Mills River in Henderson County, NC would never recover. The tax base of neighborhoods that loose so much value if this is allowed in inappropriate areas will hurt the general communities ability to take care of other services. Yes the grid needs updating but must rely on better less invasive technology.
Paul Fischer	Hendersonville, NC	2015-07-30	I understand the need for more energy supplies to the area, but think the proposed route 10B is particularly onerous. It may be less convenient, but I believe existing easements are available to accomplish the needed result. People subject to these easments have purchased their land with knowledge of them. To force new ones on people who spent their capital and built their dreams on the expectation of unspoiled landscapes is both unnecessary and gratuitously destructive. I cannot imagine any responsible state representative for this region would support this.
andrew mullis	Mills River, NC	2015-07-30	One of the features that attracted us to Mills Pointe was underground utility lines.
BARBARA KETCHAM	Landrum, SC	2015-07-30	This "progress" is unsightly, causes health issues, decreases land values and is outdated technology.
Richard VOGT	Columbus, NC	2015-07-30	One of the proposed routes is within 500 ft of where I live; it'll ruin the property value & future salability.
Rhonda Douglas	Cleveland, SC	2015-07-30	WE have property at the Cliffs at Glassy that will be hugely impacted in value and marketability destroying our view. And we live along Scenic HWY 11- is that not protected??????
Debbie McCray	Chesnee, SC	2015-07-30	this proposed route cuts right through the property we just purchased. Not only will it ruin the beauty of this small rural town I have concerns about the safety of living near this. If they do seize our land where do we go?
Donna Sheline	Hendersonville, NC	2015-07-30	i want them to use the existing line space and stay out of Cummings Cove CC, one of the Top 50 Master Planned Communities in the USA
Alan Sheline	Hendersonville, NC	2015-07-30	They should not disturb cur environment and use the line space currently in existence.
Alisha Pressley	Hendersonville, NC	2015-07-30	This doesn't need to be going through farm land!!!
Jane Dupont	Hendersonville, NC	2015-07-30	Duke has other options, such as already established right of ways with power lines in place. DO NOT let them destroy natural beauty that can never be reclaimed.

Name	Location	Date	Comment
Michael Nevins	Hendersonville, NC	2015-07-30	This appears to be issue that will have a big impact with our health and the environment.
Wallace DuPre	Columbus, NC	2015-07-30	Line 2B parallels omy panoramic view of Blue Ridge and is within 500 ft of my home, tower bound to be within view
Carol Icard	Landrum, SC	2015-07-30	With solar energy gaining momentum, the damage the proposed "upgrade" will do to our beautiful regional community is not convincing. The taking of private property and damage to the wildlife, plants and trees and the risk of pollution from herbicides and electric emissions is simply an outrage.
Susan Baxter	Hendersonville, NC	2015-07-30	I am a resident of Cummings Cove, and the proposal would adversely affect our community.
elaine largen	Charlotte, NC	2015-07-30	Effecting family lives and property
Leah Charbonneau	Fletcher, NC	2015-07-30	I live in this beautiful part of the world and we are sick of big money and Duke Energy walking all over the people of this community. My farm land is directly hit by one of the proposed routes and our land will be worthless if this project goes through.
Ken Tassin	Hahnville, LA	2015-07-31	I am against power line through the neighbor hood
Patricia Viera	Columbus, NC	2015-07-31	It is hazardous to our health, it is unsightly and will devaluate our property.
Cindy Tuttle	King, NC	2015-07-31	I own property in Saluda and their proposal crosses over land my ancestors settled, including where they are buried. They have done enough to disfigure our beautiful countryside!
George & Amelia Brady	Anthony, FL	2015-07-31	Our property in Mills River will be totally defaced. It is a beautiful mt. with 5 spring with a creek, farm house, barn we have kept up for our grandchildren to know their heritage. It has wildlife because of the water. I am worried about the health affects also. It looks like they could go up Interstate 26.
Elmira Weston	Columbia, SC	2015-07-31	My family has owned property in WNC for years and this should not happen to the beautiful mountains. Take your Duke power lines somewhere else, or go underground!
Terry Carlisle	Charlotte, NC	2015-08-01	I visit that area very often to see my daughter who lives on Pressley Rd where duke energy is looking at coming through....please find another way. Thank you
Peter Jones	Hendersonville, NC	2015-08-01	I am against this destruction of the beauty of this area. Go underground!
Pat Figueroa	Landrum, SC	2015-08-01	This project will devalue my property! I am planning on selling it when I'm older. I NEED that money for my retirement!! Is Duke Energy going to take care of me?!!!
Mark Owens	Mills River, NC	2015-08-01	I live in mills River and mills pointe subdivision and do not want this project to impact property value and the natural beauty of the area.
John Moore	Rutherfordton, NC	2015-08-01	Alternatives are better. The monopoly Duke needs to be reined in.
Stephen Gragg	Saluda, NC	2015-08-01	The pristine WNC Mountains CANNOT be disturbed as proposed. We recently lived within 1 mile of the DUKE facility off Long Shoals road. Now "they: propose to encroach on our land once again!
Kenda Sweet	Mt Pleasant, SC	2015-08-01	I am concerned about this project's impact and question if it's even necessary.
Joseph Burdette	Landrum, SC	2015-08-01	It's highly inappropriate to visually deface one of South Carolina's most stunning views. Put the cables underground.
Myrna Johns	Columbus, United Kingdom	2015-08-01	I love Polk County and its beauty

Name	Location	Date	Comment
Martha Lott	Tryon, NC	2015-08-01	One of the reasons I moved to the Foothills of NC was for the beautiful vistas and open spaces. Duke is not thinking of the negative environmental or economic impacts to our land. If Duke proceeds with this project, our properties will be ruined forever with the buzzing gigantic towers profiting only their share holders.
Wendy Banner	Raleigh, NC	2015-08-01	I have lived in Greenville off and on for years since a child and wanted to buy land up near Landrum. I definitely have 2nd thoughts now because of this substations impact on the environment and health concerns for any resident living near the substation, or indeed animals on it. There goes the beautiful view this area is known for and all for Asheville's sake. We have just been sacrificed. If Hillary Clinton wins and holds to her promise of solar panels across large portions of the US, what is the point if this substation anyway?
Pamela Nowell	Lynchburg, VA	2015-08-01	Enough is Enough - Greed and lack of any concern for the environment continue to be a problem. Once our environment is destroyed, there is not return to nature. LEAVE this beautiful area along. Stop this destructive plan.
Melanie Greenway	Rutherfordton, NC	2015-08-01	The impact on the communities and on tourism will be devastating. No one goes to the mountains to see gigantic power lines.
Helen Marini	Columbia, SC	2015-08-01	I am a frequent tourist to Saluda. This would be a reason to go elsewhere.
Jo Ann Smith	Saluda, NC	2015-08-01	I own property that includes the current transmission line. This project would add a second transmission line to destroy our beautiful woods and driveway. Why can the existing land spoiled by the transmission line not be reused?
Peter Skadow	Columbus, NC	2015-08-01	There are options to upgrade the facility in Asheville and there are options for private businesses to use technology that will produce clean power. That is a responsible solution. I have lived here for 25 years and do not accept this level of destruction to the area.
Angela Metcalf	Spartanburg, SC	2015-08-01	I have a vested interest- friends and families property to be destroyed.
Amy Cole	Waxhaw, NC	2015-08-01	We have to stop destroying everything beautiful in the name of modernization and forward progress!
Lauren Laughlin	Saint Petersburg, FL	2015-08-01	I own property near one of the proposed paths. It provides habitat for bear, fox and blue ghost firefly.
Patrick Cole	Waxhaw, NC	2015-08-01	I'm signing this because it encroaches on my great aunts property.
Rita Seymour	Forest City, NC	2015-08-01	It's time for Duke to pay attention to the people it serves.
Debra Pendleton	Saluda, NC	2015-08-01	I live here. I do not want my beautiful county raped.
william ardis	Hendersonville, NC	2015-08-01	economic and environmental
Holly Johnson	Charlotte, NC	2015-08-02	save the earth
Roger Davis	Flat Rock, NC	2015-08-02	If one of the main proposals of this project goes through my parents & many of their neighbor's homes will be taken. Stop these horribly unsightly & destructive plans before they claim vast amounts of homes! Between this ghastly project & the numerous cases of coal ash spills, Duke has done enough to destroy our state!
Lavon Dickey	Boiling Springs, SC	2015-08-02	I'm signing because this effects the lively hood of many friends of ours. It takes away the beauty that God provided us of the mountains. Build a plant in Asheville for them.
Joyce Shields	Flat Rock, NC	2015-08-02	You are destroying my home. You need to go underground or reroute.
Frank Dolley	Houston, TX	2015-08-02	We go their every year and stay at the farm
Donald Saunders	Blowing Rock, NC	2015-08-02	I'd rather have wind farms and solar panels to look at!
Laura Johnson	Landrum, SC	2015-08-02	Route 4 will cut across beautiful rolling hills and near the Greenville Reservoir.

Name	Location	Date	Comment
Todd Riggs	Whitefish Bay, WI	2015-08-02	I've been coming up to the "First Peak" for over 30 years--after watching what happened on nearby Chocolate Drop Mountain (clear cutting followed by landslides after it rained) I cannot believe anyone is considering more clear cutting up any of the mountains in the area.
Jean Carter	MILL SPRING, NC	2015-08-02	Information received & read in our small Tryon Daily Bulletin. Polk county is a very small rural county & we do not need these cluttering our scenic views in the foothills of WNC.
Amy MacDonald	Mills River, NC	2015-08-02	I oppose the idea of defacing more of our natural beauty in WNC with power transmission lines.  Please ADD the Mayor of Mills River NC and the Mayor of Hendersonville NC to the petition.
Mark MacDonald	Mills River, NC	2015-08-02	I oppose the idea of adding more power transmission line towers to our landscape. Duke proposes to run these lines through residential areas, farmland and through untouched forested areas in our mountains. We chose to live here because of the natural beauty and not to stare at monolithic structures with power lines strung between them.
Anita Schulz	Campobello, SC	2015-08-03	Your Duke Energy proposed money making infrastructure expansion, will intrude on my rights as a land owner and resident (decreasing my property value). I have lived here for over 30 years and have never infringed on the rights of others just to benefit myself. I do not want any changes or dangerous transmission lines being run through my land and cutting down my trees and destroying my privacy just to make you more profit. My family bought it and worked hard to pay for it and you should not have the right to destroy or change my property. Why would I be happy for you to come on my land and without a second thought proceed to negatively deface my property with no regard to improving the environment and our health. What if I were to go to your home or land and just inform you that I was going to run big, ugly, dangerous power lines in front of your porch. Of course to do this I would also hack up your land and destroy the homes of all the wildlife you love to watch and remove all the trees that give you privacy and peace and safety and freedom for your animals and grandchildren. Then early in the morning and in the evening at the end of your day you could sit on your porch and look at all the neighbors houses and the ugly transmission lines. Sorry but your birds would be gone and the deer and rabbits and all your privacy and quiet peace. No more gardens for your organic vegetables because the power lines are too close and it would not be safe. I am also sure you would love listening to the noise and breathing the dust as you watch your family home and memories totally destroyed and changed forever! Maybe I will just decide to seize your property..... Is this the future you have always imagined for yourself? Will you welcome me with open arms and just smile and quietly watch as I totally change your life so I can collect the profit? Why would any thinking person vote for this? I am very opposed to this expansion! NO! MY VOTE IS NO!
Angel Mitchell	Tryon, NC	2015-08-03	The damage this will do to our community is devastating. Both the health issues as well as the aesthetics. Please figure out a different plan. Why can't lines be buried?
Patti Lovelace	Tryon, NC	2015-08-03	There a plenty of other places to put this thing!!
Maureen Collins	Tryon, NC	2015-08-03	Less than a year ago I moved here because the land was picturesque. Don't spoil its natural beauty by installing power lines within our county limits. Find alternative outside our counties.

Name	Location	Date	Comment
Allison Rhyne	Goose Creek, SC	2015-08-03	I have a second home in Saluda, NC and am also an equestrian who values the beauty of the open land and trail system in the area. The proposed modernisation plan will be damaging, if not fatal, for the equine economy of the region.
kandice baehser	Landrum, SC	2015-08-03	I live in the mountains of blue ridge and i know how much i love my beautiful mountian views so i would hate to see anyone else have that taken away from them. Duke needs to think about more than just themselves, since they are basically the only power company around they think they can do whatever they went so the people need to make a stand!!
Tina Gragg	Export, PA	2015-08-03	This project will ruin the aesthetic appeal of our area and by extension the lifestyle that residents enjoy and the reason this area is such a popular tourist destination. The financial impact of losing tourism and new residents will be debilitating within a very short time. Those who still live here will not be able to sell their properties because of these towers. Find an alternative to these towers.
Wendy Wipperman	Bartonville, TX	2015-08-03	I am purchasing a property in Polk County for its natural beauty, views and access to CETA and FETA trails but am concerned how the high power transmission lines could impact my proerty values.
jenny gardner	hampton, CT	2015-08-03	Don't ruine the future for equine business in NC!
Ted Gage	Spartanburg, SC	2015-08-03	This project as presented will harm the beautiful mountains we have. Duke should find an alternative such as underground.
Martha Love	Mill Spring, NC	2015-08-03	I am signing because this project threatens to implode my life now and in the future through the destruction of the environment around me and the dramatic erosion of ny property values.
Sandra Cooper	Columbus, NC	2015-08-03	I retired here for the beauty and peace after witnessing what "modernization" did to Fort Worth, TX. I'm appalled that it might happen here, and worried about what will happen to the value of my new home.
Suzi Smith	Lake Lure, NC	2015-08-03	I do not want Duke power to ruin our horse industry!
Donna Pool	Travelers Rest, SC	2015-08-03	To save our horse country from environmental and economic ruin
Kathy Woodham	Inman, SC	2015-08-03	I'm a property owner and Duke has ruined my pasture through the years. I have called to complain and never never received any response for any person-I work in beautiful Polk County and will fight to keep it that way!!!
Marianna Wilson	Columbus, NC	2015-08-03	I live in Polk Cty.
Kim Adams	Clyde, NC	2015-08-03	This is where I live. Most of us moved here for the beauty and quality of life.
Carol Parker	Rutherfordton, NC	2015-08-03	The proposed power line will be extremely detrimental to our area.
Kia Harvey	Campobello, SC	2015-08-03	The eyesore of these towers will ruin the value of property
Baxter Ragsdale	Columbus, NC	2015-08-03	desecration of Indian burial grounds on White Oak Mountain
Jane Stone	MARIETTA, SC	2015-08-03	We need to keep our mountains and land pristine.
M Hancock	Tryon, NC	2015-08-03	I don't want it close to my property
Vicky Jackson	Delmont, PA	2015-08-03	This will be a blight on our beautiful, scenic area. Let them build it near Asheville if it is to serve that area!
Jerry Bowles	Travelers Rest, SC	2015-08-03	Because it will ruin the land, destroy tourism. Run off unfiltered silt will polite our streams and rivers, and it will destroyer our property values
Joyce Bobich	Travelers Rest, SC	2015-08-03	It is a travesty to cut through this scenic treasure
William Coker	Travelers Rest, SC	2015-08-03	there must be a better option than bulldozing thru pristine mountains and upscale communities.

Name	Location	Date	Comment
Julie Burke	Tryon, NC	2015-08-03	The power lines are unsightly, bad for the environment around them and bad for the health of the people and animals who live near them. If this project runs through Polk it will negatively affect property values for the whole county. There must be better options than a line of 140' towers a lines cutting a permanent and ugly scar through the middle of our beautiful mountains. Surely it can be worked out to have the lines follow the highway or make use of lines and towers already in place. Please require Duke to be good neighbors and not build something that will ruin it for the rest of us.
Linda Dickinson	Landrum, SC	2015-08-03	I am totally opposed to Duke Energy's proposal, which would absolutely devastate our neighborhood. Nearby, there are existing towers that could be upgraded or replaced, versus the destruction that would be perpetrated upon both wildlife and property, should new clear cutting and tower installations be constructed.
Alex Whitley	Greenville, SC	2015-08-03	More costly to put under ground, but the cost affecting the beauty of our mountains is even more.
Mary Jane Marrazo Marrazo	Travelers Rest, SC	2015-08-03	Route 4 is a poor choice.
Libby Kilroy	Sneads Ferry, NC	2015-08-03	My husband and I own vacation property (7 acres) in Lake Adger. We purchased the land because of the beauty that surrounds it and the fabulous views of the rolling hills around us. This powerline would be devastating to the property values around the Lake Adger area. There must be another way - like buried lines!
Adrienne Dekay	Asheville, NC	2015-08-03	I grew up on pace mountain road in saluda nc. My parents home and farm will be terribly affected by this project. They have lived there making a home for 30 years
michael Robinson	Travelers Rest, SC	2015-08-03	I'm signing because Duke will ruin the lives of many people let alone destroy the beauty of the upstate
rebecca robinson	travelers rest, SC	2015-08-03	I'm signing because there are easier, shorter and much less disruptive ways for Duke Energy to provide energy to Asheville, NC than by going through one of the prime communities in North South Carolina. Route 4 would inconvenience hundreds of people who moved to N. SC for its native beauty, not to see energy towers out their windows!
pernilla dale	TRYON, NC	2015-08-03	Please don't do this to our beautiful area. Burying the line seems more reasonable.
Catherine Schwartz	Landrum, SC	2015-08-03	These power lines will have a huge negative impact on the environment and our foothills.
Peggy Lyons	Tryon, NC	2015-08-04	i am against this project by Duke to permanently scar the landscape of Polk County.
Barbara Claussen	Bridgewater, Canada	2015-08-04	I would be living very close to it and see the dramatic environmental and economic impact this would have!
Rita Turk	Flomaton, AL	2015-08-04	if this is important to lynn it's important to me
Michael Atkins	Campobello, SC	2015-08-04	This will ruin our property values and view of the most beautiful mountains around!
suzanne konefal	Vass, NC	2015-08-04	Find a different way that doesn't disturb the beautiful countryside
Dee Ivins	Greenville, SC	2015-08-04	I believe in the preservation of our forests.
Bernadette Brackett	Fletcher, NC	2015-08-04	I don't want to see these monstrosities threw my yard or anywhere else in these beautiful mountains. Hey Duke Energy don't you care what we think or what we want!

Name	Location	Date	Comment
Frederick Steif	Travelers Rest, SC	2015-08-04	We retired to The Foothills at great expense and after long and careful consideration. The wonderful lifestyle that now exists would be undone were option number four to be selected by Duke Energy. Additionally, the considerable investment we made with a large part of our retirement savings would be savaged were Duke to proceed with the "modernization" project.
john dutra	Flat Rock, NC	2015-08-04	we do not want the power lines near our home
Raj Chandramohanan	Fletcher, NC	2015-08-04	One of the proposed study lines go 300 feet from my property and I have small son; worried about health concerns. I live in a neighbord and there are lot of houses which border this new studly line and are worried about the imminent depreciation in propery values (big financial loss).
Polly Glover	Landrum, SC	2015-08-04	We need to STOP Duke Power from coming through our area and destroying Landrum as we all know and love.
Tracy Barton	Fletcher, NC	2015-08-04	Health concerns. Property depreciation. Etc.
Trina Stokes	Flat Rock, NC	2015-08-04	My brand new home falls right in the path of one of the proposed lines.
Marcie Carnes	Fletcher, NC	2015-08-04	I don't want power lines by my neighborhood!
Dortrue Reese	Fletcher, NC	2015-08-04	I am not in favor of this going through my neighborhood and destroying the beautiful nature that God gave us to enjoy. Health reasons also.
Nick losue	Fletcher, NC	2015-08-04	Our neighborhood, River Stone on Butler Bridge Rd, is full of children. We already deal with being in the direct flight path of the Asheville Airport and next door to a dairy. The negative effects of huge transmission lines to both health and property are too large to ignore. Please don't do this to us just so you can make more money.
Ann Allen	Columbus, NC	2015-08-04	The electric company should bury the lines along the old unused railway tracks. Half the work is done already!
Tamara Amin	Fletcher, NC	2015-08-04	Dont want it
Chelsea Clark	Fletcher, NC	2015-08-04	I'm signing because I love my neighborhood and the beautiful houses of Livingston farms! I want to start my family here and these changes causes potential dangerous conditions for my children! I love the scenic beauty that surrounds our neighborhood. Lastly, it will decrease the property value of our home when it comes time to buy a bigger house due to growing family!!!
RAYMOND WHITEHEAD	Landrum, SC	2015-08-04	One of the routes will destroy the value of my home
Walter Pepperman	Middletown Springs, VT	2015-08-04	We are devastated at the concept of having transmissions lines right in the area that we see all day, every day, since we moved here in January of this year. We are so disappointed that we bought this property just in the timeframe of your transmission line modernization which will result in a gutting of our peaceful mountain view and the flourishing of our equine operation. We retired and moved here from Vermont where landowners and their appreciation of the land means something. It appears that we have made a grievous mistake. There has to be an alternate more feasible plan available. How could this be happening?
Mireille Thompson	Brevard, NC	2015-08-04	I want to protect the integrity of my children's health and wellfair. This project is not good for them
Charles Thompson	Fletcher, NC	2015-08-04	Children
Mi Thompson	Brevard, NC	2015-08-04	Not healthy for children
Daniel Giguere	Fletcher, NC	2015-08-04	Visit my grandchildren in WNC frequently and am concerned for health
Jeff Neelands	Fletcher, NC	2015-08-04	I'm signing because I don't this running through our neighborhood messing up our beautiful views and the possibles hazards to people. Also for all the disruption caused by installing this and property values decreasing as well.

Name	Location	Date	Comment
Michael Riley	Fletcher, NC	2015-08-04	Too close to major neighborhoods.
Tonya Marthaler	Mills River, NC	2015-08-04	Because it comes very near to my residence.
Annette Reals	Inman, SC	2015-08-04	I ride my horses here!!
Elaine Jenkins	Tryon, NC	2015-08-04	This would be a blight on our beautiful area.
Catherine Jenkins	CA, CA	2015-08-04	I have seriously considered moving to NC but the state's reliance on dirty energy is one of the things holding me back. Humanity's future depends upon clean energy!
Tracy Caminiti	Fletcher, NC	2015-08-04	I don't no want the visual effects from towers depreciating the value of my home and the visual effects.
Melissa Strong	Asheville, NC	2015-08-04	The proposed line is directly behind my home, which is abundant with wildlife and farmland. I have children and pets and do not want this anywhere near my home or neighborhood.
Susan ReMine	Fletcher, NC	2015-08-04	As a resident of Fletcher, NC, the negative implications for my health & my property are too many to list here! Why not use the current psthway & update it as necessary?
Jeff pittman	fletcher, NC	2015-08-04	WNC doesn't need unsightly power lines ruining our mountains. Please find a better way.
Chris Rose	East Patchogue, NY	2015-08-04	They are destroying private property and lowering land values in places that matter. People matter, not politicians and payoffs for the cheaper solution.
Terry Chandler	Brevard, NC	2015-08-04	The future belongs to our children. If we take away from the natural order, will we be thinking of them? Absolutely not! The Native Americans knew that too.
Charles Clementi	Campobello, SC	2015-08-05	I live in the affected area.
cory taber	Greer, SC	2015-08-05	because i believe that duke energy has no right to take any ones land
Kyle Brown	Simpsonville, SC	2015-08-05	Protect the environment.
Lakshmi Radhakrishnan	Fletcher, NC	2015-08-05	I'm signing due to a number of reasons like the risk of potential health and safety concern, property value depreciation and loss of the beautiful mountain view , construction noise etc to name a few.
Randy Blackwell	Inman, SC	2015-08-05	I am signing because this could affect my Dads Land...
Amber Heintzberger	New York, NY	2015-08-05	My parents have a horse farm in the immediate area that this will affect, and I want my children to be able to enjoy the unspoiled beauty of the Carolina Foothills. This needs to STOP.
Jasmin Poor	Greenville, SC	2015-08-05	I used to live in Tryon. We need to preserve the beauty!
Joellen Chriss	Canton, GA	2015-08-05	Corporate companies are destroying everything that's supposed to be left for our children ,grandchildren all for greed
Bruce Paynter	Campobello, SC	2015-08-05	I live hear and don't want another eye sore to look at.
Miriam Zook	Fletcher, NC	2015-08-05	The lines will cut right next to the neighborhood I reside in.
Ian Griggs	Miami, FL	2015-08-05	I'm signing this because I am from this area of the country and my family still call it home. This project would be devistating to the beautiful landscape that makes this area such an important part of the Carolinas and our country.
Kristen Billiu	Campobello, SC	2015-08-05	I live here. I'm raising a family here. I value the community and land here. The proposed lines go thru my land. They go thru conservation land. They go thru my neighbor's land. This is Horse Country. We can not allow it to be destroyed by unnecessary Utility Bullies who have zero respect for the environment. I refuse to have my ground water polluted with chemicals that will poison my well. I refuse to be displaced from my home. And I refuse to have my property destroyed. Duke and and should find another way.

Name	Location	Date	Comment
Marc Israel	Campobello, SC	2015-08-05	Environmental and visual effects from this project.
Hope Griggs	Charlotte, NC	2015-08-05	Please don't put this on our families farm on N pacolet Rd!
Hannah yeargain	Lyman, SC	2015-08-05	This is my home
Doug stachura	Fletcher, NC	2015-08-05	I live in the area where the lines will be and currently have a unabstruted view of the mountain range. We will be looking to sell our home in a few years and this will definitely hurt our property value.
Harry Johnson	Murrysville, PA	2015-08-05	There has to be a better way.
Donald Kaspar	tryon nc, NC	2015-08-05	There MUST be better options,run the lines under ground.this sounds like a RUSH job to get it running as fast as possible.THINK about the people for once.
Roberta McKinney	Campobello, SC	2015-08-05	I am signing because this will run through my property and will ruin my health, property values, and my life.
Madison Siegfried	Mill Spring, NC	2015-08-05	I love where I live, and our environment should not be tainted for mere profit!
Tristan Cheek	Fontana Dam, NC	2015-08-05	say NO to duke energy foothills project and NO to proposed route 17B
Suzanne Haley	Columbus, NC	2015-08-05	No to this project. Can you not follow roads that already exists? Why would you ruin the scenery/landscape driving up I-26....Looking up to pristine mountains now to steel and wires after the lines are installed. I say NO to this project that will not only ruin the landscape but ruin peoples property too.
Phillip M. Eskew	Campobello, SC	2015-08-05	It will ruin the Upstate SC natural environment
Jo Hinson	Hendersonville, NC	2015-08-05	I believe Duke is looking out for its own pocket in expanding its power plant, going over our beautiful mountains without regard for the people or environment. If they were able to put underground utilities in other areas of the state, they could do it here, but it will cost more. Not that they haven't had their highest earning years in the past 10, and could well afford it. Henderson County does not benefit from this at all.
Laurie Powell	Landrum, SC	2015-08-05	We don't need Duke ruining our landscape!
Randall Boggs	Mills River, NC	2015-08-05	Preserve our area's natural beauty
sharon coughlin	boonton, NJ	2015-08-05	i lived in NC and loved the beautiful mountains, forests, fields, and loved all of the horse farms. this is a shame. please respect the landowners and do not build a power line through their properties!
Terry Walker	Landrum, SC	2015-08-05	This is a disgrace to our community
Craig Nowokunski	Travelers Rest, SC	2015-08-05	The project will destroy the area which most of us moved to because of its beauty, nature and environment , particularly Route 4
Christina Turner	Landrum, SC	2015-08-05	i do not want these power lines in my front yard!!!
terry connell	Greenville, SC	2015-08-05	Capitalism is corrupting our world. I will not stand for this devastation to our scenic parkways and beautiful forests. Especially not to line the pocket of share holders.
Judy Burnett	Tampa, FL	2015-08-05	Because it affects my child's family home and the yard where my grandchildren play
Paula Church	Fletcher, NC	2015-08-06	I am worried that putting a power line near a neighborhood with over 400 homes will affect the value of our homes. Also it's a health risk for all the people in our neighborhood.

Name	Location	Date	Comment
Bailey Farrin	Saluda, NC	2015-08-06	<p>My family's property (section 8a) would be destroyed by the construction and presence of these towers. This tract of land is a private preserve and has been guarded for several generations to preserve its pristine nature. Wildlife and flora, such as bears, turkeys, the northern long-eared bat, the dwarf flowered heartleaf, the small whorled oregonia, and the white irisette (an endangered plant) flourish on these undeveloped acres, which have been an honor for this family to preserve.</p> <p>According to Duke officials at the public information sessions, section 8a is a preferred target because it is undeveloped. No homes equal an easier route for Duke to negotiate, and that decision is deplorable. This family will be penalized for trying to do the right thing and help preserve the beauty and health of this area. Your "enhancements" will decimate the intrinsic value of this private preserve, and will cause possible contamination of wetlands and neighboring areas that the streams feed, such as Lake Summit.</p> <p>written eloquently by Sally Spencer, posted by Bailey Farrin her sister</p>
April Macary	Columbus, NC	2015-08-06	Spend the money on environmentally friendly power options!
margaret gaffney	Charlotte, NC	2015-08-06	I embrace the beauty of the mountains and the Foothills. Please leave us alone
Rose Johnston	Saluda, NC	2015-08-06	This proposal will destroy the natural beauty, the habitat for animals and birds, the land value, the lifestyle that has been protected and cherished.
Troy Nowokunski	Travelers Rest, SC	2015-08-06	I am a resident of upstate South Carolina and this project will devastate my home and the life my family has worked so hard to gain.
Jan Onan	Hendersonville, NC	2015-08-06	Bring it up I26. There is no urgency to this project. Other options need to be explored. Our land, our health, is too valuable to go forward with this as it is planned.
Holly Gilbert	Hendersonville, NC	2015-08-06	I want to keep the beautiful mountains I was born and raised in kept protected from these kind of things there are so many children including mine that would be living under these I don't agree with duke
Elizabeth Maiche	Saluda, NC	2015-08-06	I do not want the visual resources of WNC destroyed.
Sherrie Waldrup	Fletcher, NC	2015-08-06	I do not want to see our beautiful view taken away from us. It will take away from the value of my home
Georgia Wright	Taylors, SC	2015-08-06	I live in the area and I moved here from Georgia specifically for the beautiful untouched land and views.
tom virbickis	sykesville, MD	2015-08-06	we are planning to retire in Hendersonville and are in the process of buying a lot in Cummings cove. if the powerlines are approve we will no longer consider Hendersonville or the surrounding Asheville area as a retirement destination
Mary Carloss	Whitefish, MT	2015-08-06	I care about the land, and wildlife. There are other areas to place these power lines. Duke, please do the morally and ethically right thing.
Warwick Spencer	Spartanburg, SC	2015-08-06	I oppose the Foothills Transmission Line because there are alternate, existing routes and towers that could be used that wouldn't spoil the natural beauty around Saluda and Flat Rock.
Rita Hyder	Landrum, SC	2015-08-06	We do not want this coming within 500 ft of our property. Go along the road way and bury it underground stay in Nc and fix their problem.

Name	Location	Date	Comment
Jennifer Zinke	Travelers Rest, SC	2015-08-06	Route 4 would go right through a large community of wooded upscale homes hidden by large trees in an area with clean streams and waterfalls. The Stone Creek Waterfall will surely be impacted as well as the streams. Why put these large power lines right through a neighborhood like this impacting property values and therefore tax revenues and destroying the backyards of people who thought they were buying with the untouched forest in their backyards. There are more homes than you realize in this community, The Cliffs Valley, because they are hidden away in the trees. That is the way it was intended so as not to disturb the natural look of these beautiful mountains. Please don't put big power lines right through it and change this beautiful environment we became a part of. Thank you.
Bonnie lipomi	Travelers Rest, SC	2015-08-06	I live along this route! The impact to environment, property values, local revenues would be devastating. This is a NORTH CAROLINA company with deep pockets impacting the states of both North and SOUTH CAROLINA in a VERY NEGATIVE way!! NEW lines should be buried NO MATTER WHERE THEY go!!
rick ohrstrom	tryon, NC	2015-08-06	It will destroy irreplaceable views and can be placed elsewhere where the views are already impaired
Gail Lionetti	Columbus, NC	2015-08-06	Duke Energy's plan will destroy the beauty of our area, and have devastating impact on property values.
Kathleen Malone	Landrum, SC	2015-08-06	I don't want to see our beautiful foothills destroyed and defaced.
Patricia Knaggs	Fletcher, NC	2015-08-06	Duke can use other options. If not, they can use areas that already have large power lines through them not destroy anymore of the mountains!
Duane Cannon	Hendersonville, NC	2015-08-06	Health concerns unsightly towers in the beautiful my a of nc
Mary Reeves	Hawkinsville, GA	2015-08-06	This Duke infringement upon rural properties is going to drive away potential newcomers and those of us here are going to see a decrease in property value
Fran & Steve Ivester	Landrum, SC	2015-08-06	We are building in this area and in the process of spending a large amount of money. This will affect our neighborhood, which is an equestrian neighborhood and these people have also invested quite a large amount of money in pastures/barns in order to be away from high poles with lines running through them. Please do not let this project go through our area! Thank you!!!
Rick Viehman	Tryon, NC	2015-08-06	I'm opposed to the Duke Energy plan.
Bonnie Tillman	Columbus, NC	2015-08-06	I believe what Duke Power is doing regarding power lines is detrimental to Polk County's natural beauty. We don't use Duke Energy where our home is located and see no reason why they be allowed to destroy the area. We are more than happy with current electric company. Please don't let Duke Energy do this!
June Uhler	Spartanburg, SC	2015-08-06	In 2007 Buncombe County. derailed the Progress Energy's plan for a new power plant. NIMBY , now SC ?
Miriam Hughes	phoenixville, PA	2015-08-06	I am signing because I do not want to lose the beauty or the economy of our area. There are alternatives Duke - use them!
Erin hendrix	Hendersonville, NC	2015-08-06	the power lines will run right next to my house! I have two small children and don't want herbicides and power lines in my backyard to poison my children.
Ron Hurd	Travelers Rest, SC	2015-08-07	It is not fair
Susan Welsh	Saluda, NC	2015-08-07	It is a travesty to deface our beautiful mountains and that will have an irreversible and extremely negative impact on our tourist based economy. Duke should be putting its efforts into sustainable energy that honors are precious environment.

Name	Location	Date	Comment
Danielle Holtz	Asheville, NC	2015-08-07	This is ridiculous and will tear lives apart...think of the people over the profit for once. Please.
Kelly Brinkley	Saluda, NC	2015-08-07	I'm signing this petition because this project will impact me and my family personally. One of the possible routes will have a detrimental effect on my family's farm that has been around over one hundred years! This land that has been passed down from generation to generation, in which an unimaginable amount of countless hours, countless days have been put into preserving and producing a sustainable piece of land. It breaks my heart to think it will soon be destroyed! You will take so much away from these hard working people: a family farm, a way of earning a living, a way to provide for a community! Not to mention the childhood memories and family heritage that Duke Energy could never replace. You can't put a price tag on that kind of stuff! Please for once, hear out the little guy! Consider all the lives this decision will impact. I challenge you Duke Energy to come up with other solutions that will not affect so many.
Roxanne Jones	Rialto, CA	2015-08-07	The planet doesn't need 50 miles of power lines. Build your station closer to where the power is needed
Susan Alexander	Sanford, NC	2015-08-07	I'm signing this because I care about the woodlands in our mountains.
Nathan McClain	Greenville, SC	2015-08-07	This Project would be devastating to our family who resides just 300ft from this proposed route. There is an existing route that could and should be utilized. Existing infrastructure should be used here. The natural environment of White Oak Mtn and the foothills is precious and should be protected not stripped away with an unearthly scar.
Tara Ponting	Carrollton, MO	2015-08-07	I'm signing this because my family lives on that mountain, it's a beautiful country side and it deserves to be left in its natural state. Modernization isn't the key to making things better; our nation, world really is dependent upon the steps we take toward preserving what's left of the natural habitat.
Marc Rosen	New York, NY	2015-08-07	The existing route should be utilized, as to not displace the families that will be bulldozed over for the new route.
Kristin Costello	Virginia Beach, VA	2015-08-07	I'm signing because if this action takes place it will not only ruin the mountains but the community within them.
Otha Horne	Landrum, SC	2015-08-07	If this is a must for all then an expansion of the existing high voltage rights of way would better serve our communities and preserve our pristine hills and have less affect on property values
Candace Rhodes	Fletcher, NC	2015-08-07	It's my right and family's right to value our land
Vicki Pitman	Bradford-on-Avon, United Kingdom	2015-08-07	I'm signing because I am a native S. Carolinian and still own property in the state. I fee this is an unnecessary development for Duke and is not based on delivering energy where it is needed but on purely internal financial drivers within the company.
Rena Burnette	Duncan, SC	2015-08-07	I will be living over there again soon. The main reason I love it is because of the natural scenic views. Not power poles, lines, etc...
Amanda Freer	Atlanta, GA	2015-08-07	We have a family home in this area and I care about the environment!
Joelle Kittrell	West Columbia, SC	2015-08-07	The mountains are one of the few beautiful, untouched areas in America left. To "modernize" something beautiful for the sake of larger companies making more money is not only shameful, but it's slowly destroying the few places of relief from the crazed modern world we live in. People living in these areas or even those that visit them should not have to pay the price for an unnecessary billion dollar company's desire that has little regard for what cultures, communities, and landscapes it disfigures. When are the people's opinions and rights ever going to outweigh money hungry corporations?

Name	Location	Date	Comment
Shannon Scott	Columbus, NC	2015-08-07	I am CONCERNED!!!
Ann Cook	Inman, SC	2015-08-07	This is a land grabbing money hungry project.
Kami Schmitt	Marietta, SC	2015-08-07	I'm signing to protect the land this plan would devastate. Why isn't Duke using the already established power lines they can link to, considering these projected lines wouldn't even be servicing most of the area it would be destroying.
Bill Howard	Export, PA	2015-08-07	My mother has a pace maker that will be effected by where the lines run ! They will be with in 30 yards of her house !
Kathi Miller	Columbus, NC	2015-08-07	I don't want power lines to be run behind our house.
Douglas Morris	Columbus, NC	2015-08-07	it is causing stress for our community
Tony Lancelot	Travelers Rest, SC	2015-08-07	The Duke Energy transmission lines will ruin the beautiful environment of the Blue Ridge foothills. There has to be a better way.
Carl Glick	Greenville, SC	2015-08-07	With a photo-voltaic system on our own homes, we would not need to stretch power-lines across the beauty of this country!
Mckenzie Sherman	Simpsonville, SC	2015-08-07	I don't want the view to be tarnished
Marcela Jimenez	Arden, NC	2015-08-07	I am signing because I care.
frances lancelot	Travelers Rest, SC	2015-08-07	The towers and lines would be a terrible eyesore in a beautiful area.
Sonny Southerlin	Bessemer City, NC	2015-08-07	Duke should not be allowed to ruin the mountain scenery.
Lynne Jenkins	Atlanta, GA	2015-08-07	I vehemently oppose Duke Energy's Foothills Project to the detriment of our properties, our land values, our view, our health.
David Tarpley	Orlando, FL	2015-08-07	Stop Duke Now from ruining the beautiful mountain scenery
Carrie McKenzie	Tampa, FL	2015-08-07	I'm signing because I want to stop Duke energy from destroying the Carolina's irreplaceable views of the mountains. I want to make a difference by preserving are natural resources and to tell Duke energy hands off!
Kathy Searcy	Columbus, NC	2015-08-07	I don't want to lose the beauty my family has enjoyed for over two hundred years.This is our home, and I want my grandchildren and great grandchildren to have the opportunity to live in the peace and beauty God blessed us with.
Kimberly Miller	Landrum, SC	2015-08-07	I'm signing because I live next to some of these lines and they are horrific !
Kimberly Lance	Fletcher, NC	2015-08-07	I think people should have a choice whether part of their property is taken from them with no compensation!!!! NO ONE should be able to just take someone's land!!!!
Walden Searcy	Columbus, NC	2015-08-07	I don't agree with this at all nor the fact of ruining,taking people's land to serve your purpose.
Bill Robinson	Landrum, SC	2015-08-08	One of the proposed routes is right in front of our farm.
Rittina Robinson	Landrum, SC	2015-08-08	proposed route is in front of our farm and runs right over the house of a friend.
Grant Robinson	Landrum, SC	2015-08-08	don't want to look at it right outside our door.
Steven Dejonckheere	Campobello, SC	2015-08-08	This is ridiculous.
Barbara Houston	Inman, SC	2015-08-08	I don't want this beautiful scenic highway messed up with ugly power towers. We don't that mess on highway 11.
Tim Lyon	Travelers Rest, SC	2015-08-08	1) Duke Energy has not demonstrated the need for additional capacity. 2) If additional capacity was needed, they should use existing lines with no new right of ways.3) The proposed new lines would severely damage the pristine foothills environment.

Name	Location	Date	Comment
Sue Crotts	Greensboro, NC	2015-08-08	Duke has caused more than enough damage to our states natural resources. Please make them stop this!
Jennifer Simpson	Lyman, SC	2015-08-08	I come to Hendersonville quite a bit. I would hate to see the beautiful mountains tainted by Duke Energy
Nikolina Hansen	Seneca, SC	2015-08-08	We are building a home in Polk Co NC Duke has this huge lines cutting all though upstate SC and Western NC. They already have a right of way that they could follow and add these new lines to
Jeremy Sullivan	Willow Spring, NC	2015-08-08	I do not believe it necessary to ruin the aesthetics of our beautiful county for the sole purpose of a "backup" system.
Lee Grounsell	Zirconia, NC	2015-08-08	It will destroy pristine areas of the mountains.
Kathe Burklow	Mill Spring, NC	2015-08-08	This project will endanger the health of the people and animals in the path of this devastation to our natural resources.
Carolyn O'Sullivan	Campobello, SC	2015-08-08	We have friends in theses areas and it's not fair to them and their horses. One is Meadow Brook Farm.
Rose Hayes	Aiken, SC	2015-08-08	There is no demonstrates support for Asheville's need of this power. It will be local real estate value and environmental disaster.
Anthony Rossi	Greer, SC	2015-08-08	Duke needs to listen to the people of the area
Natalie Snow	Greenville, SC	2015-08-08	I'm signing because I enjoy the mountains and the scenic hikes. We should persevere as much as we can now before my children grow and have to visit a museum to learn about trees!!!
Debbie Noland	Campobello, SC	2015-08-08	This is where I live and one route is next to my property.
Henry Sibley	Columbus, NC	2015-08-08	I don't trust that Duke has explored less disruptive options to increase the availability of electricity in the future.
Mary-Lu Bonte	Campobello, SC	2015-08-08	***Willful and capricious*** were the words used to DEFEAT a similar Duke project in Simpsonville, SC
Wendy Czikra	Blanchard, OK	2015-08-08	I am signing because the lines could be buried without causing harm to the environment and people lives. Do what is right Duke energy...
Edward Kan	Columbus, NC	2015-08-08	The Duke energy project will have great negative effect on the local economy and quality of life.
ralph jenkins	atlanta, GA	2015-08-08	This project would be a disaster for our NC and SC communities.
STEPHANIE SABATINI	Fletcher, NC	2015-08-08	One of the proposed routes will go right through my neighborhood.
tom Burklow	Mason, OH	2015-08-08	.
Susan Goldy	Travelers Rest, SC	2015-08-08	The proposed route 4 will destroy the value, beauty and environment of Travelers Rest and Landrum communities.
Monica Stevenson	Tryon, NC	2015-08-08	I am against the installation of the Duke Energy sub station and the accompanying towers and lines in the Campobello/Tryon region
BEN COX	Columbus, NC	2015-08-08	I care about the environment in which I live
Craig Kuhlman	Travelers Rest, SC	2015-08-08	Route 4 is environmentally damaging to acres of trees and pristine area.
Linda Leeper	Travelers Rest, SC	2015-08-08	This line will deface the beautiful mountains that bring so much enjoyment to many!
Jennifer Smith	Simpsonville, SC	2015-08-08	I'm very concerned about the environmental, as well as the economic, impact to the area. I frequently travel to and horseback in the area. This is a beautiful area that would be ruined by these lines.

Name	Location	Date	Comment
Robert Leeper	Travelers Rest, SC	2015-08-08	This project will ruin a beautiful environment wherever it is located and may, if the "wrong" route is chosen will decimate the value of my home, probably make it uninhabitable.
Yvonne Bohan	Travelers Rest, SC	2015-08-08	Duke have a poor track record and I do not want to see the Foothills "destroyed".
Karen Peter	Travelers Rest, SC	2015-08-08	they need to use existing lines! Do not further disrupt our beautiful mountains.
Scott Spiezie	Travelers Rest, SC	2015-08-08	It would dramatically decrease valley of our property.
David Ashworth	Travelers Rest, SC	2015-08-08	I totally am against this proposed project which will be ablight on some of the most beautiful pristine land in the country
Jacob Howard	Landrum, SC	2015-08-08	Why are we trying to ruin a perfectly good place?
Meghan Oneal	Arden, NC	2015-08-08	I don't want the beautiful mountains ruined by fracking.
Tom Peter	Travelers Rest, SC	2015-08-08	devastation of pristine environment. ruination of property values and economic destruction of a vibrant community
Sheila Garrick	Greenville, SC	2015-08-08	It is stupid to take power lines through beautiful rural farms when you already have an existing right of way. Use what you already have . . .scrap the idea all together.
Michael Knopf	Travelers Rest, SC	2015-08-09	The Duke proposal #4 will have a deleterious effect on the environment in the mountainous regions of the cliffs. It will harm some of the protected animal and plant life. It will create disastrous economic conditions within this proposed route.
Heather Starr	Hendersonville, NC	2015-08-09	I know there are better alternatives to what Duke power is doing! The proposed power lines will cause harm to the wellbeing of all that are involved.
Muriel Ring	Zirconia, NC	2015-08-09	Duke Power's proposed project will adversely affect the health of our community, our wildlife, and the beautiful Earth with which we are blessed. It is beyond comprehension why Duke Energy would choose to dump any financial resources into such an archaic form of energy production when so many viable, more cost effective, and efficient forms of "green" energy models exist and are currently in use within many other countries successfully sustaining the well-being of the environment and their people. Simply because Duke Energy does not want to acknowledge the well-documented adverse health effects of these towers is, in itself, a grand indication of their purposeful efforts to continue to poison the American people and Our Earth with the same careless corporate disregard that has led to so many environmental atrocities inflicted by greed and ignorance.
Pamela Lestage	Travelers Rest, SC	2015-08-09	I do not want the power lines going through the Cliffs communities.
Ryan Jank	Mooreville, NC	2015-08-09	I visit Campobello frequently and power lines will ruin it's natural beauty and countryside.
John Lestage	Travelers Rest, SC	2015-08-09	This route 4 proposed will destroy the scenic vistas and devastate well established communities that are important to the growth and tax base in the upstate. This NC Duke initiative destroys much in SC, with little or no benefit.
Alan Jones	Hendersonville, NC	2015-08-09	This just isn't right, plans need to be stopped
Shelle' Nelson	Mill Spring, NC	2015-08-09	I'm signing because I live in this area and community and it would be an awful thing to come through this beautiful country God has blessed us with. There are different routes y'all can make with these lines to supply more power where needed and everyone knows we pay enough money into have it re routed.
Lee Monk	Columbia, SC	2015-08-09	I love Kanuga and the other beautiful mountain areas around it. You simply cannot do this. Hurts too many people and will destroy something beautiful. Stop this!

Name	Location	Date	Comment
Victor Del Pizzo	Hampton, NJ	2015-08-09	I am a lot owner at Red Fox Country Club
Charles Pruette	Tryon, NC	2015-08-09	I believe the Duke engineers are smart enough to design an underground route. They should team up with Upstate Forever. And come to an agreement that's so arcaec Duke can well afford to keep up with modern times. How many of these large lines are in big cities. All are underground. Of course we all like the service from Duke but they can afford to be better citizens and not give us the bully side that they can do whatever a want.
Jamie Davidson	Mill Spring, NC	2015-08-09	I live in Polk County and hate to see our beautiful environment ruined with unsightly transmission lines, not to mention the devastation to wildlife. Develop more alternative methods! The Sun comes up every day, GO SOLAR!
Cristy Stevenson	East Flat Rock, NC	2015-08-09	It's going right through my subdivision.
Janel Kestler	Grosse Pointe, MI	2015-08-09	Imminent Domain ruins lives. Especially those who have worked hard to preserve their retirement.
D. Champagne-Shanes	Only, TN	2015-08-09	It has become more than apparent that we continue to allow Companies, such as Duke to allow to operate under guidelines that no longer serve the States, nor country. Falling within guideline set by EPA, allowences of fault and failure to clean up after damage is done, is the Proof that Duke is not a responsible company. May their history be a factor. No, no Duke you may not continue this practice. Stripping these lands will cause more than damage to folliage, it will set runoffs. These runoffs will flow into nearby streams and rivers. Here we go again with toxins. Will any old mines be filled, unleash toxins?
James Clement	Macomb, MI	2015-08-09	I don't think it's right to "take"people's property.
David Sauer	Landrum, SC	2015-08-09	The proposed new routes as opposed to rights of way already in existence, which are hideous enough, will prove to be an economic and aesthetic disaster to the foothills area.
Michelle Kestler	Sugar Land, TX	2015-08-09	These are people's lives and futures this energy company is toying with. Find somewhere else to go.
Cynthia Ritoch	Mill Spring, NC	2015-08-09	Our animal and plant life deserve protection.
Amber Lister	Greer, SC	2015-08-09	It's awful!
Dean DeAngelo	Campobello, SC	2015-08-09	I'm signing because this area is full of too much natural beauty to be ruined by Duke. I grew up in the area and it would be a shame to ruin it for future generations. I also do not support this because the proposed lines are going to run through the middle of a friend's farm.
Karmen Durbin	TRYON, NC	2015-08-09	I would be directly affected by any of these dangerous modernization projects and I refuse to sit by and allow this to happen.
Deborah Dickerson	Columbus, NC, AL	2015-08-09	This proposal is an ill-considered, unnecessary eyesore that will ecologically and unremittingly (forever and ever) diminish the quality of life within our foothills.
Phillip Brown	Mills River, NC	2015-08-09	This project is entirely unnecessary; it is nothing more than an attempted land grab by Duke Energy and payback for a region that has held it accountable for it's past misdeeds. Duke can expand it's existing rights of way to Campobello to accommodate it's new lines to the Oconee Nuclear Plant should it choose to do so. Let's remind our elected politicians, past and present, that while Duke may seek to control their pursestrings, we- the people- still hold the vote!!!
Harriette Gause	Beaufort, SC	2015-08-09	I'm signing this petition because my family has had property in Saluda since 1906, and I don't want this beautiful landscape scarred and destroyed by transmission lines.

Name	Location	Date	Comment
Daniel Carls	Conroe, TX	2015-08-09	This is not right people work hard to pay for the property they own. There are reasons why they purchased it in the first place. If the energy companies or any company want to construct something they need to go about it the right way. ASK THE OWNER IF THEY WANT TO SELL. If the company wants it they will pay for it.
jane lividini	Houston, TX	2015-08-09	i don't believe this is fair to take property from a family that has worked hard all their life for something and are seniors and duke comes in and ruins their hopes and dreams for something that may help them i believe they could go another way and leave this property alone.
Don Clapp	Saluda, NC	2015-08-09	I am signing because of the damage to the environment and the destruction of scenic view-sheds. Alternative energies are available.
Katrina Killian	Arden, NC	2015-08-09	This would devastate our area.
Hugh and Juanita Williams	Landrum, SC	2015-08-09	We don't want Duke Power to come in and ruin our property and all the beautiful sites we have in S.C. We feel that if Asheville wants more power that they should construct their power lines for themselves in N.C.
Doug Adams	Marietta, SC	2015-08-09	Many of us at the Cliffs have made this our home and wellness is a very important feature that brought us here including the magnificent views living in the foothills and would have reconsidered if these power lines affected our reasoning
Robert Margevich	Marietta, SC	2015-08-09	The line through the Cliffs would be terrible for the environment, an ugly eyesore in an already beautiful location, and financially terrible for The Cliffs today and in the future. route.
Francine gillam	Tryon, NC	2015-08-09	there has to be a better way. Period.
Candice Cooper	Chicago, IL	2015-08-09	A Carolina native!
Linda Few	Marietta, SC	2015-08-09	This is a TRAVESTY and must NOT happen!!!
carol rector	Travelers Rest, SC	2015-08-09	I believe the environment needs protecting from these power lines and that another route would be more feasible.
Wendy Staley	Travelers Rest, SC	2015-08-09	I want to stop DE from putting up towers through the Cliffs communities.
Louise Homstead	Shelburne Falls, MA	2015-08-09	We are also protesting a proposed pipeline in our neighborhood - and we hiked in NC this spring and the beauty and peace of the mountains was broken by a maintenance crew of armored personnel carriers tramping through the mountains - could hardly walk due to the numbers of vehicles and dust. All this for profit? How is destroying any part of this planet profitable?
Michael Harmon	Fletcher, NC	2015-08-09	There's no reason these lines can go underground, use I-26 right of way or re-use existing towers/poles. They are moving in on me, I didn't move in on them.
Vannette Harmon	Hendersonville, NC	2015-08-09	There has to be more unsightly routes that could be used such as I-26, the health concerns to my children are more important than ease of Duke's upgrade, we moved here for the quality of life and Duke is going to move in on us & ruin it.
Rita Bruce	Landrum, SC	2015-08-09	I'm signing because I live very close to one of the proposed routes
Brenda Buchik	Taylors, SC	2015-08-09	This is a travesty for many reasons. The impact on our properties is one thing, but the efficacy of the project has not been fully explored! Shame on you, Duke. I have also expressed my opinion on their website.
Michelle Munson	Candler, NC	2015-08-09	It is an obstruction to the natural beauty of our area and old technology that will soon be obsolete and replaced with less invasive means of providing energy.
Kemper Penney	Columbus, NC	2015-08-09	i am signing this petition because I believe there is a better way for Duke Energy to accomplish their goals.... I think 90% of Polk County residents are against the present plans!

Name	Location	Date	Comment
Robin Coward	Hendersonville, NC	2015-08-09	I AM VERY INTERESTED IN KEEPING OUR ENVIRONMENT, AND OUR HEALTH FOR AS LONG AS POSSIBLE THE WAY IT IS OR IMPROVE IT , AND DOING THIS WOULD NOT CONTRIBUTE TO THAT.
Kasya Rock	Fletcher, NC	2015-08-09	My grandparents have a farm and one of the locations is their farm!! don't want to loose the land that I love!!!!
James Gorman	Greenville, SC	2015-08-10	We have too many scars across this beautiful landscape to allow more. This only benefits the utility!!!
leslie shelton	Campobello, SC	2015-08-10	I live in campobello s.c. ! I love where I live
Alexander Lapidus	Hendersonville, NC	2015-08-10	The coal plant can be converted or replaced without installing additional transmission lines, which will scar the landscape and destroy sensitive wild habitat. It's time to move beyond coal and natural gas.
David Reyn9lds	Fletcher, NC	2015-08-10	These lines should be buried. Not above ground where they damage property values and aesthetics...
AUTLEY THOMSON	Hendersonville, NC	2015-08-10	A LOT BETTER ROUTIN IS AVAILABLE THAT WILL NOT DESTROY OUR PROPERTY AND THE BEAUTIFUL MOUTIAN TREES IN THIS AREA.
Bonnie Inman	Landrum, SC	2015-08-10	I'm signing because in addition to ruining our gorgeous mountains and forests, the natural habitat of much wildlife will disappear. At some point there has to be a stopping point that forces companies and developers to seek alternative ways other than this.
Edward Dick	Tryon, NC	2015-08-10	I'm tired of seeing this beautiful area I grew up in once again put in the crosshairs in the name of progress. This will have a far greater negative impact than did the scar across Tryon Mountain when I-26 went through. I-26 was completed with some of the largest cost overruns ever encountered when building a public highway when a detour of a few miles would have brought the highway in under budget and out of view. Duke is proposing the project after millions of dollars have poured into the equestrian community to revitalize Polk County and take advantage of this scenic area. These are private dollars unlike the public dollars that will be spent by Duke's customers to fund the project. Many of my neighbors will see a negative impact on their home investments of \$100s of thousands of dollars. North and South Carolina do not need to be carved up any more. The location of the substation smacks of political greed. We need to join together against Duke Energy and let them know enough is enough.
Lisa Poore	Landrum, SC	2015-08-10	Because I don't want it in to destroy our beautiful view.
Brenda Stamey	Morganton, NC	2015-08-10	I live in the foothills, and I don't want to see the beauty of my home marred by these power lines.
George Vosburgh	Landrum, SC	2015-08-10	I am concerned about dukes total lack of concern and understanding of the value of the foothills environment. I also wonder that if the problem is insufficient energy capacity in Asheville after closing a coal plant, why don't they simply retool that facility rather than rape the pristine scenery of areas that do not need nor will they benefit from the added capacity this project supposedly provides.
Jennifer Fouts	Charlotte, NC	2015-08-10	I am signing because Duke Energy has not done any due diligence on this project. What about solar farms. Pristine family farm land that has been here for generation's will be destroyed. There are better ways. To add insult to injury the proposal to build this in SC does not even benefit them, it goes to benefit Asheville,NC. Please sign the petion. Stop Duke front screwing up the little people for their board members fat pocketbooks.
Shelia Dockery	Marietta, SC	2015-08-10	Protect the environment

Name	Location	Date	Comment
Deborah Visbeck	Concord, NC	2015-08-10	I am from the mountains and do not want to see land ripped up and beautiful land defaced in the name of corporate greed!
Kelly Ogden	Charlotte, NC	2015-08-10	I don't want our landscape to be ruined and the people who live in these areas to be negatively affected. Find better options for power that save our environment!
Janice Tyler	Marietta, SC	2015-08-10	Don't destroy our communities with these power lines.
Gary Abernathy	Travelers Rest, SC	2015-08-10	The proposed Route 4 will destroy the beauty and pristine environment of the Appalachian Cove and adjacent nature conservatory. Furthermore it would devastate property values in the surrounding residential areas.
Emily Clark	Columbus, NC	2015-08-10	Duke does not need to build these routes to provide sufficient power. It will have a huge negative impact on the economics of Polk County. There is a human health factor as well. This is corporate misbehavior at its worst
JAM JAM	CHARLOTTE, NC	2015-08-10	I'm signing because there are other alternatives for electricity. How about solar panels. Not going to cause any further damage to the environment.
Richard Few	Marietta, SC	2015-08-10	Duke Energy has other options for this line, which may be more expensive, but are far less intrusive on the owners of property in this area.
Kerrie Hobson	Starkville, MS	2015-08-10	I'm from the Carolinas and want to preserve the health and beauty of my home.
Renee McDermott	Tryon, NC	2015-08-10	The lines will terribly hurt Polk County's economy and ruin the viewshed. Although it doesn't cross property on which there are conservation easements, it will harm their conservation values for all time.
Link Cross	Landrum, SC	2015-08-10	Find another alternative other than ruining our beautiful mountains
Dorothy Kirk	Tryon, NC	2015-08-10	This is damaging project to some beautiful areas of Western NC. It's arrogance for Duke to proceed knowing the community opposes it so strongly.
Kristen Mooneyham	Cowpens, SC	2015-08-10	Duke Energy are crooks.
Carol Williams	Arden, NC	2015-08-10	There is other solutions...like burying them.
Jerry Purcell	Travelers Rest, SC	2015-08-10	I see no purpose for this project in SC , this should be completed in NC The option for route # 4 doesn't make sense by destroying properties , millions of dollars of land and replacing million dollar homes as well as replacing BRRW water tanks that provide a necessary water supply and fire protection to residents . The BRRW has estimated it would cost over two million dollars to replace the current water tank in the Cliffs Valley
Sara Poteat	Inman, SC	2015-08-10	We don't need this. I look at the mountains and I can already see towers on the mountain tops. Let's not ruin our mountains anymore. Don't let them do this.
Jay Davies	Columbus, NC	2015-08-10	One of the proposed routes comes within 140' of my home.
Steve Metcalf	Campobello, SC	2015-08-10	This is a greedy threat to the natural resources of one of the very few pristine areas of Upstate SC.
Nancy Madar	Landrum, SC	2015-08-10	This area is too beautiful to be defiled by steel structures put up by Duke purely for financial gain. Property values will also be affected.
Tracy Amos	Mill Spring, NC	2015-08-10	I oppose Duke Energy's WNC Project as currently proposed. TAKE THE LINES UP I-26!!!
lynne nachman	Greenville, SC	2015-08-10	It is important to save our beautiful area when there is an alternative solution.
olynda stretcher	Spartanburg, SC	2015-08-10	These lines will negatively impact the communities through which they run.

Name	Location	Date	Comment
Warner Zipf	Columbus, NC	2015-08-10	I don't believe Duke Power has proven why need new construction of power lines or why they cannot use existing transmission lines or why they cannot use existing lines and tie them into the upgraded power plant.  Duke also has not shown the basis for their assertion that power consumption will increase to the point that justifies the need for the new transmission lines.
patricia derrough	waynesville, NC	2015-08-10	This such not be legal
Betty Ballard	Zirconia, NC	2015-08-10	I strongly oppose power lines devastating our beautiful mountains and lowering property values in Henderson County
Joli Laughlin	Saint Petersburg, FL	2015-08-10	I want to keep the mountains around my summer home pretty.
KaThy schenck	Hanahan, SC	2015-08-10	i grew up in the area. NO! And I saw what Duke did on the Edisto River. I also have a house in Walterboro, SC. No Duke.
Marion Mitchell	Greenville, SC	2015-08-10	One of the proposed routes will desecrate the property that my family has protected for 90 years. It will ruin the view from our retreat cabin there.
Nancy Corn	Zirconia, NC	2015-08-10	Im signing because it will take away homes in are town
Clifton spears	Columbia, SC	2015-08-10	Stop Duke Energy
Ann Crandall	Columbus, NC	2015-08-10	I am signing this because, I do not think this plan is a good plan.
James Smolka	Hickory, NC	2015-08-10	I own property in this area. As a Power Engineer with a P.E., ja review of the limited information available on the Duke Power site, there are better options out there that Duke has not proposed.
Jack Mitchell	Greenville, SC	2015-08-10	We own 92 acres in Henderson County, NC which will be bisected by proposed route 20A. If this project is approved, nearly all of the 44 proposed routes will desecrate some part of the natural beauty of the Western Carolinas.
Susan and Williams	Landrum, SC	2015-08-10	We do not feel this project should be coming through this area and are totally against it!
eliseo riera gomez	Miami, FL	2015-08-10	I am signing because as the owner of lot 19 MP 3, I am very concerned about this project and others on the timpact on the value of my property
Nancy D West	Tryon, NC	2015-08-10	It will destroy the beautiful foothills and de-value our property.
Lorraine Skoglund	Tryon, NC	2015-08-10	I am opposed to Duke's plan which will destroy the beauty of the area as well as have a negative impact on the environment, property values, the economy and businesses of the people who live and work in the foothills. Let Duke find less invasive ways to grow, if needed at all. Energy efficiency would certainly be a better alternative that would allow for growth and still help the environment.
Patricia Gladding	Asheville, NC	2015-08-10	This will create unsightly views and affect property values in those areas where these huge lines go! I am vitally interested in protecting our ecology and what's left of our natural world! Thank you!
William Munsell	Tryon, NC	2015-08-10	Has to be a better way
Mary Jane Rice	Landrum, SC	2015-08-10	I am not in favor of this project.
Louise Mellon	Columbus, NC	2015-08-10	I am against the known health issues and unsightliness of the towers, and the damage done to our natural resources. Please do not put up these towers!
Angie Story	Huntsville, AL	2015-08-10	Because my brother lives in Greenville, friends live in Ashville, and I love visiting both areas! and do not want to see this mess and the accompanying destruction that will occur with this project!

Name	Location	Date	Comment
Ben Pace	Landrum, SC	2015-08-10	I am signing because I grew up and currently still live in this area. It is wrong to damage the environment and our farm lands. Modernization? more like devastation not just to us humans and our properties but to the land and animals.
Helmuth von Bluecher	Landrum, SC	2015-08-10	We have bought property in the Beautiful Foothills of South Carolina and think the Transmission lines are unsightly, devalue peoples property and are ecologically unfriendly
Terry L Hunter Hunter	Travelers Rest, SC	2015-08-10	I do not support the plan for the power lines running through the Cliffs properties at the Cliffs at Glassy and the Valley
shawn masto	Spartanburg, SC	2015-08-10	This is not necessary and i don't want to see the landscape changed in this way!!!
Blake Douglas	Spartanburg, SC	2015-08-10	We should preserve this rare natural beauty that we have here. Duke Power has plenty of resources. They don't need this.
Robert Leibfried	Tryon, NC	2015-08-10	I would like to see a broader discussion on energy conservation as well as the promotion of renewable energy sources including rooftop solar and community solar installations. Please include your customers in this discussion. We need to work together on this as the demand for electricity will only continue to increase.
Melodie Fulbright	Spartanburg, SC	2015-08-10	I believe this will significantly effect the beauty and landscape of the Upstate and have an adverse affect on the economy of the foothills. Preserving of our natural landscape is vital to the health of any state especially when Duke Power has better alternatives.
Jack DePriester	Landrum, SC	2015-08-11	Because "The Dark Corner" will be no more. Hwy 11 Scenic route would no longer exist. Nature Conservatories disappear. Property Values jettison negatively. As a hiker, family grave sites are all over Section 4 & 10
johnny ellenburg	Inman, SC	2015-08-11	It is wrong in what they are doing to the people.
Jamie Dunn	Greenville, SC	2015-08-11	I am against this duke power project
Heidi Pendergrass	Pickens, SC	2015-08-11	Duke Power can do better by having a lower impact on our beautiful area. Please take Upstate Foevers advice and change your plan!
Elizabeth Wallace	Indian Trail, NC	2015-08-11	I am signing because no thought has been given to the long term effects not the aesthetics of such a move.
Robert Hofland	Horse Shoe, NC	2015-08-11	this can be done in a more environmentally engineered way. Cables should be underground ,
cynthia culbreth	Columbus, NC	2015-08-11	I do not power tower across my property!
Brannon Poore	Landrum, SC	2015-08-11	It would really hurt property value and the beauty of our landscape.
LaVerna Cordova	Columbus, NC	2015-08-11	My property and the countryside in the area of plan will lose value and be ruined. The environment will be made ugly and wildlife and nature will be damaged. This is not modernization--this is antiquated damage to the earth and people.
Joey Frilot	Inman, SC	2015-08-11	I don't want my home town ruined because they want more Money its the root of all evil and you don't realize what your killing In the process
Alicia Townsend	Boiling Springs, SC	2015-08-11	The forest and mountains are there for so many reasons, leave them alone.
Glen Parker	Arden, NC	2015-08-11	Stop this destructive project.
Roger Helmuth	Columbus, NC	2015-08-11	I feel the power lines will decrease the value of my property.

Name	Location	Date	Comment
David Bryant	Campobello, SC	2015-08-11	Too much of the landscape has been destroyed already.
Daniel Joines	Hendersonville, NC	2015-08-11	I do not want my property value diminished for unnecessary reasons.
adam carden	Landrum, SC	2015-08-11	i live in landrum and do not want our beautiful countryside damaged with these hideous towers when they are not needed
Cody Holmes	Tryon, NC	2015-08-11	It will ruin our area for the sole benefit of Duke Energy.
John Hart	Columbus, NC	2015-08-11	to stop the rape of this prestine area. Why use a new route when you already have one?
Carrienne Eller	Hendersonville, NC	2015-08-11	I do not want power lines or a substation built near my house
Joe Perrone	Hendersonville, NC	2015-08-11	I'm signing this petition because I live in a development that most likely will be impacted negatively by this project. I'm a senior citizen who cannot afford to have my single largest investment (my home) depreciated.
Paul Belair	Mill Spring, NC	2015-08-11	If in fact this action will require power lines visible within the Lake Ager area. I do not wish to see this happen.
Carol Justice	Duncan, SC	2015-08-11	I'm signing because we must protect our beautiful country side and the plants, animals and people that call it home. Duke Energy already has a route. Use that one!
Molly Wilkes	Export, PA	2015-08-11	Environmental,health, conservation Find another way!! Other sources of energy!!
Deanna Ermson	Inman,, SC	2015-08-11	I am appalled and outraged at the insensitivity of Duke Power to destroy our community.
Teri Newmark	Willimantic, CT	2015-08-11	I am very concerned over this entire project and what it will do to area. We are a very large horse community and are increasing all the time. This will have a PROFOUND impact on this area right when the Tryon Equestrian Center is finishing up not to mention people that have moved here WITH horses and because of its unspoiled beauty. I think it is totally negligent on Duke's behalf to use outdated maps I do not understand why the substation must be in Campobello to service WESTERN NORTH CAROLINA. Surely it can be built closer to the highways rather than through pristine countryside and pastures! Surely there HAS to be a better way. DUKE needs to explore ALL options!!!!
Lori Watkins	Boiling Springs, SC	2015-08-11	This area is so beautiful and would be destroyed by adding unsightly power lines.
Richard Dawley	Hendersonville, NC	2015-08-11	Duke should find the lowest impact route and add any additional miles of lines needed to do so.
Mary Collins	Vero Beach, FL	2015-08-11	I own lot 15 in Ann Mountain and am very concerned about health issues involving electromagnetic fields and magnetic fields. The arrogant changing of a pristine area into a wasteland is unconscionable.
DEAN TRAKAS	Tryon, NC	2015-08-11	It is the most important thing I've ever done...
JJ Hightower	Landrum, SC	2015-08-11	There has to be a better way to get energy where it needs to be with out taking land and cutting down trees.
Carlson Clelland	Spartanburg, SC	2015-08-11	This will ruin the natural beauty of our beautiful mountains
TG Denny	Flat Rock, NC	2015-08-11	Preservation of our nature is important for ALL ecosystems.
matt craig	garnerville, NY	2015-08-11	my family lives there
WILLIAM Wells	Hendersonville, NC	2015-08-11	I own a home on Green Mountainn Road and this high voltage power line to be located in my front yard represents a health hazard and i'll be looking @ 140 foot towers in lieu of the mountain view i paid dearly for. If Duke Energy wants to replace what i have with equal property then let's talk but the lost value on this property will be significant!!

Name	Location	Date	Comment
Julia McIntyre	Tryon, NC	2015-08-11	The line is completely unnecessary. As more energy efficient appliances are reducing the demand for energy, building a line on a speculative basis is a boondoggle. It will not serve the area that will be damaged, so why should we pay (both in higher energy fees and damage to our land and land values) for something will will not benefit us.
Rita & John Hasler	Tryon, NC	2015-08-11	We would not be affected, but we are willing to fight against it. it would be a ruination of the beautiful country side we live in.
Susan Brenker	Hendersonville, NC	2015-08-11	Duke Energy has NO RIGHT to destroy one of the most beautiful and healthy areas of the country for their profit. STOP THIS IMMEDIATELY!
Cathy Lamb	Travelers Rest, SC	2015-08-11	We don't want this on Hwy. 11
Paige Houghton	Asheville, NC	2015-08-12	Not only are overhead power lines just plain ugly, there are better ways of accomplishing this.
Kimberly Maw	Greenville, SC	2015-08-12	We are proud of the beauty of the Blue Ridge Mountains. I'm tired of mega companies that do not care. Work on solar power instead.
jeanne grasperge	mills river, NC	2015-08-12	Don't want these proposed power lines running through Henderson County, particularly the High Vista subdivision.
Jane Sexton Long	Spartanburg, SC	2015-08-12	I rode in the Tryon Columbus area for many years. How dare they try to destroy this area
Lisa Rutledge	Spartanburg, SC	2015-08-12	WNC/SC is my homeland!
Ilena Budde	Columbus, NC	2015-08-12	I'm a concerned member of the community
Jessica Warren	Marion, NC	2015-08-12	I don't want this near my house and it may lower property value.
Danny Hutcherson	Landrum, SC	2015-08-12	The mountains should remain unmolested.
Margie Brittan	Hendersonville, NC	2015-08-12	Destroys the value of my property. Bury the lines.
Lynn Coleman	Travelers rest, SC	2015-08-12	Hike it and see.
Dave LaMond	Hendersonville, NC	2015-08-12	This will negatively impact everyone in wnc. Especially your property values. Sing and share.
julie alexander	travelers rest, SC	2015-08-12	Preserving our beautiful land in the Foothills . Destroys our land and its beauty with horrible power lines
Dawn Shearin	Travelers Rest, SC	2015-08-12	One of the main reasons I moved here was the peaceful view of the mountains. Every day, I drive home from work, and feel like the days' stress just falls away when I see the beautiful, unobstructed mountains. Nothing but raw nature. It would be very sad to see power lines cutting into this beautiful view.
Mary Anne Beeson	Lincolnton, NC	2015-08-12	I firmly oppose Duke Energy's Transmission line at or near Ann Mountain due to the negative impact to the environment, health risks from magnetic and electric fields, and the devaluation of property.
Betty Foster	Tryon, NC	2015-08-12	Because I don't want our green space destroyed.
Scott McClellan	Spartanburg, SC	2015-08-12	I am a proponent of protecting the environment and beauty of our area. Duke's proposal is in direct opposition to this. It is also my belief that Duke does not do enough to keep the public informed of plans that decimate the countryside and that Duke has a long history of disregard for the environment.
trey warner	Jacksonville, FL	2015-08-12	This would devastate local apple tree farmers property and negatively affect the ecosystem of the area.
Carolyn Cullen	Hendersonville, NC	2015-08-12	I'm signing this because this project, as planned, is for the financial benefit of Duke Energy and it's stockholders - NOT THE GREATER GOOD OF WNC AND UPSTATE SC.

Name	Location	Date	Comment
dovie narehood	zirconia, NC	2015-08-12	we chose this property to raise our two adopted daughters here in a quite, safe,environment.we have a pond full of catfish, we fear all our pond would be destroyed.we couldn't have our garden.there are deer that come and drink from the pond,and other wildlife.it could poison peoples well water.please take into consideration all of this and more before you destroy our place and our neighbors.there must be another way.
Patricia Betar	Mineral, VA	2015-08-12	I enjoy the same things my cousin Alan and Cindy do. Don't like anyone posing a threat to someone's well and drinking water
Danielle Collins	Inman, SC	2015-08-12	The foothills and the Carolinas are so beautiful and we do not need anymore modernization unless it does not disturb the terrian. The power company has enough money to find a solution.
Cyndi Connolly	Hendersonville, NC	2015-08-12	We don't want those unsightly transmission lines anywhere near us in this beautiful area! They will destroy the natural beauty of WNC. In addition, there may be health effects for those who live nearby!
Cynthia Fowler	Saluda, NC	2015-08-12	I oppose the construction of more above ground power lines. Duke Energy should instead construct alternative sources of power such as solar.
Linda Marchant	Fletcher, NC	2015-08-12	There is no proven need for this line, other than growing Duke's bottom line. Existing high-voltage lines could be used to deliver power to SC, if the Utilities Commission cannot see past Duke's projected need. Lines will destroy homes, orchards, graveyards, schoolyards, farms, streams that feed good fishing rivers. Contaminate well water. Destroy the look of our beautiful area, for us and for the thousands of tourists who visit every year. Negatively impact housing values, which will reduce the tax base in all counties, which means that tax rates will rise.
Karla Vanucchi	Myrtle Beach, SC	2015-08-12	I want my mountains to stay beautiful And want whats best for the people and community! Not duke energy
Susan Henry	Fletcher, NC	2015-08-12	I do not want property balues destroyed or negatively impacted by this proposal.
Rachel Henry	Fletcher, NC	2015-08-12	Property values will be reduced
Bart McKinney	Fletcher, NC	2015-08-12	This will destroy our beautiful mountains, kills trees, negatively impact the environment and ecosystem.
Lauri Ross	Columbus, NC	2015-08-12	My house is in one of the proposed route corridors, & the transmission line would ruin the property value & future saleability of my property. It would also destroy the value of my pasture & woodlot, directly through which one of the proposed routes runs. I'm also concerned with possible health effects of living so close to high voltage power lines, & with the periodic spraying of herbicides which would be used to keep the route corridor open.
Katherine Berney	Campobello, SC	2015-08-12	Duke energy's HORRENDOUS expansion proposition will destroy all pastoral land that this high tension wire pathway comes near. It is shameful, disreputable, unethical !! Duke energy is disgusting ! SHAME ON YOU !
Tricia Adell	Arden, NC	2015-08-12	It is not OK for Duke Energy to destroy such beautiful land.
Rob Anthony	Fletcher, NC	2015-08-12	The existing corridors can be used

Name	Location	Date	Comment
Debra Stephens	Zirconia, NC	2015-08-12	The impact of HVTLS on residential property values is upward to -25% up to 1/4 mile away from right of ways. Only those directly impacted by lines and towers are compensated for their loss. This leaves remaining property owners as uncompensated collateral damage. The impact to the community and county at large is largely devastating environmentally and economically. In areas of the western Carolinas where the economic base is historically established in the retirement relocation, travel and tourism, outdoor recreation, and summer camps industries the economic erosion will further impact the supporting industries of real estate and construction and devastate the tax base which provides citizens with services. Alternatives are available to this proposal.
Chris Cox	Columbus, NC	2015-08-13	Duke will destroy polk county and its natural beauty not to mention the whole I26 corridor
Jazz Johnson	Monahans, TX	2015-08-13	I live in SC but vwork in TX.putting up those station and tower will hurt the landscape of this beautiful foothills. Look up and see trees not cabel and towers
Shirley Cooper	Birmingham, AL	2015-08-13	I'm from South Carolina and love the North Carolina mountains.
Michele Demetriou	Asheville, NC	2015-08-13	I believe that this project is unnecessary, and also that it is possible for these lines to be buried. It will mar the natural beauty of the WNC landscape.
Abby Robertson	Hendersonville, NC	2015-08-13	We just bought our dream home with hopes of raising our children here and this plan is going to ruin our neighborhood, our home values, our beautiful mountains and potentially our health! I have a child with a chronic lung disease and can't imagine that all this modernization is not going to somehow effect his health! There are better options!!
John Brady Jr	Atlanta, GA	2015-08-13	One proposed segment crosses my family's property
Rachel Austin	hendersonville, NC	2015-08-13	Duke Power is a conglomeration of corporate criminals. As in, on the books, convicted.
Lynn Foes	Hickory, NC	2015-08-13	We have nothing once we've destroyed our forests and waters. Duke Energy, save our Foothills and mountains!
Natalie LaMond	Hendersonville, NC	2015-08-13	It would be criminal to destroy the delicate ecosystems and wildlife habitats within Camp Kanuga. It is a sacred place where adults and children come to worship and solidify their faith in a peaceful setting. To deforest areas of Kanuga and surrounding territories in WNC and place high tension wires is selfish and greedy of Duke Power. Residents of WNC need to speak out before this happens. Protect these beautiful and pristine mountains from destruction and protect you and your loved ones from the potential health hazardous of high voltage current!
Jana Hosmer	Hendersonville, NC	2015-08-13	The mountains of WNC are known for their beauty. Duke Power's plans will destroy this areas natural beauty.
Larry Fitz	Columbus, NC	2015-08-13	This line comes too close to residential communities which would not only devalue their properties, but also; potentially cause serious health issues of those in close proximity.

Name	Location	Date	Comment
Garnet Fisher	Mountain Home, NC	2015-08-13	<p>Duke's haste and lack of respect for our land would scar the mountain vistas across our county, force use of herbicides on our land and put our people at risk of EMF poisoning. It would contradict the sustainable intent that the mindful residents in these valleys have cultivated for decades.</p> <p>— Expediting this project is unnecessary and disrespectful  — Existing infrastructure / corridors MUST be used if at all possible  — Support the ideals of the people – underground lines, solar, wind – and we'll help offset the cost of clean energy</p>
Barbara Couch	Milton, FL	2015-08-13	This is wrong and the people had better step up and stop this before it's too late!
Steven Regnet	Thornton, CO	2015-08-13	This plan calls for the demolition of my friend's family home.
Cathy Doebler	Hendersonville, NC	2015-08-14	Trees are more important than you
Sherri Wangrin	Asheville, NC	2015-08-14	Alternate options that respect the beauty of our area should be a priority.
Ellen Meadows	Travelers Rest, SC	2015-08-14	The proposed route #4 would run right next to my house, spoiling a beautiful, natural environment and ruining the quality of life for all the residents of the Cliffs Valley and the surrounding areas.
Donna White	Fletcher, NC	2015-08-14	I want to keep our mountain scenery beautiful and not torn up and made ugly. Where there are power lines the trees will be cut in a wide path and it looks so ugly they leave the trees cut and stumps laying around like they did in my own backyard they don't care anything about the environment or people's property. So hell no!!!!!!
Carey Baumgarten	Asheville, NC	2015-08-14	I feel strongly that our beautiful land should not be defaced by this greedy, callous company and their convenience, political clout and hideous, towers and power lines and the electromagnetic force these lines emit 24/7.
Dorothy Barnett	Simpsonville, SC	2015-08-14	The areas where Duke wants to put this all depend on income from people and tourists who visit this area for its natural, scenic beauty. Duke Energy will be lining their pockets, but they will take the livelihood from the western NC and upstate SC areas for tourism and other interest groups as well.
Carole Artman-Hodge	Travelers Rest, SC	2015-08-14	There can be more constructive and creative ways to get power to a region than by destroying community home values and pristine mountain regions
Lynn Brooks	Fletcher, NC	2015-08-14	We own 2 homes on Doshia Lane and do not want our property value to decrease, and especially be exposed to anything harmful to us. Also have wells and fear of contamination.
Alice Tate	Weaverville, NC	2015-08-14	Please keep the beauty and safety on our Mountains.
Rebecca Perrone	Hendersonville, NC	2015-08-14	I have always avoided living near high tension wires and chose my home carefully. The location is beautiful, the area is devoid of those lines, all our utilities are underground. I will be in the area of the energy field around the lines. Put them where there is no development - you not only are ruining the area, but ruining my chances of selling my home, which represents the bulk of my retirement in the future.
Alton Kelley	Tryon, NC	2015-08-14	This will ruin my property values and our neighborhood esthetic
Eve Moretz	Fletcher, NC	2015-08-14	This will directly affect my neighborhood. I am worried about the environmental health hazards. My property value will go down. Also my mountains & views will be ruined.
ethan brashar	hendersonville, NC	2015-08-14	It is going to destroy a lot of habitat that we desperately need around this region.
Emily Lynes	Arden, NC	2015-08-14	This goes through my sister's neighborhood. It will ruin the neighborhood and surrounding wildlife. Our mountains need to be preserved!!

Name	Location	Date	Comment
Hollie Calloway	Mars Hill, NC	2015-08-14	This is unnecessary and there is other ways to get power then have to distort our mountains.....
Mary Carroll	Fayetteville, GA	2015-08-14	Our environment is not separate from me or anyone else.
Mary Cannon	Inman, SC	2015-08-14	I sign this petition because I saw this Duke Energy plan on TV. There will be a lasting effect on counties in both North and South Carolina. There are horse farms and the Equestrian Center. There are families who have owned land for 100+ years. This plan should stop. I am against this plan. It will change the view of the Blur Ridge Mountains, and the earth will be affected forever.
Dean Connolly	Hendersonville, NC	2015-08-14	This project will destroy precious habitat. It will have a negative economic impact on current residents and the housing market. Furthermore, it will discourage many retirees from migrating to the area and negatively impact tourism.
Robert Briggs	Henrico, VA	2015-08-14	Part of what makes my hometown special is the beautiful scenery. Alternate routes exist for this eyesore.
Carolyn Dunlap	Fletcher, NC	2015-08-14	I'm signing because I believe there are alternatives for energy other than ruining our beautiful mountains.
Jon M	Hendersonville, NC	2015-08-14	It will ruin the beauty of this area.
Micheal Cooper	Fletcher, NC	2015-08-15	This shouldn't be rushed through, alternative routes that don't mar the views and decrease homeowner property values should be given actual weight.
Judith Lane	Hendersonville, NC	2015-08-15	Duke - spend some of your profits and bury these power lines!! Your customers deserve the very best you can offer!
Gerald Moretz	Hendersonville, NC	2015-08-15	I do not agree with what Duke Energy is doing here.
Meghan Miller	Chesnee, SC	2015-08-15	I'm signing because it's a family tradition to go to sky top every year since I was 3 now my kids go
MARIANNE D. GRAVES	Landrum, SC	2015-08-15	These lines will destroy the beauty and peacefulness, beauty, and property values of this beautiful countryside, not to mention the property values. They will also be a dangerous health hazard to our citizens, horses and other living creatures in the areas.
Mark Starr	Hendersonville, NC	2015-08-15	We need to keep companies like Duke Power in check with the will of the people. I don't like feeling steamrolled by a big company who uses its money and power to buy and force their will with common consensus.
Betsy baumgardner	Greenville, SC	2015-08-15	Because we continue to enjoy our trips to sky top orchard To get away from the city for the day. I would like to preserve the beauty of the mountains by keeping them free of obstruction.
Bonnie Hines	Columbus, NC	2015-08-15	I don't want these power lines near me or the trails we ride.
James Beyer	Marina del Rey, CA	2015-08-15	While there may be a need is there another way to do it? Despoiling the beauty of the area for "progress" has always been a matter of short term gain and long term cost.
Stephanie Romine	bellevue, KY	2015-08-15	This is terrible of Duke Energy! Shame on you!
Janet Gray	Tryon, NC	2015-08-15	I do not want our county's natural beauty, tourism, property values, and health destroyed. This defacing is piracy!  Please do not do it.
Deni McIntyre	Hendersonville, NC	2015-08-15	I believe the project to be poorly conceived and not entirely justified.

Name	Location	Date	Comment
Heather Neff	Mills River, NC	2015-08-15	I live right across the street from one of the huge towers proposed in the Mills River area. This would impact my life and my home value dramatically. I would like to make sure this does not move forward as there are so many ways to produce energy with Solar power and there is absolutely no need for this type of infingement upon our nature and our farm lands.
Karen Mauro	Mills River, NC	2015-08-15	WNC is a beautiful place. The lines will disrupt that beauty and the poisons they use to maintain it will destroy the area around them. We already have several large lines in Mills River. Stop route 12
Hal Rue	Roebuck, SC	2015-08-15	Duke Power has no regard for anything or anyone. It's just about money.
Kate Fisher	Saluda, NC	2015-08-15	Duke Energy is taking my property.
jesse klennon	Hendersonville, NC	2015-08-15	I'm an electrical contractor and I don't feel that producing more energy is the way of the future. With Led lighting and other advanced technology we have become less dependent on the power company and therefore have increased the need for companies like duke to send power further away to make money. It doesn't help WNC why build it here and deface our beautiful landscape.
David Voorhees	Flat Rock, NC	2015-08-15	Lines would have adverse affect on this area.
Phyllis Peterson	Flat Rock, NC	2015-08-15	Because I don't want to see Henderson and Buncombe counties destroyed by Duke Energy's greed. This is a beautiful area and much of the economy is dependent on tourism. That will be destroyed as will property value. What is wrong with you people?? Oh I forgot...GREED!!
Curtiss Poteat	Mills River, NC	2015-08-15	Jean Poteat Mills River, NC 28759
Sandy Lastein	Flat Rock, NC	2015-08-15	It is the right thing to do...our beautiful, clean, our, mountains do not deserve such treatment, nor do the beautiful people who live and make their lives here...there ARE other alternatives to provide energy !
Jennifer Labbe	Wellington, FL	2015-08-15	I live in Western North Carolina and believe Duke can put the lines underground if necessary.
Jerel Hoffman	Nebo, NC	2015-08-15	Taking cherished Mountain property from folks for no good reason Duke thinks they can do whatever they want
brendan ellsworth	asheville, NC	2015-08-15	One if the proposed routes is through my land. This is ridiculous.
Mary Martin	Zirconia, NC	2015-08-16	I am opposed to the large overhead transmission lines in the Green river area.
David Stokes	Flat Rock, NC	2015-08-16	It would run too close to my house and it's wrong
David Martin	Hendersonville, NC	2015-08-16	I feel this project will be a detriment to my community.
Kathy Love	Arden, NC	2015-08-16	Because these mountains are my home. I grew up here and I do not want to see anymore destruction of the beauty we have!!
Roberta Cart	Saluda, NC	2015-08-16	Expansion is the wrong approach to the responsible meeting of our area's energy needs. It will ruin lives by ruining/taking private property and by ruining businesses dependent on tourism. Nothing good will come from it. Trading one fossil fuel source for another is short-sighted and equally destructive.
Auburn McCanta	Phoenix, AZ	2015-08-16	I'm signing because I'm an out-of-state visitor and supporter of Kanuga and its surrounding area. I can't feel safe coming and supporting the area with my tax dollars if there are electrical lines overhead. I won't.
Barb butler	Arden, NC	2015-08-16	I am signing because this is our land and Duke needs to be more receptive to resident input.

Name	Location	Date	Comment
Susan Griffis	Evansville, IN	2015-08-16	I am buying property in the area and do not want power lines running near my property. And in this case, they would on the east side of Columbus. You could easily have this section run near I-26 and not disturb the high quality rural countryside and avoid negatively affecting the fine horse trails and other activities surrounding the horse community.
Alison Campbell	Alexandria, VA	2015-08-16	I'd like the historic, natural area of Kanuga to remain untouched. It is a beautiful spot and it must stay that way.
sandra owen	Pisgah Forest, NC	2015-08-16	Duke Energy is destroying homes and farms for a right of way it does not need.
Emily Cart	Saluda, NC	2015-08-16	I'm signing because these power lines will ruin our view this diminishing the value of our house and property. We don't even get to use any of the power
veronica deguzman	Fletcher, NC	2015-08-16	I am against this project because it will tremendously affect and destroy the beauty of our mountains and value of our community.
Alice brown	Mills River, NC	2015-08-16	Duke power may be the largest utility in the world and is a profit driven machine willing to destroy anyone or anything in the way
Lydia Dunch	Mars Hill, NC	2015-08-16	We really need to preserve the natural beauty of our mountains. Too wonderful to mess with.
susan seidman	Fletcher, NC	2015-08-16	There will be a great impact on my home, the homes in my community and the environment. The beauty of the area I live in will be defaced.
kathleen roberto	Kittanning, PA	2015-08-16	I'm signing because have friends that live there and I might move there day
Judy Doucet-Ikbal	Asheville, NC	2015-08-16	want to preserve the mountains
Lou Hoffman	Nebo, NC	2015-08-16	I believe that existing routes could be utilized and Duke Power has a history of over reaching it's control over land and NC resources. McCrory, a former Duke Power executive has a tendency to side with them on rulings favorable to them. This new easement is not needed.
Cynthia Jenkins	Landrum, SC	2015-08-16	I am opposed to Duke Energy's Route #4 as Duke should expand existing transmission lines
Sue Gilot	Baltic, CT	2015-08-16	Our natural resources should not be destroyed!
stephen king	Tryon, NC	2015-08-16	there are better alternatives
Faye Slagle	Hendersonville, NC	2015-08-16	This will destroying the beauty of our mountains and foothills. This is wrong. Another big corporation that's wants to ruin the environment for money.
Dana Zygmunt	Tryon, NC	2015-08-16	I want to preserve the beauty and economy of the 4 towns, 3 counties, 2 states and 1 community-OURS. NO HIGH TENSION WIRES.
laura simmons	charleston, SC	2015-08-16	We need to protect the natural beauty of this area as will as the abundant wildlife that thrive here!
Nancy Hensley	Travelers Rest, SC	2015-08-16	This project will have a negative impact on the area in terms of property values, landscape and wildlife. They can upgrade their current facilities without having to erect this new line.
lorenzo De Guzman	Fletcher, NC	2015-08-16	I am against destroying our beautiful mountains and decreasing the value of the properties in our area
Karen DeGuzman	Fletcher, NC	2015-08-16	I care about the environment,the future and I LOVE Western NC!
Roilan DeGuzman	Fletcher, NC	2015-08-16	I care about the future of my children and the environment we live in. My property is from hard earned money and I would not want property values decreasing any further.
Elaine Christ	Weston, FL	2015-08-16	The most amazing part of living in WNC is our majestic mountains and the community's deep connection to nature and conservation. It goes against everything our wonderful community believes in and thrives in. Don't do it!!

Name	Location	Date	Comment
Christina McMinn	Arden, NC	2015-08-16	I'm signing because I grew up and live in this beautiful area and do not want this coming through our area. We have farmer friends and loved ones whose property would be affected and taken. That is cruel and unfair. Thanks!
Jason Dinwiddie	Fletcher, NC	2015-08-16	This will ruin the WNC landscape, decrease property value, impact economic growth and be a health hazard.
Michael Skovgaard	Arden, NC	2015-08-16	I stand opposed to the development plan.
Jay Wilderman	Fletcher, NC	2015-08-16	This will destroy the community!
Anne Grant	Mills River, NC	2015-08-16	I live here because the land is special and beautiful. Duke destroys everything it touches. I have a transmission line behind my house and they have butchered trees that are nowhere near that line.
A Thoresen	Marion, NC	2015-08-16	Pollution, destroying the beautiful mountains and decreasing home values.
Victoria Gianniny	Spartanburg, SC	2015-08-16	This will ruin our area's greatest asset --the beauty of our mountains. Duke Power could care less, they just want the money!
Jessie Cart	Spartanburg, SC	2015-08-16	I'm signing because if these are built, they will be at eye level with my parents home across their front yard. We were told we would be able to hear the lines buzz, and they could possibly cause health issues. Absolutely horrible.
Russell Bolton	Hendersonville, NC	2015-08-17	I don't want to allow the negative effect of running these power lines across the Western North Carolina mountains.
Joel buckner	Fletcher, NC	2015-08-17	we live in the hoppers creek area. The lines will come right through our beautiful area. I am concerned about the decline of our property values as well as the eye sore this will create. As a farmer I am concerned about the repercussions of the herbicides that will be used to maintain the area around the lines, pollution to the water and the effects the clear cutting will have.
Adam Pressley	Hendersonville, NC	2015-08-17	I am an affected individual based on one of the proposed routes. My family has been on this same piece of land for 5 generations and counting. It is a gathering place, an established and working farm, and one if the most beautiful, serene places in our county. Located at the end of a dead end road, it is a wonderful place to raise our two small children and teach them to continue on the legacy our predecessors started. We would like our land, as well as our neighbors, and their neighbors, and so on, to continue to work and live and enjoy the investments they have worked so hard to obtain and hold on to. If this transmission line must be constructed, it needs to follow the I-26 corridor, existing right of ways and infrastructure should be used, and our land and homes should be preserved.
Donald Bolton	Memphis, TN	2015-08-17	I own property on green mountain rd.
Don Hutchinson	Fletcher, NC	2015-08-17	I do not want our beautiful mountains defaced by this devastating power line which will destroy everything God created.

Name	Location	Date	Comment
Judith M. Miller	Hendersonville, NC	2015-08-17	This proposal will not only spoil our pristine mountain views but more importantly will contaminate groundwater for those of us dependent upon well water, contaminate crops, kill foliage, subject us to EMF (I would have to pass under these lines FIVE times twice each day on my way to and from work as would everyone in this area who works in Asheville. This has already had an effect on property values in the areas involved which is not acceptable to those of us who have worked so many years for our homes here. You are destroying the only thing of value that we have to leave our children and grandchildren. Why can you not dig a six foot deep trench along I-26 and bury the lines? This would be the most direct route to Lake Julian and would not cause the kind of damage your other proposals would. You could leave access points a pre-determined distance apart in order to make repairs when needed. Duke Energy needs to learn how to be a good neighbor to their customer base not destroy our homes, farms and way of life!!
Ross Cronin	Fletcher, NC	2015-08-17	As the president of the HOA for Candor, I am voicing not only my opinion but those of 20 other families who DO NOT want Route 17B running through their backyards!  Fletcher and Mills River need to stand TOGETHER, not just be relieved it might be running through "the other side of town".
Erin Corr	Tolleson, AZ	2015-08-17	Nc is beautiful! Why ruin it for everyone!
Nancy Mills	Thomasville, GA	2015-08-17	This must be stopped.
Duff Swan	Titusville, FL	2015-08-17	I own land that will potentially be impacted by this project
Christine McLynn	Charlotte, NC	2015-08-17	The Asheville area is a gem - one of the few near major population centers, providing welcome respite for city residents. Please don't ruin the views. Let some areas remain natural and restorative!
Julie Christianson	Hendersonville, NC	2015-08-17	I am signing because I am not convinced that this project is necessary. The maps indicating the proposed routes are outdated by at least three years. An indepent study is needed!
Nathan Guc	Long Beach, NY	2015-08-17	Enough is enough
Michelene Rhodes	Hendersonville, NC	2015-08-17	I do not want this power line to destroy the beauty of the unspoiled mountain land where I live. Duke has the money to make this happen with out destroying private property
debbie kearns	Tryon, NC	2015-08-17	I am a citizen and landowner in Polk county, choosing this county because it is an equine friendly area with the open space and amenities that are required. These lines will devastate this area from an economic standpoint let alone the beauty and views that we have paid dearly for in real \$\$\$
Yuroc Fifthworld	Columbus, NC	2015-08-17	These power lines will ruin the beauty of our county, which is what our economy depends on.
patricia larsen	Tryon, NC	2015-08-17	Duke Energy lines will destroy the beauty and life in Polk County. Property values will go down, tourism will decline as well. Put them in Asheville where they are needed.
Melanie Hudson	Santee, CA	2015-08-17	I don't want the beauty of the WNC mountains ruined with even more power lines... use the ones you have!!
Courtney Way	paris, France	2015-08-17	My parents live on lake summit and I have spent every summer there. This is where my heart is and I do not want to see the land destroyed!
Betty Howard	Landrum, SC	2015-08-17	I strongly oppose Duke Energy's plan to so negatively impact our communities and beautiful, valuable natural environment.

Name	Location	Date	Comment
Lucile Boyle	Columbia, SC	2015-08-17	I have a house on the lake and do not approve of power lines around the lake.
Lucy Boyle	Charleston, SC	2015-08-17	I have a house on Lake Summit. I do not approve of power lines going on our property or nearby properties. It will ruin our views of the lake and no one want it to happen.
Austin Huguley	Greenville, SC	2015-08-17	I do not want a "modernization" project to take place around the Lake I am a resident of. Power lines would bring down the unique privacy
a. d. moore	austin, TX	2015-08-17	Stop trashing our earth!!!
Lori Hilbig	Greer, SC	2015-08-17	I want to stop Duke from running the power lines through our beautiful county!! And from our neighborhood, Persimmon Hill!!
Edna Boone	Tryon, NC	2015-08-17	I'm signing this petition because I do not want to look at the beautiful mts and see them marred by a high voltage power line. There should be another way of doing this rather tsking away the beauty of the mts. We moved up here for the beauty.
Charlene Patterson	Landrum, SC	2015-08-17	I live near Highway 11, but I love the mountains of the Upstate and Western North Carolina. If we don't draw the line somewhere about what we destroy, there isn't going to be anything left.
Rose Spencer	Washington, DC	2015-08-17	The land Duke is seizing is part of my inheritance. It is cruelly unfair to myself and my family members for this to be done. Before I even touch on how harmful this would be for the environment and the natural habitat of so many indigenous species, I would like to emphasize how detrimental this "expansion" would be on my personal finances, not to mention quality of life and health. How necessary is this project anyhow? Have public land options been explored? Have any other completely different energy resources been explored? I'm quite positive they have not. It's outrageous for this company to continue believing they can put through "projects" such as this one, and be unaffected.
Elisabeth Shackelford	Atlanta, GA	2015-08-18	I love Western North Carolina with all my heart.
Melodie Olson	Jacksonville, FL	2015-08-18	Keep the safety and serenity of the mountains intact. These mower lines are not good for our health. I avoid property with these power lines anywhere near.
Linda Hunter	Hendersonville, NC	2015-08-18	I am opposed to these transmission lines running through our beautiful mountains
Lisa Almaraz	Marshall, NC	2015-08-18	Blind destruction is not acceptable in the name of expansion. We need sustainable energy projects not irresponsible ones like this.
Josh Galla	Galveston, TX	2015-08-18	Modernization? There is nothing modern about this, all there is, is profit. When will nature profit from human beings.
Terri Hunnicutt	Lake Lure, NC	2015-08-18	Duke should be concentrating on clean energy sources, rather than clearing more land for massive electrical lines.
Jonathon Edwards	Hendersonville, NC	2015-08-18	Do I really need to say it?
Alex Matthews	HENDERSONVILLE, NC	2015-08-18	I'm signing because Duke energy has no right to destroy the natural resources that belong to the citizens of the state of NC.
Brandon Abee	Fletcher, NC	2015-08-18	17B would be right behind my house.
Elizabeth Chodkowski	Travelers Rest, SC	2015-08-18	Project will ruin the environment and decrease property values significantly. Oppose option #4!!!!
Wayne Chodkowski	Travelers Rest, SC	2015-08-18	This project will decrease property values drastically, ruin the environment, especially oppose option #4!!!!!!!!!!

Name	Location	Date	Comment
Adam Roper	Los Angeles, CA	2015-08-18	There has got to be a better alternative to forwarding/spreading energy than building these eyesores through the beautiful Western North Carolina.
Max hattman	Hendersonville, NC	2015-08-18	to preserve the land I was raised on
John McCarthy	Mills River, NC	2015-08-18	Duke cannot show why their proposed transmission lines are actually necessary
Julie McKinney	Lake Lure, NC	2015-08-18	1. I sell real estate in one or more parts of the proposed route areas and 2. I have family members whose property value will be significantly impacted in a negative way and 3. this does not appear to be an extreme necessity. Maybe they should consider running their lines through tunnels instead of through neighborhoods.
Jeannette Winn	Greenville, SC	2015-08-18	This project is unnecessary and would irreparably harm the mountains and foothills. Duke should follow example of Germany and install solar panels at least. Huge numbers of businesses and home have them there, and installations were subsidized. They are also far ahead of us with wind power. This kind of clear-cutting should NOT be allowed.
Marissa percoco	Weaverville, NC	2015-08-18	I want our land to stay wild so my children can wander in pristine forests. Thank you.
Deborah Kent	Fletcher, NC	2015-08-18	It will destroy the beauty of our neighborhood and negatively affect property values
Matthew Carlock	Hendersonville, NC	2015-08-19	I don't want the natural beauty of this area to be "modernized."
Price Story	Mills River, NC	2015-08-19	My property is on one of the possible routes.
Lillian Lilly	Hendersonville, NC	2015-08-19	I do not think that this new transmission line is necessary and building a new line would be very disruptive to the beauty of our SC foothills and NC mountains.
kelly roper	Hendersonville, NC	2015-08-19	I am from Hendersonville and will be returning to live there soon. The area is too beautiful for this type of power lines.
Betty Montgomery	Spartanburg, SC	2015-08-19	I do not want them going through my property
John Montgomery	Spartanburg, SC	2015-08-19	I own property in 2 places where the new proposed power line will be. We need to stop this project and preserve our natural areas in this part of our states
Lisa Shea	Charlotte, NC	2015-08-19	To maintain the beauty of our mountains!
Michael Breslin	Marion, NC	2015-08-19	I want to preserve the beauty of our mountains. I'm not convinced that there is a need for this project and I don't understand why the existing route can not be used. I live in Mills River on the Buncombe County side and would be impacted by the proposed routes.
Mary Hallward	Travelers Rest, SC	2015-08-19	I am signing as I am opposed to Route 4 which will severely impact the property values and views of my neighbours' properties at the Cliffs. This area contributes significantly to the economic well being of the area and should not be damaged.
Daniel Watson	Hendersonville, NC	2015-08-19	We must keep the Carolina foothills protected!
Jennifer Waldrop	Zirconia, NC	2015-08-19	It's a ridiculous idea. It's destructive to nature & many peoples livelihood.
Ann Cornelson	Zirconia, NC	2015-08-19	I would like to see Duke Energy tie into existing line as SCNNA has done in SC.

Name	Location	Date	Comment
Brian Davidson	Fletcher, NC	2015-08-19	My home lies directly along a proposed route 17B that would run through the Hooper's Creek community of Fletcher and Henderson County. This would constitute a net "new" route and would unnecessarily impact a significant number of homeowners, their property values, and have massive environmental impact along the ridges where the line would be cut. I adamantly oppose the 17B route and encourage Duke to either use existing routes between Lake Julian and Campobello or run the new line up the I-26 corridor where there are no communities.
Sandra Perrigo	Asheville, NC	2015-08-19	I am against the proposed route that adversely affects Buncombe, Henderson, and Polk Counties in NC
Phyllis Berman	Black Mountain, NC	2015-08-19	Everyone needs to speak up about the rampant abuse by industry of natural wealth.
Jared kay	Mills River, NC	2015-08-19	Our mountains in WNC need to be preserved. Duke energy has shown time after time that they don't care about the environment, the culture, or the people that live here. What they have proposed will affect my sister's neighborhood, and will change our mountains forever.
Pilar Pascual	Tryon, NC	2015-08-19	It will destroy the natural beauty of our community in Polk County. This project will only benefit Duke Power and their stock holders.
Kay Reed	Arden, NC	2015-08-19	I do not want these across the street from my house. Not only will they devalue property but scar the beauty of our neighborhood !
Holly Robinson	Flat Rock, NC	2015-08-19	Duke Power could bury the lines or come up with a better option.
Jessica Knapp	Fletcher, NC	2015-08-19	This will be affecting property that my fiancé's owns.
Kathleen Jennings	Landrum, SC	2015-08-19	Destroys our scenic historic byways, destroys interiors for huge access roads, total blight on the areas, not needed and SC has no responsibility to power the world, don't care about Duke's flat earnings, increased crime from Increased access, nature destruction, eye sores, taking of private property and many more.
Gladys Jennings	Greenville, SC	2015-08-19	Affects family owned land drastically in its proposed path. Worked hard for this land & now Duke wants to take it over - for NC?? Not fair at all. Strongly object.
david wilson	Tryon, NC	2015-08-19	don't want power line-don't need power line
Karen Frost	Zirconia, NC	2015-08-20	Don't destroy the beauty of mountainous NC. Also, worried about water contamination.
Renee Nix	Winter Park, FL	2015-08-20	I was born and raised in Hendersonville NC spent summers in Greenville SC. Due to job we live in FL but travel to theses areas at least 4 times a year. I want the Duke Energy WNC Project stopped.
Mike Bates	Moore, SC	2015-08-20	I am a property owner in the Wicklow community and I oppose Duke Powers current planning for Spartanburg County.
Tricia Welch	Wesley Chapel, FL	2015-08-20	Don't let Duke destroy our beautiful mountains!
Steve Nemec	Hendersonville, NC	2015-08-20	I am tired of seeing supposedly illegal monopolies walking on the rights of the individual at the expense of the individual.
anne swift	Columbus, NC	2015-08-20	you have the option of burying these lines, it is done in Europe with great success and it does not negatively affect property values, jobs and overall quality of life.
Beverly Spillers	Arden, NC	2015-08-20	The power lines emit radiation and it will destroy all the beauty in its path not to mention everyone's home values would decline.
Anne Wankel	Hendersonville, NC	2015-08-20	We have let too many of our mountains in NC be built upon and ruined. It is time we stop and look at what we have done and try and preserve what is left.

Name	Location	Date	Comment
James Fender	Arden, NC	2015-08-20	The proposed route takes the lines within several hundred feet of my home.
Barb Swift	Hamilton, Canada	2015-08-20	It will effect forests & mountain views.
Mike Bates	Moore, SC	2015-08-20	Property owner in Campobello, SC. Had plans to build on land but will reconsider if Duke pushes this plan through.
Deanna Bernhardt	Welland, Canada	2015-08-20	I am opposed
carolyn ashburn	saluda, NC	2015-08-20	There are alternative ways of getting this job done. Please use them.
Laura McConnell	Rocky Mount, NC	2015-08-20	This is a quiet, peaceful mountain town. The noisy electrical popping of these transmission lines is a nuisance. They will also will negatively affect property values.
James Shaw	Wrightsville Beach, NC	2015-08-20	It's a bad idea and lacks a forward thought process that will affect future generations.
Connie Aiken	Zirconia, NC	2015-08-20	One of the proposed lines is going to be right in front of my house. About 200 feet from my porch and also on the side of my house. However, regardless of where Duke Energy puts this line, it is wrong to disturb the diversity of this unique region. The Southern Appalachians have one of the most eco friendly locations in the world. We have Red Wolves, Bears, Eagles, and Salamanders which are only found in the Southern Appalachians. History was made along with one proposed route with The Buncombe Turnpike, built in 1834 as a drivers road connecting Greenville, SC and Greeneville, TN. The United States Poet Laureate, Charles Wright, has many poems focusing on the region along Pinnacle Mt. Road, one of the proposed routes. The economy will be greatly effected due to the loss of real estate and intrusion upon farming. Not to mention that the increased risk of cancer from these electrical lines is still being studies.
Deb Brown	Coldwater, Canada	2015-08-20	no one needs this in any habitable area
Roberta Walck	Nokomis, FL	2015-08-21	Disregard for private property rights, the environment, the residents Do not allow this to continue
Maurice Dozier	chantilly, VA	2015-08-21	I enjoy the drive when I'm down visiting and can't imagine power lines killing the scenery. There are beautiful views everywhere in the mountains that shouldn't change!
Ruth Reeves	Flat Rock, NC	2015-08-21	This project will be devastating to our beautiful mountains. Duke power is bullying our citizens into defending our living space. Frankly, we don't need them to build, these monstrosities to "fuel Growth". Thanks, Duke Power, we will direct our own growth and if it means less of your power, good for us.
rebecca boswell	Hendersonville, NC	2015-08-21	I am against this project.
Rita bergstrom	Zirconia, NC	2015-08-21	thes lines are going through an unspoiled area in Western North Carolina
Terry McMinn	Arden, NC	2015-08-21	It's the right thing to do.
Dawn Ford	Campobello, SC	2015-08-21	These high voltage powers lines would be running very near to our house and the local high school.
Mary Lou Diekmann	Tryon NC, NC	2015-08-21	It is not the option in keeping with the times .there are techniques that enable companies to bury cables. And how about wind power and green energy. Europe is so far ahead of us. Wake up and do not spoil our gorgeous area and humiliate yourselves for an antiquated solution!!!!
Rita Hammond	Columbus, NC	2015-08-21	I live on beautiful White Oak Mountain.
Terry Hammond	Columbus, NC	2015-08-21	Significant environmental concerns for the potential white oak mountain path. Look at chocolate drop mountain as an example of how things can go wrong.
Anne Peden	Pelzer, SC	2015-08-21	Of the historic sites that will be affected.

Name	Location	Date	Comment
SUsan fox	Houston, TX	2015-08-21	because I believe in preservation and very thoughtful and careful development.
Gerald Gaige	Gassville, AR	2015-08-21	I oppose the degradation of the natural beauty and environment for this purpose - when existing rights of way are available. I particularly oppose Route 4 which traverses my neighborhood. The cutting of new paths through our forests and across our hills - through residential areas and violating nature preserves and conservation reservations is unnecessary for Duke's purpose. The energy transmission companies should be forced to prove (1) why that their existing rights of way cannot be used for any new project and (2) the NECESSITY for destroying any new pathways through our beautiful area in northwest South Carolina.
John Rankin Rankin	Nokomis, FL	2015-08-21	This project would cause irepairable harm.
Deborah Caulder	Inman, SC	2015-08-21	I do not see the necessity to destroy the country side and the beauty of this area when other options are available.
Marc Orinson	Concord, NC	2015-08-21	Save LutherRidge in Arden, NC. Don't disturb the serenity with high power transmission lines.
Carolyn Bennett	Baton Rouge, LA	2015-08-21	The plan is a travesty to the natural and human environment.
Robert Carlson	Landrum, SC	2015-08-21	The development(Ciffs at Glassy), where I live, is directly in the path of one of the proposed routes. If you pick that route you are going to destroy the property values of our home and all of those 1000 lots/homes on Glassy mountain.
Mary Helfrich	Greer, SC	2015-08-21	use the lines that you have or AT LEAST place them where the power will be used and not in Greenville County
Allan Pruette	Tryon, NC	2015-08-21	Prefer underground lines
Jennifer Newman	Mills River, NC	2015-08-21	I don't want this near my home
JoAnne McLain	Greenville, SC	2015-08-21	Unacceptable!
Ellen Henry	Albuquerque, NM	2015-08-21	I am not willing to look out my front window and see 150 ft towers ranging across Burney Mt. and Nor do I want your Roundup draining down into my well
anna hull	Columbus, NC	2015-08-21	I do not want the natural beauty of our mtns, to be destroyed
Debra Norie	Scottsdale, AZ	2015-08-21	I hope to move here and I want pristine beauty, local orchards and less duke energy!!!
Dot Bishop	Greenville, SC	2015-08-21	I am extremely concerned that this proposed transmission line will be detrimental to our beautiful natural woodland areas and the extraordinary diverse populations of plants.
James Kilpatrick	Greenville, SC	2015-08-21	We need to maintain our natural beauty
Theresa Rogers	Hendersonville, NC	2015-08-22	So many of my friends will be negatively effected by this.
Cathy McMillan	Campobello, SC	2015-08-22	I live near the proposed site and don't want my environment altered. I believe there is a better solution to ASHEVILLE'S problem.
Emily Cothran	Inman, SC	2015-08-22	I think that there should be something better than this. We do not want this in our backyard.
Monica Jeffers	Landrum, SC	2015-08-22	I want to stop the Duke Energy modernization project!
deborah APICERNO	Hendersonville, NC	2015-08-22	WNC is one of the last remaining natural beauties...don't ruin it
Susan Kocher	Lynn, NC	2015-08-22	This cannot happen
john coker	Pelzer, SC	2015-08-22	I love the mountains especially that part of the mountains.

Name	Location	Date	Comment
Karen Holmes	Marietta, SC	2015-08-22	We must to protect the beauty and control the wildlife. Destruction of our forrest is driving the animals out of their habitat. Northern Greenville County is well known for its natural beauty, I do not want to see it disrupted. We already have to look at enough lines. Why not run them underground!
Frances Moon	Marietta, SC	2015-08-22	I understand they have to do this stuff, but destroying an apple orchard is going too far.
Fleur Stone	Arden, NC	2015-08-22	In reference to 17B
Susan Andresen	Brevard, NC	2015-08-23	Duke energy acts as though North Carolina is a commodity to be bought at whim. We cannot sacrifice the forests and mountains of NC nor the sacred ground of Kanuga conference center.
Wendy Zucca	Hendersonville, NC	2015-08-23	My property values will go down trans lines are producers of unhealthy energy that will affect the environment and will ruin Lewis creek a rare southern Appalachian bog that borders our backyard it will affect Clear creek water supply and destroy my NWF protected bird sanctuary the trans lines will cause a nearby habitat for humanity housing community and the trans lines will impact my disabled mother's pacemaker function leave our beautiful WNC landscape alone!!!!
Lis Moser	Charleston, SC 29412, SC	2015-08-23	there are alternatives for grid expansion. These high-voltage overhead transmission lines are no longer needed. This technology is outdated and hazardous to people's health, the environment, etc. You can contact me at any time and I will show you the alternatives. I have researched the matter extensively and we, in NC do not want these structures either ( <a href="mailto:lismosertranslations@gmail.com" rel="nofollow">mailto:lismosertranslations@gmail.com</a> )
Cathy Jo Hartwig	Greer, SC	2015-08-23	I love this area and am involved in the Tryon Garden Club, caretakers of Pearsons Falls. This will ruin this beautiful waterfall.
Louisa Cameron	Charleston, SC	2015-08-23	This is a lot of pristine forest and farmland
Sally Iannazzone-King	Asheville, NC	2015-08-23	I want to keep out mountains as they are!
Tiffany Morton	Columbus, NC	2015-08-23	We live in a beautiful county and I do not want huge still towers the only thing you see when you come through our beautiful little town! I also do not want to look out my front door and see those towers!
Irving Hunt	Landrum, SC	2015-08-23	I am signing this petition because I am opposed to the transmission line going through The Cliffs at Glassy community and Route # 4.
Nancy Ralston	Landrum, SC	2015-08-23	I am signing this petition, because I am very opposed to Route 4 for the transmission line to go through The Cliffs at Glassy, Cliffs Valley, and scenic Highway 11!!!
riverridge community	Flat Rock, NC	2015-08-23	My community is going to be directly effected
Susan Jenkins	Simpsonville, SC	2015-08-23	Twice in my life, family property has been obtained through eminent domain for the purpose of " modernization" by Duke Power. Surrounding property value was greatly reduced! The towers are a eyesore. Surely, there is a better solution...
John Long	Fletcher, NC	2015-08-23	I oppose the whole project and specifically Route 17B!!
Alan Ruby	Landrum, SC	2015-08-23	I oppose Duke Energy's proposed Route 4 through Upstate South Carolina
William West	Moore, SC	2015-08-23	Does not benefit homeowners in Melrose Mountain, NC.
Emily Gillis	Marion, NC	2015-08-24	SAVE OUR BEAUTIFUL WNC, OUR TREES, OUR CLEAN AIR, OUR GORGEOUS EARTH

Name	Location	Date	Comment
Dianne Jordan	Greenville, SC	2015-08-24	Route 4 will seriously affect the beauty and vie of our property on Panther mountain and will deface the gateway to our South Carolina mountain area going up highway 25.
Alicia Mansury	Arden, NC	2015-08-24	I'm against Duke energy, ruining our land for their gain! This is not necessary!!!!
Marlene Tatham	Flat Rock, NC	2015-08-24	I am very much against this project. It will ruin the beauty of our area and cause a significant drop in our property values
Paul Amirto	Flat Rock, NC	2015-08-24	I moved to the WNC region for the beautiful mountain views, not industry and hi tension lines. As a real estate appraiser, I understand the loss of property values we will suffer due to these unsightly lines. Although I under stand progress, these lines can be run underground and would be willing to pay a higher cost of power for this option.
Walter Oates	Zirconia, NC	2015-08-24	I am opposed to the proposed transmission line from SC to Asheville.
Alison Darby	Anderson, SC	2015-08-24	I am concerned about the historical and natural consequences if this area is disturbed and understand that there are alternate plans available.
Donald Ziermann	Flat Rock, NC	2015-08-24	I live in a beautiful, pristine area along the Hungry River. The waters are clean and clear, the wildlife will definitely be impacted by the power lines. Duke energy should not be allowed to destroy our lovely mountain paradise.
Gerard Lawton	Saluda, NC	2015-08-24	These lines will impact conservation easements, scenic waterfalls, unique micro climates, eco businesses and forever change a lifestyle many of us cherish. Progress isn't everything!
Margaret Cagle	Hendersonville, NC	2015-08-24	This action will ruin the beauty of our countryside (visual pollution), not to mention the decrease in home values, the affect it will have on vegetation and wildlife, and any potential dangers that may or may not be disclosed by Duke Energy. Many of the homes that will be affected have been in their families for years....mine included. The best preference would be to bury underground cables, but I'm afraid this may be dollar figures as opposed to what is right with DE!
Catherine Byrd	Mount Pleasant, SC	2015-08-24	I do not believe this project is in the best interests of upstate South Carolina and Western NC. Why should these areas suffer so Duke Power can make more money? It is WRONG to allow a PRIVATE entity to seize property this way.
Robert Beatty	Fletcher, NC	2015-08-24	I find it reprehensible that Duke Energy would destroy pristine forested mountain slopes with power distribution lines.
Alaina Culleton	Mills River, NC	2015-08-24	I choose to live here because of the beautiful Mountains. I can not believe that Duke would want to run these huge ugly monstrosities through our beautiful mountains. This must not be allowed to happen.
Kevin Mitchell	Fletcher, NC	2015-08-24	The 17B part of this project will seriously impact my property value, as the view is one of the best aspects.
Cheri Mitchell	Fletcher,NC, NC	2015-08-24	Loss of beautiful mountain forests, decrease in property values. Think about the tourists who come to see these mountains.
Randi Thompson	ZIRCONIA, NC	2015-08-24	I am tired of power company's ruining our natural wonders. They choose the path that easiest for them while not considering what they are destroying for both humans and animals.
Jennifer Trudrung	Asheville, NC	2015-08-24	Please don't ruin the forests of NC and SC!
Paul Schattel	Asheville, NC	2015-08-24	Duke Power does not have our best interests at heart.
Phillip Burns	Fletcher, NC	2015-08-24	I have concerns with the environmental impact to our mountains that this expansion will cause..

Name	Location	Date	Comment
Jennifer Beatty	Fletcher, NC	2015-08-24	I'm trying to help preserve our pristine green mountain that make this area beautiful and special.
Bruce Evans	Flat Rock, NC	2015-08-24	One of the proposed routes (segment 21) goes through a very sensitive area comprised of many mountain springs, streams and a river. A power transmission line and the subsequent upkeep of the route would devastate the eco system.
David Brickley	Flat Rock, NC	2015-08-24	I am strongly opposed to this project. I feel it will have a negative impact on the region. Segment 21 cuts thru the River Ridge subdivision. This area has many springs that flow into the Hungry River.
Katherine Hearn	Watkinsville, GA	2015-08-24	I am signing this because this property has endangered species , family burial site and would affect the lives of many people who live there.
Guadalupe Chavarria II	Asheville, NC	2015-08-24	Duke Energy should think of a positive alternative to solve this issue. I'm against destroying any land...
lillian falciglia	asheville, NC	2015-08-24	We need our trees and our beautiful mountain sides.
Melinda Causey	hendersonville, NC	2015-08-24	Keep the mountains beautiful. What gives Duke Energy the right to take away what we have worked for and have bought to stay away from the city life. What they are doing is criminal to the people that must depend on them. Put it in a place to have the least impact on NC and SC citizens that OWN the property. Stop being BULLIES. Do the right thing.
Paige Carter	Greensboro, NC	2015-08-24	I live and work in these areas and want to enjoy my time living in the blue ridge mountains.
George B	Asheville, NC	2015-08-24	this is wrong SC needs to work on ways to get there own energy and not destroy NC wildlife and farmland.
lisa west	Campobello, SC	2015-08-24	of the negative visual, and environmental aspects this project would cause
Debra Fortune	Hendersonville, NC	2015-08-24	I do not want an ugly view preserve our beautiful state
Judy McCracken	Flat Rock, NC	2015-08-24	My home and property is in the "Study Corridor!!"
Politically Correct	Washington, DC	2015-08-24	Really why waste electricity on these worthless hillbillies in the Carolinas? Don't upgrade the infrastructure, don't bring them the benefits of civilization, let them stay happy in their backward ways. Invest in infrastructure in areas where people don't resent progress.
Renee Wilkie	Fairview, NC	2015-08-24	Want to try and save the beauty & sanctity of our mountains and forest land here in WNC.
Matthew Waldrop	Zirconia, NC	2015-08-24	This project will destroy my favorite apple orchard and tear up my county.
Betty & Elmer Henry	Eustis, FL	2015-08-24	It's time we started doing more to protect the earth that God gave us to take care of.
Lonnie LeClair	Kings Mountain, NC	2015-08-24	I ride that area on my motorcycle because it is a beautiful area, lets nor ruin it. Bury the damn power lines.
Amanda Green	Mill Spring, NC	2015-08-24	Please preserve WNC Polk Co., my ancestors for hundred years have lived here and preserved it the best they could. Thank you
julie eubanks	Landrum, SC	2015-08-25	this should not be taking place in this area
J. R. Miller	Greenwood, SC	2015-08-25	Family tradition culture
Peter Phelps	Asheville, NC	2015-08-25	I support micro PV generation
Judy Floren	Fletcher, NC	2015-08-25	Don't want this to be right next to my home. Health reasons, visual reasons, property values, etc.
Roger Floren	Fletcher, NC	2015-08-25	Devaluing my property, destroying my view, Duke Energy can use other ways of getting the lines here-underground.

Name	Location	Date	Comment
Carly Mitchell	Boston, MA	2015-08-25	Don't want this right across the street from my house. Destroys my views, can have potential health risks, displaces wildlife, decreases property values. Put the lines somewhere else less populated or bury the lines.
Gay Cooley	Belton, SC	2015-08-25	Just saw on the News tonight Sky Top Apple Orchard was fighting g to keep their land scape free of new power lines.
Jimmy Camp	Landrum, SC	2015-08-25	I want it STOPPED! We want it STOPPED!
M..L. Steadman	Landrum, SC	2015-08-25	Use current right of ways and towers.. Do not destroy any more land and beauty. We do not want these energy fields in any more places.
Ruth Holbert	Hendersonville, NC	2015-08-25	We do not want the transmission lines in our Mountains which will hurt our property values, our wildlife, our water supply or our farm land. If you must do this then run it underground and down Interstate 26 NOT through our homes, schools and towns!!!!!!
Haidee Stith	Lexington, SC	2015-08-25	The economy of the Foothills and Upstate is contingent on the unspoiled vistas of the First Peaks. Polk County's economic development asset is the rural, mountainous terrain with unblemished views provided by the Green River Valleys. Duke's proposed routes will devastate all property values (not just those in the path) without regard for the permanent impact to our lands, the forfeiture of future resort and residential development (the only boom for the County), and also without regard for the huge cost to Duke's shareholders and customers. Yes, one route bisects our property--cutting across the pristine Green River and Brights Creek. The erosion caused by the construction of towers and ecological damage to the creek and river, Lake Adger--is incalculable. For us, it will mean that our property is unusable and that we will look out onto power lines rather than wilderness. Other routes will create similar environmental disasters by cutting through equally heavily-wooded steep forests, uncontaminated creeks and waterfalls. Duke Power, if need for this project is substantiated, should only consider using its existing ROW for such lines, as SCE&G did for a similar project in SC. Read the descriptions in this petition--from Duke's acquisition of land for its substation to the proposed routings and issues with the Asheville Coal Plant, this project doesn't pass muster! Please join us in opposition!
jacqueline padula	Landrum, SC	2015-08-25	The power lines should not be built within our community.
Robert Chiles	Hendersonville, NC	2015-08-26	I don't want this to adversely affect Kanuga Camps and Conferences. Why don't you keep the power generating station in Ashville (close to I-26) and just convert it to Natural Gas firing instead of coal. Wouldn't that meet the EPA requirements and save everybody a lot of money?
Judy Duncheon	Wesley Chapel, FL	2015-08-26	I live here.
Marci Grady	Wilton Manors, FL	2015-08-26	Power lines should not be anywhere near the watershed. Save the beauty of the foothills!
marya taylor	Palatine, IL	2015-08-26	Don't put a scar on the face of our beautiful foothills and Blue Ridge Escarpment a scenic wonder of South Carolina.
Chelsea Johnson	Nashville, TN	2015-08-26	This will drastically alter the beauty of this area.
jeff smith	Mills River, NC	2015-08-26	There will be too much devaluation of property values, part of it due to obstruction of views from pristine properties. This will ruin tourism. This is too close to National Forest lands; too close to our homes; and too close to our water resources.
Bob Mitchell	Fletcher, NC	2015-08-26	The T- line is not needed. The power could be provided by a smaller power plant on the existing site.

Name	Location	Date	Comment
Brandon Inabinet	Greenville, SC	2015-08-26	Rather than new transmission lines, generate energy by solar right next to where you need it!
Robert Padula	Long Creek, SC	2015-08-26	Duke should find other ways to modernize, like burying the wiring and cables underground. The plan they have is very outdated and will ruin the beauty the Western Carolinas.
Kelley Swann	Mableton, GA	2015-08-26	This directly effects my mother-in-laws land and therefore my family in Saluda, NC
James Holbert	Hendersonville, NC	2015-08-26	I don't want high voltage power lines running through or near my property.
nancy roth	Tryon, NC	2015-08-26	we cannt let them ruin our mountains.
Jack Conway	Pelham, NY	2015-08-26	This is absolutely terrible.
Tanya Dodd	Greer, SC	2015-08-26	I'm signing because I was born and raised in the area that Duke is wanting to run their lines. My parents still live there. Not something we want to see happen!!!!
Alicia Lund	Fletcher, NC	2015-08-26	there are better solutions then this one.
Andrew Maddox	Lexington, SC	2015-08-26	This power line will ruin the atmosphere of falling creek camp, a place that is needed for boys to grow and learn
Suzanne Holbert	Dalton, GA	2015-08-26	I am a native to this beautiful area and want to preserve the landscape and history for my family.
Frank Benton	Hendersonville, NC	2015-08-26	Exstreamly opposed to the trans. lines. They cut my property (23 acres) in half. We are at 3000'. Destroy our views,two streams, one large spring(150'x30'), 50' from my daughters home with two small children (2 and 9 years old). Deviating to me and my family.
Noah Rogers	Naples, FL	2015-08-26	I genuinely care for the environment especially that area near my home. Duke has no regards for the environment it damages and I will not alow them to damage the ecosystem of my home area.
Kellie Fahy	Navarre, FL	2015-08-26	I care about the environment.
Marianne Rogers	Naples, FL	2015-08-26	I want to keep the natural integrity of this area.
Daniel Patterson	Blanchard, MI	2015-08-26	Duke Power is wrong to do this.
Jimmie Lynn Whitmire	Zirconia, NC	2015-08-26	This will directly impact the value of our mountains...monetarily and environmentally....there has to be another way....use your billions of revenue to figure it out!
John Hane	Columbia, SC	2015-08-26	I'm signing b/c I have a love for Kanuga and western NC, having spent many a summer in Saluda, NC. I don't want my children playing underneath high voltage power lines at Kanuga.
Craig Beuerlein	DALLAS, TX	2015-08-27	It will destroy the natural beauty of a camp that I love, and that I hope one day my kids will love
Margaret Hane	Columbia, SC	2015-08-27	The line will go right through Camp Bob near Hendersonville , NC, which serves underprivileged children. It will also wreak havoc with Kanuga Conferences, an Episcopal Retreat Center.
Lynn Lictus	Reading, PA	2015-08-27	Don't destroy the beautiful views. The line can go near the highway It's already cleared!!!!
Nancy Thoams	Hendersonville, NC	2015-08-27	I want to preserve and protect the beauty, businesses and homes of WNC.
Karen Benton	Hendersonville, NC	2015-08-27	opposition to the transmission line project in western North Carolina
judy meinzer	Hendersonville, NC	2015-08-27	There are other options!

Name	Location	Date	Comment
Jessie Russell	Asheville, NC	2015-08-27	I live on family heritage land that will be permanently damaged within 500 feet of my family home. I will be the sixth generation to inherit this land and will fight for the seventh. SAVE THE MOUNTAINS!
Anthony Tribbey	Black Mountain, NC	2015-08-27	I'm helping to save my best friend and buttercup land .. It's her heritage for generations n it really good for things to be passed on from child to child .dont be taken anything from her she works hard n don't have a lot but if it family stuff I'm down n will stand behind my land n my best friend land anytime or any place ..
melissa ingle	Waycross, GA	2015-08-27	im signing because this is my familys land and i have spent most of my childhood holidays in these mountains and now as an adult i live in a city where there isnt much regard for natural habitat and its just a shame to destroy the few places left in our world that are not industrialized !! Find another route Duke!!
Catherine Tedder	Asheville, NC	2015-08-27	I love my mountains and the homes of my friends who have been there for generations past (and hopefully generations to come).
Savannah Koff	Waycross, GA	2015-08-27	This is family land!!!
Patricia Case	Hendersonville, NC	2015-08-27	Nature !!!!!
Todd Bigley	Saluda, NC	2015-08-27	Lines not needed. Use existing structures. Will ruin the local environment.
Carolyn Hatchette	Landrum, SC	2015-08-27	Destruction of the environmental and aesthetic setting of the area that I have lived near for over sixty years.
Denise Futch	orange park, FL	2015-08-27	The Koff family doesn't deserve this!
Patricia Russell	Zirconia, NC	2015-08-27	We built our home on 5 generation family land in the woods with a porch view of the valley over Lake Summit and the proposed line would cross our property on two sides of our home. Property value isn't an issue as we would never sell but this will ruin the peace & tranquility of our cherished mountain land.
Zach Warner	Hendersonville, NC	2015-08-27	Anything that could negatively impact the area that I love and live in is not OK.
Evelyn Reynolds	Hendersonville, NC	2015-08-27	No one wants to look at these lines.
Zachary Combs	Smyrna, GA	2015-08-27	I'm signing because I don't want the beauty of my home destroyed.
Lisbeth Moore	Campobello, SC	2015-08-27	I believe this project will ruin the Upstate of SC
Tom Kelley	Asheville, NC	2015-08-27	I own property on line Patterson Rd. on proposed line 10B and strongly oppose the construction of this line because of environmental issues and property devaluation.
Mary Mooers	Zirconia, NC	2015-08-27	There is a better way.
Robert Morgan	Tryon, NC	2015-08-27	The proposed routes would destroy our natural beauty. Why not run the lines along I-26?
jeff collis	Hendersonville, NC	2015-08-27	I own 45 acres being destroyed on proposes route 10b
James Toyne	Anderson, SC	2015-08-27	I love the beauty and life of our foothill, I don't want to see they sacred anymore. We as a nation and society should investing in off grid solutions not expansion of infrastructure.
Sarah Behm	Niwot, CO	2015-08-27	We need to be more proactive in developing wind, solar, and geothermal energy sources.
Taylor Griffith	Hendersonville, NC	2015-08-27	I live in this beautiful area and can't believe this disgusting monopoly of a company want to plow through these untouched mountain landscapes! Seriously? There are more important things in the world than money and greed! Take a look around, we live in a gorgeous place and destroying it with huge transmission lines is an absolute abomination.

Name	Location	Date	Comment
Lisa Gundersen	Saluda, NC	2015-08-27	This directly affects my property!!! Not to even begin how it affects WNC as a whole.
Tammy Teodosio	Seattle, WA	2015-08-27	I am a regular visitor to the Zirconia area of North Carolina and have enjoyed the untouched beauty of the mountains there. I strongly support Duke Energy take a look at alternatives to destroying some of the last truly peaceful areas of our country.
Jane Brophy	Fairview,, NC	2015-08-27	They will destroy our area!
Billie Jean Sheffron	Columbus, NC	2015-08-27	Don't ruin our mountains!
Zachary Bruce	Inman, SC	2015-08-27	I am signing because I disagree with the destruction of forest land and the values of the owners here who pay taxes to keep such thing from happening!
Margaret Driskill	Huntsville, AL	2015-08-27	I was reared in the Zirconia/Tuxedo/Saluda area of Western NC over 70 years ago!!! Please don't disturb the natural beauty or wildlife in this area with Duke's proposed transmission line project. God Bless you and please, please hear my plea! Thank you, Margaret Driskill
Joseph Pucilowski	Flat Rock, NC	2015-08-27	Stop THE POWER LINES FROM BEING VISIBLE. IF DUKE WANTS THEM LET THEM&it; PAY FOR THEM TO GO UNDERGROUND.
Erika Schneider	Marshall, NC	2015-08-28	I want a clean energy future
George Bostic	Fletcher, NC	2015-08-28	A solar farm would be a better solution.
john moremen	Louisville, KY	2015-08-28	I'm signing so my kids can understand natural beauty
sue green	Hendersonville, NC	2015-08-28	the power lines are better placed in an existing dot easement along I-26 where personal property values and uses will not be affected.
Shirley Pettit	Spartanburg, SC	2015-08-28	Unnecessary destruction of our beautiful foothills for no good reason other than to line certain people's pockets is an abomination.
pat Rose	Travelers Rest, SC	2015-08-28	It will cause a multitude of environmental problems in my community
Don Justus	Hendersonville, NC	2015-08-28	This will affect our business and homes in a very negative way
Cyndee Protis	Fletcher, NC	2015-08-28	I think they should run down the interstate Or the railroad tracks. Need to stay off of private land.
John Everett	Ocala, FL	2015-08-28	save Mills River NC. from duke power lines
Linda Lambert	Whiteford, MD	2015-08-28	Please save what little is still left! Spend that \$\$\$ developing alternate energies that don't poison us all.
Judi Carter-Coker	Travelers Rest, SC	2015-08-28	I am retired and my largest asset would be worth half as much if Duke chooses Route 4
Donna Walter	Campobello, SC	2015-08-28	Save lives an our whole foothills area
Marsha walker	Hendersonville, NC	2015-08-28	I don't want the lines right next to my house and taking out my orchards!!!
April Freeman	Fletcher, NC	2015-08-28	I think it will have negative impact on my community of hoopers creek
Jamie Nguyen	Hendersonville, NC	2015-08-28	I want to protect our mountains for our future generations.
Justine Schlueter	Alexander, NC	2015-08-28	We need CLEAN energy with a zero carbon footprint like solar, wind and sometimes small hydro systems. I say lets work on shutting Duke coal down and replacing it with aforementioned!
Katrina Thissen	Saluda, NC	2015-08-28	I am protecting my home and children's home
Nancy Blankenship	Fairview, NC	2015-08-28	I don't want to see WNC ruined by all the behemoth structures Duke would use to hold the power lines.

Name	Location	Date	Comment
Ellen Katherine Lee Bruce	Inman, SC	2015-08-28	<p>I disagree with a monopoly having the idea it can destroy land for its own profitable gain. Taking no account for the now generations and certainly not for the future generations whom will love the foothills. Those who Love to live there and visit and invest in its local Economy. The Eco systems surrounding will no doubt suffer worse than us, as this land is there instinctual home, I hope many will stand against Duke Power and there plan to rape the land and make us all pay for the plan in the end, Duke Power loves our money, not our Foothills! If we allow them to destroy the land which has stood for generations, we all will have a to live knowing we failed to take up our responsibility given by God to be good stewards of His creation. God Be With Us, Power in prayer and action!</p> <p>" there is no week nor day nor hour when tyranny may not enter upon this country, if the people lose their roughness and spirit of defiance. "</p> <p>-Walt Whitman</p>
Tim Peck	Asheville, NC	2015-08-28	I'm signing this electrical online petition to demonstrate that you people are a bunch of hypocrites.
Will Mercer	Saint Augustine, FL	2015-08-28	Companies have the right to pursue profit, but not at the expense of citizens' rights to land, privacy and the unnecessary modification of natural landscape and environment.
Elizabeth Hogue	Wellford, SC	2015-08-28	I don't think duke power should have a monopoly on power and the ability to destroy whatever is in their way.
Margaret Alexander	Charlotte, NC	2015-08-28	Kanuga!
Kimberly Gilcrease	Arden, NC	2015-08-28	I am opposed to this period!
□Jean Fryer	Hendersonville, NC	2015-08-28	It effects my neighbor and friends and our property and Henderson county. The towers will effect our tourism . It will effect the beauty of our scenic views . Please consider under ground. We don't want lose our our home either . Don't want the towers.
Chris Fryer	Hendersonville, NC	2015-08-28	I Do not want this in our area destroying our lives, home property value, tourism and beautiful country.
Bev Cook	Columbus, NC	2015-08-28	I'm signing this petition because I adamantly oppose Duke Power constructing their lines through WNC especially Polk County where everything from residential property values to aesthetics will be negatively impacted. We are not serviced by Duke and are opposed to their intervention.
Cathy Griffin	Greenville, SC	2015-08-28	I patronize businesses, & have family in the area.
annie reed	asheville, NC	2015-08-29	It is important !!!!!!!!
Pamela Bradlely	Lexington, SC	2015-08-29	I am so tired of Mother Earth being sacrificed for greed. Bury the lines. Line nuclear power, up front it might be costly, but down the road it pays off. Bury the lines because it is the RIGHT thing to do.
Frank Shurtleff	Saluda, NC	2015-08-29	Duke Energy should explore multiple possibilities to determine the best option before spending billions on an unpopular plan.
cheryl platt	east quogue, NY	2015-08-29	It's not justified for the sake of greed !!
Megan Joppie	Petoskey, MI	2015-08-29	Our world is slowly slipping away from our fortunate grasp. When you can help save a mountain, untouched by humans why would you hesitate?
Danielle Veasy	Aberdeen, NC	2015-08-29	I am lucky to have Lumbee River as my Electric Co-op as my service provider. I believe Duke Energy is after profits.!!!
John Ariatti	Hendersonville, NC	2015-08-29	I'm signing this petition because the location of these power lines will directly affect my health.

Name	Location	Date	Comment
Arlene Bimberg	Mt Pleasant, SC	2015-08-29	I am signing to stop this.
gerald maier	Hendersonville, NC	2015-08-29	I am signing as I do not think Duke has told us everything and provided all options. Western North Carolina's beauty is our major economic asset. Not enough work has been done by Duke to demonstrate their commitment to preserve this.
scott brewner	Durham, NC	2015-08-29	I do not want these high tension power lines to ruin the gorgeous views we have in western NC, when there are much better options such as putting this lines under ground along the US 26 corridor.
Ruth Fouraker	Bryceville, FL	2015-08-29	I don't want the natural beauty of the area effected
Julie Futryk	Hendersonville, NC	2015-08-29	I'm signing because this project will destroy the delicate balance of one of the remaining, relatively parcels of untouched natural beauty of the NC Mountains and its population of wild animals, such as bobcat, bears, deer, birds including the NC state bird, wild turkeys plus the destruction of NC farming and rural life styles so apart of the rich Henderson county history. Asthetically and health-wise, humans are a part of that respectful relationship with nature. We stand here to defend that natural wonder and beauty that we're so richly endowed with and responsible for maintaining. If this project must continue for modernization, please keep it along the I-65 highway where the airport and traffic will be a more appropriate match to this electrical noise pollution and destruction of God-given nature. Much appreciated, Julie Futryk
Kenneth Futryk	Hendersonville, NC	2015-08-29	To place residents at risk for potentially harmful health hazards along with destruction of the natural beauty & abundant wildlife within this proposed route through highly residential areas demonstrates an unconscionable act of behalf of Duke Energy. Regardless of cost, I repeat, REGARDLESS OF COST, place your transmission lines along the highways!
Teresa Robinson	Mills River, NC	2015-08-29	This power line would make a major impact on my home value and impact my family's health.
Wendy Sundquist	Denton, MD	2015-08-29	I have beautiful property in Henderson and buncombe co which I want to stay pristine.
Brenda Bryan	Hendersonville, NC	2015-08-29	No money Duke to put in underground powerlines in the mountain communities as too costly but this you have the money for?
Carol Shaffer	Hendersonville, NC	2015-08-29	It runs thru Henderson county and we don't want it. No more steel structures to obscure our beautiful mountains!
Rudolph Eidam	Hendersonville, NC	2015-08-29	To preserve the natural beauty of our county.
Paul Bell	Hendersonville, NC	2015-08-29	I have a home in a beautiful setting overlooking Edneyville, NC. One of the proposed lines would come through the middle of our small development, ruining the views and decimating property values. It is unlikely other people will want to purchase property here if the line goes through this area. The line would also cross through orchards, possibly destroying livelihoods of the owners and their employees.
Laura Brewner	Durham, NC	2015-08-29	I'm signing because I feel the lines should be underground not only from an aesthetic perspective and eventual reduction in tourism, but the maintenance of underground lines would be less and more cost-effective.
Shaton Kelly	Forest City, NC	2015-08-30	i care - this can't happen

Name	Location	Date	Comment
William Gordon	Saluda, NC	2015-08-30	I am signing because this will drastically effect my family home and the home I currently reside. Not only by the destruction of the mountains and forests above me but of course the property value of my home that has been in the family since 1920. A note that Lake Summit was Duke powers first power lake and I would hope that they would have some consideration of the now property owners and residents of this lake
tim hansen	Brevard, NC	2015-08-30	to protect the economy and ecology of the proposed route
Susan Johann	Columbus, NC	2015-08-30	We need to stop them from desecrating this landscape. There must be another route
Kathryn Gordon	Netherlands	2015-08-30	I own property at Lake Summit. I do not want to see power lines coming through our lake.
Nora Tindall	Spartanburg, SC	2015-08-30	Duke energy should concentrate on service to its present customers. That should put enough money in their pockets. All the price increases for their new projects that do not benefit present customers is not looking after the long time users. .
MarY corley	Asheville, NC	2015-08-30	Duke Energy is a monster. I like electricity but am sick of being chewed up, spit out by Duke. How about public utilities start working for its customers instead of shareholders.
Keith Wedgworth	Wellington, FL	2015-08-30	Because I have a house in the way.
Miguel Gonza'lez	Columbus, NC	2015-08-30	I'm signing this petition because the foothills is home to many people and animals. Bringing these power lines through would not only destroy the land for its residents but also displace many species of animals from their homes.
Daniel Brenman	Columbus, NC	2015-08-30	This is not the way to modernize. Spend the money and bury it if you've gotta have it.
Bunny O'neal Bishop	Spartanburg, SC	2015-08-30	It is wrong to tarnish our beautiful Foothills.
Karl Abbadessa	Fletcher, NC	2015-08-30	<p>Duke energy has already shown their lack of commitment to the environment.</p> <p>Unlike cleaning ash from our rivers, 17b is what will amount to at least 150+ years of visual pollution in what is currently a beautiful, pristine area. Do we care nothing for future generations?</p> <p>I do not for a minute, believe that Duke can not get the approval to bury cable along the interstate.</p> <p>I do not believe that burying the cable along interstates is more expensive than cutting a 150 foot wide right of way through our woods and neighborhoods.</p> <p>Do we really know what the health effects are living that close to power lines, day after day?</p> <p>As with all corporations, Duke energy is all about making the most money for the least expense. There are alternatives, it's just that - well, it's always been done this way.</p> <p>Karl Abbadessa 559 Lindsey loop Rd Fletcher, NC</p>
Lynne Cox	Arden, NC	2015-08-30	I live in a church. Campground that would be lost forever if Duke goes through. Devastating!
Harriet Bender	Mill Spring, NC	2015-08-30	This project will adversely affect our view, property value, and adversely affect endangered species on the property.

Name	Location	Date	Comment
Paul Bonner	Huntsville, AL	2015-08-30	I love North Carolina and the mountains. I worked in NC for 30 years, spent my summers growing up in Washington, NC and my parents met at Kanuga in Hendersonville. I go to Kanuga every Thanksgiving. We don't need more power lines. We need more responsible energy production.
Joan Burns	Campobello, SC	2015-08-30	Because this area is my home, and I don't want the beauty destroyed. Nor friends & families land to be taken away from them.
lynne parsons	mill spring, NC	2015-08-30	It is not in the best interest of the citizens, simple cooperate expansion. Go green and lead the way, build the size plant you actually need and stop trying to export energy at our expense. We came here from Chicago for nature, not power.
Sally Carrocino	Los Angeles, CA	2015-08-30	We can't let this ruin this beautiful area.
Amelia Kinard	Columbia, SC	2015-08-30	I love these mountains and most of all I know the importance of Camp Lutheridge and Camp Kanuga.
Jean Eckert	Columbus, NC	2015-08-30	Duke Energy doesn't need it, the people do not need it, and our naturally beautiful area does not need it!
